Internationalization Of Palace Wars:

The Internationalization of Palace Wars Yves Dezalay, Bryant G. Garth, 2010-02-15 How does globalization work Focusing on Latin America Yves Dezalay and Bryant G Garth show that exports of expertise and ideals from the United States to Argentina Brazil Chile and Mexico have played a crucial role in transforming their state forms and economies since World War II Based on more than 300 extensive interviews with major players in governments foundations law firms universities and think tanks Dezalay and Garth examine both the production of northern exports such as neoliberal economics and international human rights law and the ways they are received south of the United States They find that the content of what is exported and how it fares are profoundly shaped by domestic struggles for power and influence palace wars in the nations involved For instance challenges to the eastern intellectual establishment influenced the Reagan era export of University of Chicago style neoliberal economics to Chile where it enjoyed a warm reception from Pinochet and his allies because they could use it to discredit the previous regime Innovative and sophisticated The Internationalization of Palace Wars offers much needed concrete information about the transnational processes that shape our world **Paradoxes of European**

Legal Integration Anne Lise Kjær, Mikael Rask Madsen, 2016-12-05 Focusing on paradoxes and tensions of European legal integration this book investigates four complex and inherently contradictory processes constitutionalization and democratization institution building and market making cross cultural communication and European discourse and cultural exceptionalism and normalization to offer a new framework for understanding contemporary European integration The volume features contributions from some of the biggest names in European legal philosophy to include Neil MacCormick Yves Dezalay and Bryant Garth Pierre Legrand Heikki Mattila and David Nelken It presents a timely interdisciplinary approach to an important and topical area and will be of interest to those concerned with the place of socio legal processes language and culture in the continuous advancement of the EU project Bankrupt Terence Halliday, Bruce

Carruthers, 2009-04-20 Through the lens of the Asian Financial Crisis this book documents how international organizations and national governments crafted legal responses through corporate bankruptcy reforms to the fragility of financial markets in East Asia and worldwide **Expert Ignorance** Deval Desai, 2023-06-22 Today a transnational constellation of rule of law experts advise on good legal systems to countries in the Global South Yet these experts often claim that the rule of law is nearly impossible to define and they frequently point to the limits of their own expertise In this innovative book Deval Desai identifies this form of expertise as expert ignorance Adopting an interdisciplinary approach Desai draws on insights from legal theory sociology development studies and performance studies to explore how this paradoxical form of expertise works in practice With a range of illustrative cases that span both global and local perspectives this book considers the impact of expert ignorance on the rule of law and on expert governance more broadly Contributing to the study of transnational law governance and expertise Desai demonstrates the enduring power of proclaiming what one does not know This title is

available as Open Access on Cambridge Core *Comparative Law* Mathias Siems, 2018-04-12 *Comparative Law* offers a thorough grounding in the subject for students and scholars of comparative law alike critically debating both traditional and modern approaches to the subject and using examples from a range of legal systems gives the reader a truly global perspective Covering essential academic debates and comparative law methodology its contextualised approach draws on examples from politics economics and development studies to provide an original contribution to topics of comparative law This new edition is fully revised and updated throughout to reflect contemporary research contains more examples from many areas of law and there is also an increased discussion of the relevance of regional international transnational and global laws for comparative law Suitable for students taking courses in comparative law and related fields this book offers a fresh contextualised and cosmopolitan perspective on the subject **The Handbook of Law and Society** Austin Sarat, Patricia Ewick, 2015-04-08 Bringing a timely synthesis to the field *The Handbook of Law and Society* presents a comprehensive overview of key research findings theoretical developments and methodological controversies in the field of law and society Provides illuminating insights into societal issues that pose ongoing real world legal problems Offers accessible succinct overviews with in depth coverage of each topic including its evolution current state and directions for future research Addresses a wide range of emergent topics in law and society and revisits perennial questions about law in a global world including the widening gap between codified laws and law in action problems in the implementation of legal decisions law's constitutive role in shaping society the importance of law in everyday life ways legal institutions both embrace and resist change the impact of new media and technologies on law intersections of law and identity law's relationship to social consensus and conflict and many more Features contributions from 38 international expert scholars working in diverse fields at the intersections of legal studies and social sciences Unique in its contributions to this rapidly expanding and important new multi disciplinary field of study *International Courts in Latin America and the Caribbean* Salvatore Caserta, 2020-10-29 This book provides the first in depth and empirically grounded analysis of the foundations and evolution of the four Latin American and Caribbean regional economic courts the Central American Court of Justice CACJ the Caribbean Court of Justice CCJ the Andean Tribunal of Justice ATJ and the Mercosur Permanent Review Court MPRC While these Courts were established to build common markets and to enforce trade liberalisation they have often developed bodies of jurisprudence in domains not directly associated with regional economic integration The CCJ has been most successful in the area of human and fundamental rights the CACJ has addressed issues related to the enforcement of the rule of law in national legal arenas and longstanding border disputes between the countries of the region and the ATJ is an island of effective adjudication on intellectual property issues The particular trajectories of these four Courts suggest that there is no universal formula for success Challenging the mainstream account this book argues that the Courts operational path is not necessarily a function of their formally delegated competences or the will of the Member States Rather local socio political

contextual factors play a far more decisive role in influencing the direction of regional economic courts during and after their establishment

