Internationalism Bruno Leone, 1978 Alberta Authorized Resource ca 1980 94 *Internationalism* Bruno Leone, 1986

Imperialism and Internationalism in the Discipline of International Relations David Long, Brian C. Schmidt, 2006-01-01

What were the guiding themes of the discipline of International Relations before World War II The traditional disciplinary history has long viewed this time period as one guided by idealism and then challenged by realism This book reconstructs in detail some of the formative episodes of the field s early development and arrives at the conclusion that in actuality the early years of International Relations were preoccupied not with idealism and realism but with the dual themes of imperialism and internationalism Thus the beginnings of the discipline have resonance with the recently revived discourse of empire and the global status and policies of the United States as the world s sole superpower **America in Perspective** Andrew S.

Weeks, 2000-08 Numerous books and pamphlets have been written on what the author calls the American theme However many of these publications are nothing more than a synopsis of American tragedy and government corruption This book has a larger more ideal ambition says the author In the truest sense America in Perspective is not as much a book about what s wrong with America as it is a book about what s right or will be right with America America in Perspective is a catchy book different than the masses The author writes of America s past present and future as seen through a religious perspective Though primarily LDS Latter day Saint or Mormon oriented America in Perspective can inspire anyone who has even an inkling of American patriotism With numerous quotes from scripture past and present religious authorities political leaders and other sources America in Perspective is a classy book that fills a contemporary need The Next Cold War? James M. Hanson, 1996-09-24 The Next Cold War sounds a warning the United States may be contributing to another cold war through its competitive unilateral and regional economic policies Whereas wars of the past usually resulted from political conflict Hanson warns that a new cold war may result from economic conflict This raises important questions for American policymakers Will the United States be a world leader that promotes cooperation and unity or will it seek to create competition and division Will the United States address the basic problems of population environmental deterioration and economic stagnation in concert with other nations or will it pursue narrow geopolitical and geoeconomic power strategies This fascinating work explores both sides of these questions and poses alternatives that will promote world cooperation and unity

Internationalism and the Ideology of Soviet Influence in Eastern Europe Jonathan C. Valdez, 1993-04-29 Valdez argues that the use of the fundamental principles of Marxism Leninism to perform various functions ultimately brought about a change in the basic assumptions of the theory itself This resulted in the abandonment of the previous insistence on a universal model of socialism and of the idea that the international interests of the socialist bloc must take precedence over individual national interest Soviet influence in Eastern Europe rested on little else than these ideological principles and consequently stood little chance of surviving their re interpretation Finally Valdez assesses the re interpretation of the

fundamental principles of Soviet East European relations by reformist scholars in the Soviet Union and the response by conservative members of the party apparatus **Technological Internationalism and World Order** Waqar H.

Zaidi,2021-06-03 Between 1920 and 1950 British and US internationalists called for aviation and atomic energy to be taken out of the hands of nation states and instead used by international organizations such as the League of Nations and the United Nations An international air force was to enforce collective security and internationalized civil aviation was to bind the world together through trade and communication The bomber and the atomic bomb now associated with death and devastation were to be instruments of world peace Drawing on rich archival research and focusing on public and private discourse relating to the control of aviation and atomic energy Waqar H Zaidi highlights neglected technological and militaristic strands in twentieth century liberal internationalism and transforms our understanding of the place of science and technology in twentieth century international relations **Labour Internationalism in the Global South** Robert

O'Brien,2019-01-03 Labour internationalism is often viewed as impossible or inevitable depending upon political perspective O'Brien argues for a more nuanced diverse understanding of labour internationalism identifying six different faces shaped by the national or global orientation of particular groups in the fields of production regulation and ideas Providing a general view of labour's global activity and a case study of the Southern Initiative on Globalisation and Trade Union Rights SIGTUR the book illustrates how the productive and regulatory structures of the global economy are pushing labour internationalism in particular directions It details how leftist unions in Argentina Australia Brazil India the Philippines South Africa and South Korea have tried to bridge their differences and launch collective actions Drawing upon twenty years of participant observation O'Brien reveals a specific Global South approach based upon anti imperialism anti capitalism and empathetic internationalism Globalization, Social Movements, and the New Internationalism Peter Waterman,2010-06-15 In a

political climate where loose talk of a third way passes for political idealism Waterman's passionate book examines the possibilities for a new style global solidarity suited to complex capitalist modernity The author examines the past internationalism of Labour and socialists and the present one of radical democratic social movements discussing how the Left might build on this experience to recover a humanist and emancipatory tradition of internationalism which would address our multiple global social problems Faces of Internationalism Eugene R. Wittkopf,1990 In Faces of Internationalism Eugene

