The Limits of Peacekeeping: Volume 4, The Official History of Australian Peacekeeping, Humanitarian and Post-Cold War Operations Jean Bou, Bob Breen, David Horner, Garth Pratten, Miesje de Vogel, 2018-10-10 The Limits of Peacekeeping highlights the Australian government's peacekeeping efforts in Africa and the Americas from 1992 to 2005 Changing world power structures and increased international cooperation saw a boom in Australia's peacekeeping operations between 1991 and 1995 The initial optimism of this period proved to be misplaced as the limits of the United Nations and the international community to resolve deep seated problems became clear There were also limits on how many missions a middle sized country like Australia could support Restricted by the size of the armed forces and financial and geographic constraints peacekeeping was always a secondary task to ensuring the defence of Australia Faith in the effectiveness of peacekeeping reduced significantly and the election of the Howard Coalition Government in 1996 confined peacekeeping missions to the near region from 1996 2001 This volume is an authoritative and compelling history of Australia's changing attitudes towards peacekeeping

Winston Churchill B.J.C. McKercher, Antoine Capet, 2019-01-24 Although remembered and even lauded in the public mind as the British prime minister during the Second World War who played a major role in Allied victory over the Axis Powers and Japan Winston Churchill had a life and political career before 1939 conditioned by fighting other wars and in peacetime thinking about war While historians debate his achievements and failures between 1939 and 1945 a less explored dimension is Churchill's earlier connexion with war and warfare This book explores Churchill's earlier experience in fighting wars as a soldier and politician

Clausewitz Reconsidered H. P. Willmott, Michael B. Barrett, 2009-11-25 This fascinating book assesses Prussian military

thinker Carl von Clausewitz's famous theory on warfare in relation to historical and modern day conflict and future trends Carl von Clausewitz's *On War* is arguably the most important single work ever written on the theory of warfare and military strategy In *Clausewitz Reconsidered* two prominent military historians assess his theories examining their viability at a time when asymmetric warfare and war conducted by and against nonstate actors is increasingly common and state control often ephemeral The basis of the book's analysis is an examination of war over the last four centuries since the Thirty Years War including the Cold War and subsequent conflicts What is discovered is that war is far more endemic and brutal today than when Clausewitz tried to explain it This volume explores that paradox and shows that if anything we can anticipate further uncontrolled violence The authors conclude that Clausewitz and *On War* have assumed a status akin to holy writ but are obviously dated The aim of *Clausewitz Reconsidered* is to bring the master's theories up to date providing the current generation with a new basis for thought and analysis

Global Perspectives on Global History Dominic Sachsenmaier, 2011-08-04 In recent years historians across the world have become increasingly interested in transnational and global approaches to the past However the debates surrounding this new border crossing movement have remained limited in scope as theoretical exchanges on the tasks responsibilities and potentials of global history have been largely confined to national or regional academic communities In this groundbreaking book Dominic Sachsenmaier sets out to redress this imbalance by offering a series of new perspectives on the global and local flows sociologies of knowledge and hierarchies that are an intrinsic part of historical practice Taking the United States Germany and China as his main case studies he reflects upon the character of different approaches to global history as well as their social political and cultural contexts He argues that this new global trend in historiography needs to be supported by a corresponding increase in transnational dialogue cooperation and exchange

On History and Memory in Arab Literature and Western Poetics Bootheina Majoul, Yosra Amraoui, 2020-10-06 Texts act like receptacles for an ever present remembered past or what the French philosopher Paul Ricœur calls the present representation of an absent thing They might embody an efficient remedy to forgetting but could also become a vivid testimony for exorcised traumas This volume focuses on Ricœur's phenomenology of memory epistemology of history and hermeneutics of forgetting A special emphasis is laid on the dissension between individual and collective institutional memory
