International Public Finance A New Perspective On Global Relations:

Global Nation? John Wiseman, 1998-11-13 Globalisation was one of the most ubiquitous buzzwords of the late twentieth century yet its meaning was often elusive Retrenchments trade alliances global warming currency devaluations and so on are often explained as unavoidable consequences of globalisation and even everyday things from the food we eat to the television we watch and the clothes we wear are apparently impacted upon by globalisation This 1998 book provides an accessible exploration of the meanings and implications of globalisation The discussion is carefully grounded in the changing social economic ecological and political relationships of Australia Global Nation also looks at a range of existing and potential responses to the globalisation process arguing that there may be alternatives even though we are increasingly told that there are not

The Global New Deal William F. Felice, 2010-01-15 This powerful and empowering text offers a way forward out of global human suffering presenting a realistic roadmap for practical workable solutions to mass poverty Now fully updated including entirely new chapters The Global New Deal investigates key areas central to the achievement of economic and social human rights international political economy U N policies and programs environmental sustainability racial bias gender equality military spending and the U S approach to poverty alleviation Felice then introduces what he calls the global new deal a set of international policy proposals designed to protect the vulnerable and end needless suffering These structural reforms provide a viable means by which to safeguard social and economic human rights for all

Providing Global Public Goods Inge Kaul, Pedro Conceicao, Katell Le Goulven, Ronald U. Mendoza, 2003-01-16 Elaborating on the concepts first introduced in Global Public Goods this book addresses the long overdue issue of how to adjust the concept of public goods to today's economic and political realities The production of global public goods requires the orchestration of initiatives by a large number of diverse actors across different levels and sectors It may require the collaboration of governments business and civil society and in most cases it almost certainly calls for an effective linkage of the local national regional and global levels In light of today's new realities this book examines a series of managerial and political challenges that pertain to the design and implementation of production strategies and the monitoring and evaluation of global public goods provision As participatory decision making enhances the political support for and thus the effectiveness of certain policy decisions this volume offers suggestions on a number of pragmatic policy reforms for bringing the global public more into public policy making on global issues Nine case studies examine the importance of the global public good concept from the viewpoint of developing countries exploring how and where the concerns of the poor and the rich overlap Providing Global Public Goods offers important and timely suggestions on how to move in a more feasible and systematic way towards a fairer process of globalization that works in the interests of all

Issues in Global Governance Commission on Global Governance, 1995-09-28 Issues on Global Governance contains the Expert Papers of the Commission on Global Governance The Commission is concerned primarily with furthering global cooperation i.e coordinated multilateral action to meet the

challenge of securing peace achieving sustainable development and universalizing democracy The Expert Papers have been written especially for the Commission's Working Groups One Global Values Two Security Three Development Four Governance by authorities in the field viz Abi Saab Galtung Haas *World Democratic Federalism* M. Frankman, 2004-03-31 Myron J Frankman provides an interrelated set of initiatives whose components are consistent with the logic of both the process of globalization and the emerging properties of our time Sustainability democratization equal opportunity diversity and peace He brings together the case for global public finance a single world currency and a planet wide citizen's income all within the context of democratic federalism extending from the local to the global **Advancing Public Goods**

Jean-Philippe Touffut, 2006-01-01 This is a timely and thought provoking book which brings the discussion of public goods to confront the contemporary world economy where such goods have often a global nature and require super national provision and control Giovanni Dosi St Anna School of Advanced Studies Pisa Italy In this wide ranging selection of papers distinguished economists public policy advisers and political theorists contribute to the debate on public goods The studies cover topics in the conceptualization classification and stratification of public goods Also examined are public institutional design global economic institutions and partnership typologies Individual papers address the financing regulatory organizational and legal aspects relating to services of general interest in Europe The dynamics of global public good production including monopolies patents scientific uncertainty and market failures are discussed Empirical research on the state profit and non profit sectors is presented Providing numerous examples of specific public goods the contributions also highlight the impact of macroeconomic policies on provision The book presents a broad diversity of new approaches to global public goods within the framework of mixed economies beyond the standard economic analysis of public services Academics researchers and policymakers in the area of global public goods and services will find this volume of great interest **The**