R Wittkopf examines the changing nature of public attitudes toward American foreign policy in the post Vietnam era and the role that public opinion plays in the American foreign policymaking process Drawing on new data from four mass and four elite opinion surveys undertaken by the Chicago Council of Foreign Relations from 1974 to 1986 combined with sophisticated analysis techniques Wittkopf offers a pathbreaking study that addresses the central question of the relationship of a democracy to its foreign policy The breakdown of the consensus approach to American foreign policy after the Cold War years has become the subject of much analysis This study contributes to revisionist scholarship by describing the beliefs and

preferences that have emerged in the wake of this breakdown Wittkopf counters traditional views by demonstrating the persistence of U S public opinion defined by two dominant and distinct attitudes in the post Vietnam war years cooperative and militant internationalism The author explores the nature of these two faces of internationalism focusing on the extent to which elites and masses share similar opinions and the political and sociodemographic correlates of belief systems Wittkopf also offers an original examination of the relationship between beliefs and preferences *Leftist Internationalisms* Michele Di Donato, Mathieu Fulla, 2023-01-26 This volume offers a new perspective on the political history of the socialist communist and alternative political Lefts focusing on the role of networks and transnational connections Embedding the history of left wing internationalism into a new political history approach it accounts for global and transnational turns in the study of left wing politics The essays in this collection study a range of examples of international engagement and transnational cooperation in which left wing actors were involved and explore how these interactions shaped the globalization of politics throughout the 20th century In taking a multi archival and methodological approach this book challenges two conventional views that the left gradually abandoned its original international to focus exclusively on the national framework and that internationalism survived merely as a rhetorical device Instead this collection highlights how different currents of the Left developed their own versions of internationalism in order to adapt to the transformation of politics in the interdependent 20th century world Demonstrating the importance of political convergence alliance formation network construction and knowledge circulation within and between the socialist and communist movements it shows that the influence of internationalism is central to understanding the foreign policy of various left wing parties and movements

Inter/Nationalism Steven Salaita, 2016-11-01 The age of transnational humanities has arrived According to Steven Salaita the seemingly disparate fields of Palestinian Studies and American Indian studies have more in common than one may think In *Inter Nationalism* Salaita argues that American Indian and Indigenous studies must be more central to the scholarship and activism focusing on Palestine Salaita offers a fascinating inside account of the Boycott Divestment and Sanctions BDS movement which among other things aims to end Israel's occupation of Palestinian land In doing so he emphasizes BDS's significant potential as an organizing entity as well as its importance in the creation of intellectual and political communities that put Natives and other colonized peoples such as Palestinians into conversation His discussion includes readings of a wide range of Native poetry that invokes Palestine as a theme or symbol the speeches of U S President Andrew Jackson and early Zionist thinker Ze'ev Jabotinsky and the discourses of shared values between the United States and Israel *Inter Nationalism* seeks to lay conceptual ground between American Indian and Indigenous studies and Palestinian studies through concepts of settler colonialism indigeneity and state violence By establishing Palestine as an indigenous nation under colonial occupation this book draws crucial connections between the scholarship and activism of Indigenous America and Palestine

The Intercollegiate Socialist, 1913 *The International Minimum* Jessamyn R. Abel, 2015-05-31 The International