The New Law and Economic Development David M. Trubek, Alvaro Santos, 2006-08-21 This book is a collection of essays that identify and analyze a new phase in thinking about the role of law in economic development and in the practices of development agencies that support law reform The authors trace the history of theory and doctrine in this field relating it to changing ideas about development and its institutional practices The essays describe a new phase in thinking about the relation between law and economic development and analyze how this rising consensus differs from previous efforts to use law as an instrument to achieve social and economic progress In analyzing the current phase these essays also identify tensions and contradictions in current practice This work is a comprehensive treatment of this emerging paradigm situating it within the intellectual and historical framework of the most influential development models since World War II

The Brazilian Legal Profession in the Age of Globalization Luciana Gross Cunha, Daniela Monteiro

Gabbay, José Garcez Ghirardi, David M. Trubek, David B. Wilkins, 2018-01-11 Brings together experts from North and South to examine the impact of globalization on the corporate legal environment in Brazil

Six Faces of Globalization Anthea Roberts, Nicolas Lamp, 2021-09-28 An essential guide to the intractable public debates about the virtues and vices of economic globalization cutting through the complexity to reveal the fault lines that divide us and the points of agreement that might bring us together Globalization has lifted millions out of poverty Globalization is a weapon the rich use to exploit the poor Globalization builds bridges across national boundaries Globalization fuels the populism and great power competition that is tearing the world apart When it comes to the politics of free trade and open borders the camps are dug in producing a kaleidoscope of claims and counterclaims unlikely alliances and unexpected foes But what exactly are we fighting about And how might we approach these issues more productively Anthea Roberts and Nicolas Lamp cut through the confusion with an indispensable survey of the interests logics and ideologies driving these intractable debates which lie at the heart of so much political dispute and decision making The authors expertly guide us through six competing narratives about the virtues and vices of globalization the old establishment view that globalization benefits everyone win win the pessimistic belief that it threatens us all with pandemics and climate change lose lose along with various rival accounts that focus on specific winners and losers from China to America's rust belt Instead of picking sides *Six Faces of Globalization* gives all these positions their due showing how each deploys sophisticated arguments and compelling evidence Both globalization's boosters and detractors will come away with their eyes opened By isolating the fundamental value conflicts growth versus sustainability efficiency versus social stability driving disagreement and show where rival narratives converge Roberts and Lamp provide a holistic framework for understanding current debates In doing so they showcase a more integrative way of thinking about complex problems

Brokering Europe Antoine Vauchez, 2015-02-26 Since the 1960s the nature and the future of the European Union have been defined in legal terms Yet we are still in need of an explanation as to how this entanglement

between law and EU polity building emerged and how it was maintained over time While most of the literature offers a disembodied account of European legal integration *Brokering Europe* reveals the multifaceted roles Euro lawyers have played in EU polity notably beyond the litigation arena In particular the book points at select transnational groups of multipositioned legal entrepreneurs which have been in a situation to elevate the role of law in all sorts of EU venues In doing so it draws from a new set of intellectual resources field theory and empirical strategies only very recently mobilized for the study of the EU Grounded on an extensive historical investigation *Brokering Europe* provides a revised narrative of the constitutionalization of Europe

International Political Sociology Tugba Basaran,Didier Bigo,Emmanuel-Pierre Guittet,R. B. J. Walker,2016-07-22 This book presents an overview and evaluation of contemporary research in international political sociology IPS Bringing together leading scholars from many disciplines and diverse geographical backgrounds it provides unprecedented coverage of the key concepts and research through which IPS has opened up new ways of thinking about international relations It also considers some of the consequences of such innovations for established forms of social and political analysis It thus takes the reader on an intellectual journey engaging with questions about boundaries and limits among the many interrelated worlds in which we now live the ways we conceptualise them and how we continually reshape boundaries of identities spaces authorities and disciplinary knowledge The volume is organized three sections Lines Intersections and Directions The first section examines some influences that led to the formation of the project of IPS and how it has opened up avenues of research beyond the limits of an international relations discipline shaped within political science The second section explores some key concepts as well as a series of heated discussions about power and authority practices and governmentality performativity and reflexivity The third section explores some of the transversal topics of research that have been pursued within IPS including inequality migration citizenship the effect of technology on practices of security the role of experts and expertise data driven surveillance and the relation between mobility power and inequality This book will be an essential source of reference for students and across the social sciences