Philosophy of Taxation and Public Finance Robert W. McGee, 2011-06-27 Most public finance books are texts which are aimed at undergraduate or graduate students They are overly technical in nature and appeal only to a narrow range of bureaucrats and academics Books on taxation are written for tax practitioners and usually emphasize either what the law is or how to maneuver through the labyrinth of tax law to minimize taxes for clients Philosophy books on taxation or public finance simply do not exist The Philosophy of Taxation and Public Finance is different It is written in nontechnical language and is aimed to appeal to a wide range of readers including practitioners academics and students in the fields of taxation public finance economics law philosophy and political science as well as general readers who are interested in learning why they are being taxed the way they are The author addresses the major issues and topics in taxation and public finance and injects them with philosophical insights He discusses questions such as What arguments have been used to justify taxation When is tax evasion unethical Are some taxes better than others What are the proper functions of government How much is enough Is the ability to pay concept valid When can punitive taxes be justified **Global Governance** Meghnad Desai, Paul

Redfern,1995-01-01 This is the first volume arising from the work of the Centre for the Study of Global Governance based at the London School of Economics Governance in this context should not be confused with government it is not the idea of one world government which is being revived Global governance as a concept and as a programme needs to be defined in the context of four pillars post mural post imperial post Keynesian and post industrial The two political pillars the post mural and the post imperial define the constraints on the UN system The two economic pillars run across the political and are reconstituting the world in a way more radical than the political This volume examines the ethical ecological and economics issues emerging from the changing global order Civil Societies and Social Movements Ronnie D. Lipschutz,2017-03-02

This volume offers an historical and comparative overview of the literature theory practices and critiques of what has been variously labelled global or transnational civil society which includes a broad range of non state actors political social and economic The volume includes an introductory essay that historicizes and problematizes the relationship of society to state and market and contextualizes the pieces in the volume while locating the literature in relationship to international relations political science and sociology *Closing the Rights Gap* LaDawn Haglund,Robin Stryker,2015-03-21 Do human rights as embodied in constitutions national laws and international agreements foster improvements in the lives of the poor or otherwise marginalized populations When where how and under what conditions Closing the Rights Gap From Human Rights to Social Transformation systematically compares a range of case studies from around the world in order to clarify the conditions under which and institutions through which economic social and cultural rights are progressively realized in practice It concludes with testable hypotheses regarding how significant transformative change might occur as well as an agenda for future research to facilitate rights realization worldwide Human Rights and Public Goods William F.

Felice,Diana Fuguitt,2020-09-21 This powerful and empowering text offers a way forward for alleviating human suffering presenting a realistic roadmap for enhanced global governance that can create workable solutions to mass poverty William Felice and Diana Fuguitt emphasize the critical links between international human rights law international political economy and global organizations to formulate effective public policy to alleviate human suffering and protect basic human rights for all They introduce students to the key legal and economic concepts central to economic and social human rights including the right to education a healthy environment food basic health care housing and clean water They analyze the legal approaches undertaken by the United Nations and explain the key theories of international political economy including liberalism nationalism and structuralism and central economic concepts including global public goods economic equality and the capabilities approach In the last decade a backlash against economic globalization has been fueled by a variety of politicians around the world A resurgent nationalism is often pitted against international organizations and frameworks for global cooperation In this new edition Felice and Fuguitt account for how the current global political climate has affected national and global policies for the provision of public goods and the protection of human rights They focus on practical policies and