Minimum tells the history of internationalism in Japan from the 1930s to 1960s shedding light on the deep connections between modes of diplomacy during times of aggressive imperial expansion and of peaceful cooperation For most of the twentieth century a rhetoric of international cooperation for peace and stability persisted as the lingua franca of foreign relations in Japan and around the world even during the years of rampant nationalisms and global war The advocacy and practice of multilateral cooperation though attenuated and often distorted and abused did not disappear during the years of aggression and war but instead were channeled into new and unexpected directions With a broad view of international relations that takes into account but also looks beyond the official sites of multilateral cooperation this book uncovers a continuous evolution of internationalist thought and activity in Japan that extends across the dark valley of war and the historiographical schism of defeat Acknowledging this continuity does not mitigate the violence and atrocities of the wartime regime But recognizing that institutions activities and rhetoric that were derived from the Wilsonian internationalism of the 1920s contributed to imperialism and war as well as to the postwar construction of a peaceful and democratic new Japan does help us understand the enthusiastic participation in war and empire in the years before 1945 by many of the same people in all sectors of Japanese society who eagerly embraced postwar structures of cooperation for peace and shared prosperity This study rethinks the standard narrative of Japan's international cooperation in three ways by taking seriously those international activities conducted outside of formal state level relations by examining cultural forms of international engagement and by asserting the importance of rhetoric in cultivating what was then referred to as an international mind Rather than signaling the demise of multilateral participation Japan's infamous withdrawal from the League of Nations became in fact the occasion for the diversification of internationalist activities For instance proponents of a people's diplomacy campaigned to bring the 1940 Olympic Games to Tokyo and established the Society for International Cultural Relations a national organization for international cultural exchange But as Japanese society was increasingly mobilized for war even such popular and cultural efforts at international cooperation were made to contribute to the imperialist project In the decade after the war ended familiar internationalist rhetoric became a keystone in the construction of a so called new Japan This book traces the evolution of the internationalist worldview in Japan by examining both official policy and general discourse surrounding epochal moments such as Japan's withdrawal from the League and admission into the United Nations the failed and successful attempts to host a Tokyo Olympiad and wartime and postwar regional conferences in Tokyo and Bandung Indonesia Bringing these varied elements together produces a synthetic history of internationalism imperialism and the performance of diplomacy in the twentieth century when new global norms required a minimum level of international engagement This story is told through the materials of both high diplomacy and mass culture Unpublished documents in government and private archives reveal one layer of the formation of Japanese internationalism The public discourse found in popular journals books newspapers advertisements poems and songs articulates what would become the common sense

views of international relations that helped delineate the realm of the possible in imperial and postwar Japanese foreign policy

Sophonisba Breckinridge Anya Jabour, 2019-09-16 Sophonisba Breckinridge's remarkable career stretched from the Civil War to the Cold War. She took part in virtually every reform campaign of the Progressive and New Deal eras and became a nationally and internationally renowned figure. Her work informed women's activism for decades and continues to shape progressive politics today. Anya Jabour's biography rediscovers this groundbreaking American figure. After earning advanced degrees in politics, economics, and law, Breckinridge established the University of Chicago's School of Social Service Administration, which became a feminist think tank that promoted public welfare policy and propelled women into leadership positions. In 1935, Breckinridge's unremitting efforts to provide government aid to the dispossessed culminated in her appointment as an advisor on programs for the new Social Security Act. A longtime activist in international movements for peace and justice, Breckinridge also influenced the formation of the United Nations and advanced the idea that women's rights are human rights. Her lifelong commitment to social justice created a lasting legacy for generations of progressive activists.

Term Paper Resource Guide to Twentieth-Century United States History Ron Blazek, Teri Maggio, Robert Muccigrosso, 1999-05-30 Students will write more effective term papers with this guide to 500 term paper ideas as well as a listing of appropriate print and nonprint sources on twentieth-century U.S. history. This guide presents entries on 100 of the most important events and developments in twentieth-century U.S. history, organized in chronological order. Each entry consists of a short description of the event followed by five specific suggestions for term papers about the event and a wide-ranging annotated bibliography of 15-35 books, articles, videos, and a web site appropriate for student research. In every case, the emphasis is on recent and up-to-date material as well as landmark works and primary sources. Every entry contains a video and concludes with a recommended web site, producing a multimedia approach designed to appeal to the current information-gathering habits and preferences of young people. From the Spanish American War to the creation of NAFTA, the 100 events and developments cover political, social, economic, and cultural issues. The work has been designed to meet the needs of the U.S. history curriculum. Term paper topic ideas offer students thought-provoking suggestions that are challenging and develop critical thinking skills. The annotated bibliography is organized into reference sources: general sources, specialized sources, biographical sources, periodical articles, recommended videos, and World Wide Web sites. All items are readily available in school, public, and academic library collections. This unique guide is valuable not only to students but to teachers and librarians who guide students in research and is an excellent purchasing guide for librarians who serve student needs.

American Foreign Policy Ideology and the International Rule of Law Malcolm Jorgensen, 2020-01-02 Demonstrates American legal policymakers hold competing conceptions of the international rule of law, structured by foreign policy ideologies.

Viewpoints, 1929

School Library Journal, 1986

Internationalism Opposing Viewpoints Introduction

In the digital age, access to information has become easier than ever before. The ability to download Internationalism Opposing Viewpoints has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Internationalism Opposing Viewpoints has opened up a world of possibilities. Downloading Internationalism Opposing Viewpoints provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly

convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Internationalism Opposing Viewpoints has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Internationalism Opposing Viewpoints. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Internationalism Opposing Viewpoints. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Internationalism Opposing Viewpoints, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Internationalism Opposing Viewpoints has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Internationalism Opposing Viewpoints Books