The Democracy Makers Nicolas Guilhot,2005-04-13 Has the international movement for democracy and human rights gone from being a weapon against power to part of the arsenal of power itself Nicolas Guilhot explores this question in his penetrating look at how the U S government the World Bank political scientists NGOs think tanks and various international organizations have appropriated the movement for democracy and human rights to export neoliberal policies throughout the world His work charts the various symbolic ideological and political meanings that have developed around human rights and democracy movements Guilhot suggests that these shifting meanings reflect the transformation of a progressive emancipatory movement into an industry dominated by experts ensconced in positions of power Guilhot's story begins in the 1950s when U S foreign policy experts promoted human rights and democracy as part of a democratic international to fight the spread of communism Later the unlikely convergence of anti Stalinist leftists and the nascent neoconservative movement found a place in the Reagan

administration These State Department Socialists as they were known created policies and organizations that provided financial and technical expertise to democratic movements but also supported authoritarian anti communist regimes particularly in Latin America Guilhot also traces the intellectual and social trajectories of key academics policymakers and institutions including Seymour M Lipset Jeane Kirkpatrick the Chicago Boys including Milton Friedman the National Endowment for Democracy and the Ford Foundation He examines the ways in which various individuals or double agents were able to occupy pivotal positions at the junction of academe national and international institutions and activist movements He also pays particular attention to the role of the social sciences in transforming the old anti Communist crusades into respectable international organizations that promoted progressive and democratic ideals but did not threaten the strategic and economic goals of Western governments and businesses Guilhot s purpose is not to disqualify democracy promotion as a conspiratorial activity Rather he offers new perspectives on the roles of various transnational human rights institutions and the policies they promote Ultimately his work proposes a new model for understanding the international politics of legitimate democratic order and the relation between popular resistance to globalization and the Washington Consensus

Earl Warren and the Warren Court Harry N. Scheiber, 2007-01-01 Earl Warren and the Warren Court comprises essays written by leading experts from the fields of law history and social science on the most important areas of the Warren Court s contributions in American law In addition Scheiber includes appraisals of the Warren Court s influence abroad written by authorities of legal development in Europe Latin America Canada and East Asia This book offers a unique set of analyses that portray how innovations in American law generated by the Warren Court led to a reconsideration of law and the judicial role and in many areas of the world to transformations in judicial procedure and the advancement of substantive human rights Also explored within these pages are the personal role of Earl Warren in the shaping of Warren era law and the ways in which his character and background influenced his role as Chief Justice

Above the Fray Shai M. Dromi, 2020-01-24 From Lake Chad to Iraq nongovernmental organizations NGOs provide relief around the globe and their scope is growing every year Policy makers and activists often assume that humanitarian aid is best provided by these organizations which are generally seen as impartial and neutral In *Above the Fray* Shai M Dromi investigates why the international community overwhelmingly trusts humanitarian NGOs by looking at the historical development of their culture With a particular focus on the Red Cross Dromi reveals that NGOs arose because of the efforts of orthodox Calvinists demonstrating for the first time the origins of the unusual moral culture that has supported NGOs for the past 150 years Drawing on archival research Dromi traces the genesis of the Red Cross to a Calvinist movement working in mid nineteenth century Geneva He shows how global humanitarian policies emerged from the Red Cross founding members faith that an international volunteer program not beholden to the state was the only ethical way to

provide relief to victims of armed conflict By illustrating how Calvinism shaped the humanitarian field Dromi argues for the key role belief systems play in establishing social fields and institutions Ultimately Dromi shows the immeasurable social good that NGOs have achieved but also points to their limitations and suggests that alternative models of humanitarian relief need to be considered Resource Booms and Institutional Pathways Eduardo Dargent, José Carlos Orihuela, Maritza Paredes, María Eugenia Ulfe, 2017-07-06 This book analyses the institutional development that the Peruvian state has undergone in recent years within a context of rapid extractive industry expansion It addresses the most important institutional state transformations produced directly by natural resources growth This includes the construction of a redistributive law with the mining canon the creation of a research canon for public universities the development of new institutions for environmental regulation the legitimation of state involvement in the function of prevention and management of conflicts and the institutionalization and dissemination of practices of participation and local consultation **Global Education Policy and International Development** Antoni Verger, Hulya K. Altinyelken, Mario Novelli, 2013-03-28 Exploring the interplay between globalization education and international development this book surveys the impact of global education policies on local policy in developing countries With chapters written by leading international scholars drawing on a full range of theoretical perspectives and offering a diverse selection of case studies from Africa Asia and South America this book considers such topics as How are global education agendas and policies formed and implemented What is the impact of such policy priorities as public private partnerships child centred pedagogies and school based management What are the effects of political and economic globalization on educational reform and change How do mediating institutions affect the translation of global policies to particular educational contexts What are the limitations of globalised policy solutions and what problems do they encounter at local levels From students of education development and globalization to practitioners working in developing contexts this book is an important resource for those seeking to understand how global forces and local realities meet to shape education policy in the developing world Business and Global Governance Morten Ougaard, Anna Leander, 2010 Business as master and purpose of global governance The End of Reciprocity Mark Osiel, 2009-03-09 This book examines reciprocity between asymmetrical sides in war and conflict
