Neubauer,Ka Ho Mok,Sachi Edwards,2019-09-25 This edited volume brings together exciting new research and ideas related to the ongoing internationalization of higher education particularly in the Asia Pacific region where this phenomenon has been rapidly developing in recent years It also specifically focuses on analyzing the extent to which resurgent nationalisms from around the world effect the growth and direction of this sector of education As cultural and political

tensions rise globally many are turning to educators and education researchers for suggestions on how to respond to this trend This volume seeks to answer that call Moreover as authors share perspectives and data from a wide range of national and institutional contexts the applicability of this volume extends beyond national or regional boundaries offering questions challenges and lessons for educators worldwide   *Higher Education in the Asia-Pacific* Simon Marginson,Sarjit Kaur,Erlenawati Sawir,2011-08-21 This survey provides unprecedented scope and detail of analysis on higher education in the Asia Pacific region In this era of global integration convergence and comparison the balance of power in worldwide higher education is shifting In less than two decades the Asia Pacific region has come to possess the largest and fastest growing higher education sector on Earth The countries of East and Southeast Asia and the Western Pacific together enrol 50 million tertiary students compared to 14 million in 1991 and will soon conduct a third of all research and development In China Hong Kong Taiwan Korea and Singapore world class universities are emerging at breakneck pace fostered by modernizing governments that see knowledge and skills as key to a future shaped equally by East and West and supported by families deeply committed to education But not all Asia Pacific countries are on this path not all reforms are effective and there are marked differences between nations in levels of resources educational participation research state controls and academic freedom Higher Education in the Asia Pacific Strategic responses to globalization provides an authoritative survey of tertiary education in this diverse and dynamic region Its 23 chapters written by authors from a dozen different countries focus successively on the Asia Pacific as a whole the strategies of individual universities and national policies and strategies in response to the global challenge   **Internationalisation of Higher Education in the Asia-Pacific Region** ,1996   Internationalising Higher Education In The Asia Pacific: Case Of Australia, Japan And Singapore Teofilo C Daquila,2022-07-28 With his many years of overseas experiences as an international student educator and scholar Teofilo C Daquila has conducted his research on the internationalisation of higher education IHE as it has become an important policy issue and research topic for governments and universities around the world He aims to determine the extent of internationalisation of higher education in the Asia Pacific region particularly in Australia Singapore and Japan in terms of its determinants and impacts using a multi and inter disciplinary framework of analysis through historical political geographical economic social and cultural dimensions Daquila examines three leading universities in the world as case studies to determine their internationalisation experiences and the extent of their competitiveness These are the University of Melbourne the National University of Singapore and Kyoto University He uses four indicators of competitiveness governance and structure demand conditions factor conditions and internationalisation strategies using the following indicators of IHE expansion broadening diversification deepening and facilitation This book is highly recommended for anyone interested in the internationalisation of higher education its determinants and multiple perspectives the competitiveness and internationalisation experiences and strategies of universities   *Internationalization in Higher Education and Research*

Lars Engwall,2024-01-01 This book examines the pros and cons of the internationalization of higher education institutions which is an important feature of modern universities It makes a significant contribution to our understanding of universities and an important input to the assessment of the internationalization of higher education institutions both for regulators and for the universities themselves The book s three parts focus on a number of issues associated with internationalization The first part Perspectives on Internationalization provides critical reflections on internationalization on the globally distributed European American university and on the impact of rankings The second part The Obstacles to Internationalization deals with the significance of language challenges of mobility and environment concerns The third part Alternative Modes of Internationalization discusses internationalization at home international distance education and the establishment of international branch campuses *Internationalization of Higher Education in East Asia* Ka-Ho Mok,Kar Ming Yu,2013-11-12 The rise in demand for higher education in the Asia Pacific region is an undeniable reflection of the growing pace of globalization and the subsequent pressures imposed by it Aspiring to become globally competitive and to position favourably in the global university league tables governments in Asia have either engaged in a serious quest to become a regional education hub or they have concentrated on developing transnational higher education to create more opportunities in order to meet their citizens pressing demand for higher education Internationalization of Higher Education in East Asia critically examines and provides comparative perspectives on the major strategies that selected Asian countries and societies have adopted to transform their higher education sector and enhance their national competitiveness in the increasingly globalized world This volume by leading scholars in the field of education development and policy studies makes critical reflections on how Asian governments in particular and universities in general have responded to the growing challenges of globalization by promoting more internationalization student mobility and entrepreneurship in higher education This book is an essential collection for policy makers researchers and postgraduate students studying higher education Asian education and international education *Internationalisation and Marketisation of Higher Education in the UK* Zahra Kemiche,2024-09-23 This timely volume sets out the author s novel concept of the Organic model of internationalisation developed using participants perceptions lived experiences and recommendations for a better sustainable future of HE and explores its broader application in the context of higher education Using the qualitative IPA Interpretative Phenomenological Analysis approach chapters showcase the lived experiences and subjective perspectives of individuals around the paradox that internationalisation presents the distorting effects of institutional power and the market and ethics based concerns of internationalisation in higher education Drawing on an in depth empirical study conducted using participant observation and interviews with participants from three UK universities the book proposes a framework for redefining the global discourse of HE through the Organic model and urges the need for a compromise between profit and ethics to the benefit of both organisations and individuals The book thoroughly discusses racist practices and introduces the concepts of xeno racism and