actions that both state and nonstate actors can take to uphold economic and social rights As the first book to integrate these legal and economic approaches it provides a practical path to action for students academics and policy makers alike New Knowledge in a New Era of Globalization Piotr Pachura,2011-08-01 To better understand the contemporary world the world of innovation and technology science should try to synthesize and assimilate social science in the development of our civilization Does the new era require new knowledge Does the age of globalization demand new education new human attitudes This books tries to clarify these questions The book New Knowledge in a New Era of Globalization consists of 16 chapters divided into three sections Globalization and Education Globalization and Human Being Globalization and Space The Authors of respective chapters represent a great diversity of disciplines and methodological approaches as well as a variety of academic culture This book is a valuable contribution and it will certainly be appreciated by a global community of scholars **Journal of the Senate** Philippines. Congress (1987-). Senate,1993 *The United Nations Development Programme* Craig N. Murphy,2006-09-14 The United Nations Development Programme is the central network co ordinating the work of the United Nations in over 160 developing countries This 2006 book provides the first authoritative and accessible history of the Programme and its predecessors Based on the findings of hundreds of interviews and archives in more than two dozen countries Craig Murphy traces the history of the UNDP s organizational structure and mission its relationship to the multilateral financial institutions and the development of its doctrines He argues that the principles on which the UNDP was founded remain as relevant in a world divided by terrorism as they were in the immediate aftermath of the Second World War as are the fundamental problems that have plagued the Programme from its origin including the opposition of traditionally isolationist forces in the industrialized world IDRC Bruce Muirhead,Ronald N. Harpelle,2010-09-07 Adam Sneyd Department of Political Science University of Guelph **The Future of Aid** Jonathan Glennie,2020-11-29 International cooperation has never been more needed but the current system of aid is outdated and ineffective The Future of Aid calls for a wholesale restructuring of the aid project a totally new approach fit for the challenges of the 21st century Global Public Investment Across the world billions of people are struggling to get by in unequal and unsustainable societies and international public finance which should be part of the answer is woefully deficient Engagingly written by a well known expert in the field The Future of Aid calls for a series of paradigm shifts From a narrow focus on poverty to a broader attack on inequality and sustainability From seeing international public money as a temporary last resort to valuing it as a permanent force for good From North South transfers to a collective effort with all paying in and all benefitting From outdated post colonial institutions to representative decision making From the othering and patronising language of foreign aid to the empowering concept of Global Public Investment Ten years ago in The Trouble with Aid Jonathan Glennie highlighted the dangers of aid dependency and the importance of looking beyond aid Now he calls for a revolution in the way that we think about the role of public money to back up our ambitious global objectives In the wake of

the COVID 19 crisis it is time for a new era of internationalism

The Future of Development Financing F. Sagasti, K. Bezanson, F. Prada, 2005-06-14 Today's international development financing system seems like a collection of disjointed entities that often work at cross purposes without being able to mobilize enough finance for developing countries in their efforts to reduce poverty and improve living standards This book brings together the vast array of new initiatives in financing mechanisms and proposals to transform the development finance architecture Based on four different scenarios for the next ten year period proposals are made for how to reach an effective system

Sustainability and Policy Michael S. Common, 1995-07-28 Two of the greatest problems facing the human race today are poverty and the threat to the natural environment Economic growth is routinely advocated as the solution to poverty but the natural environment is already threatened by current levels of economic activity This compelling book examines both economic and ecological approaches to this dilemma and considers policy issues for industrial economies It also includes a useful review of recent literature in the area Michael Common argues that economists rarely address threats to sustainability He suggests that while economics cannot offer a blueprint for a sustainable society the use of economic or price incentives can help achieve social goals and address threats to sustainability This book is a balanced constructive and original contribution in the rapidly emerging fields of environmental economics and policy

Governing Globalization Deepak Nayyar, 2002-07-18 It is now more than fifty years since the United Nations system and the Bretton Woods institutions were created The world has changed since then and so have its governance needs in terms of institutions and rules It is time to think about the contours of institutions and governance that would meet the needs of the world economy and also polity at least for the first quarter of the twenty first century This book is among the first to examine the subject in depth The study is divided into four parts The first situates the subject in the wider context of globalization which has shaped development in the world economy affected the living conditions of people and constrained the role of nation states The international context and the national setting are explored The second part analyses some issues of emerging significance in the contemporary world such as global macroeconomic management transnational corporations international capital flows and cross border movements of people to suggest that there are some missing institutions which are needed The third part provides a critical evaluation of the existing institutions in retrospect with a focus on the UN the IMF the World Bank and the WTO It analyses how existing rules need to be modified or existing institutions need to be restructured to meet the present and future needs of global governance The fourth part explores some important elements of governance which are critical for any vision of the future It suggests some changes in existing institutions and points to emerging governance needs where new institutions may have to be created This authoritative volume will be of value to readers with an interest in international economics development economics and international relations It will also be of value to practitioners both policy makers and diplomats concerned with problems of global governance and should become the standard reference on the subject

Sharing Security M. Chalmers, 2016-04-30

Sharing Security is a unique and comprehensive study of a key yet often neglected feature of modern international society. It begins by assessing how political theory can contribute to an understanding of international burdensharing. It then analyses in turn why some Western states contribute more than others to common defences, the European Union budget and overseas development aid. It highlights the particular burdensharing problems involved in global regimes focusing on the UN's continuing financial crisis and the costs of combating global warming. It argues that today's burdensharing disparities continue to be shaped by the particular character of the international settlement at the end of the Second World War.