angelism ensuring that the proposed approach is authentic and responsive to the diverse experiences of the student body Showcasing a model with international potential and ramifications this book will appeal to researchers academics and postgraduate students in higher education internationalisation and international study mobility Practitioners and policymakers may also benefit from the volume **Global Multi-level Governance** César de Prado,2007 Since the end of the Cold War European and East Asian states have developed a series of unique trans boundary structures and agreements such as the European Union and ASEAN and through new bilateral multilateral and inter regional relationships both Europe and East Asia are helping to transform other regions and the global community This publication examines the complex emergence of a multi level global governance system through innovative developments in info communications governance the role of policy advisors think tanks and related track 2 processes and changes in higher education systems **The Internationalization of Higher Education and Business Schools** Gabriel Hawawini,2016-07-29 This book provides a critical review of the internationalization process among higher education institutions HEIs taking a closer look at the case of business schools The first part offers a novel definition of this phenomenon and examines the forces that drive international initiatives It then examines and explains the internationalization paradox the observation that despite evidence that many international initiatives fail to deliver what they promise for the heads of HEIs they nevertheless remain at the top of the agenda In turn the second part of the book develops a unifying framework that identifies alternative models of internationalization and explains how they relate to one another Based on this framework the book presents a model of the truly global HEI whose mission is to learn from the world rather than teach the world what it knows The book s central thesis is that it is unlikely that HEIs will be able to transform themselves into truly global HEIs because of historical and organizational barriers rather than a shortage of resources or a lack of visionary leadership The book concludes that most HEIs should refrain from claiming that their aim is to become global institutions and should instead focus on the successful implementation of an import export model of internationalization that calls for initiatives such as the internationalization of the curriculum the creation of student and faculty exchange programs and the participation in international academic and research partnerships Any attempt to transform themselves into truly global institutions is unlikely to succeed and may distract them from their fundamental mission to educate their home based students and help them become effective global citizens *Languages and the Internationalisation of Higher Education* Dolores González-Álvarez,Esperanza Rama-Martínez,2020-03-30 This volume offers an overview of the context of internationalisation in which plurilingualism becomes a strategic axis for universities and in which university language centres serve as the key instrument to implement this process It focuses on three key areas in which language centres are working together with governments across Europe namely language policy and internationalisation specific training for the university community and language testing and accreditation The contributors to this book are all policy makers instructors or evaluators from university language centres

involved in the internationalisation of their institutions through languages They teach and evaluate not only regular students but students with very specific needs such as lecturers delivering content courses in English students in mobility programmes or administrative staff in contact with international students The book also includes the presentation of the first national higher education language policy in Europe developed by the Language Policy Commission of the Board of Rectors of Spanish Universities and endorsed by all public and private universities in Spain **The Globalization of Internationalization** Hans de Wit,Jocelyne Gacel-Ávila,Elspeth Jones,Nico Jooste,2017-01-20 The Globalization of Internationalization is a timely text which gives voice to emerging perspectives as an increasing range of countries engage in the process of internationalization The pressure to internationalize cannot be ignored by institutions anywhere in today s world yet the dominant paradigms in the conception of internationalization traditionally come from the English speaking world and Western Europe This book sets out to offer alternative viewpoints Different dimensions and interpretations of internationalization in countries and regions whose perspectives have received little attention to date provide food for thought and help to broaden understanding of its application in alternative contexts Combining diverse perspectives from around the world this new volume in the Internationalization in Higher Education series seeks answers to key questions such as What are the main characteristics of internationalization viewed from different cultural and regional backgrounds and how do they differ from traditional models such as in Western Europe North America and Australasia What issues in different global contexts have an impact on internationalization processes What are the key challenges and obstacles encountered in developing innovative and non traditional models of internationalization With contributions from world renowned international authors and perspectives from countries and contexts seen only rarely in the literature The Globalization of Internationalization offers distinctive overviews and insights while exploring a range of thematic and regional issues arising from these considerations This will be essential reading both as an academic resource and a practical manual for university leaders academics higher education policy advisers and non governmental organizations which fund higher education

Global Perspectives on the Internationalization of Higher Education Branch, John D.,Durnali, Mehmet,2023-02-24 Transnational higher education was triggered largely by the marketization of higher education which itself manifests in such characteristics as academic rankings institutional branding and an emphasis on managerialism Recent advances in technology and the global COVID 19 pandemic have also driven a virtual internationalization of higher education with universities expanding their digital footprints overseas accelerating their distance education offerings and exploring such innovations as virtual exchange programs Global Perspectives on the Internationalization of Higher Education documents contemporary perspectives on the internationalization of higher education and considers its history throughout the years in order to understand potential future directions Covering key topics such as student recruitment institutional branding and student mobility this premier reference source is ideal for administrators principals researchers academicians practitioners
