20 Easy Raspberry Pi Projects Rui Santos, Sara Santos, 2018-04-24 Twenty projects using the Raspberry Pi, a tiny and affordable computer for beginners looking to make cool things right away. Projects are explained with full-color visuals and simple step-by-step instructions. 20 Easy Raspberry Pi Projects is a beginner-friendly collection of electronics projects perfectly suited for kids, parents, educators, and hobbyists looking to level up their hardware skills. After a crash course to get you set up with your Raspberry Pi, you'll learn how to build interactive projects like a digital drum set, a WiFi-controlled robot, a Pong game, an intruder alarm that sends email notifications, a gas leak detector, a weather forecaster, and IoT gadgets that control electronics around the house. Along the way, you'll work with core components like LCD screens, cameras, sensors, and even learn how to set up your own server. Each project provides step-by-step instructions, full-color photos, and circuit diagrams, and the complete code to bring your build to life. If you're ready to hit the ground running and make something interesting, let 20 Easy Raspberry Pi Projects be your guide.

Valuing U.S. National Parks and Programs Linda J. Bilmes, John B. Loomis, 2019-07-12 This book provides the first comprehensive economic valuation of U.S. National Parks, including monuments, seashores, lakeshores, recreation areas, and historic sites, and National Park Service (NPS) programs. The book develops a comprehensive framework to calculate the economic value of protected areas with particular application to the U.S. National Park Service. The framework covers many benefits provided by NPS units and programs, including on-site visitation, carbon sequestration, and intellectual property, such as in education, curricula, and filming of movies, TV shows, with case studies of each included. Examples are drawn from studies in Santa Monica Mountains National Recreation Area, Golden Gate National Recreation Area, Everglades National Park, and Chesapeake Bay. The editors conclude with a chapter on innovative approaches for sustainable funding of the NPS in its second century. The framework

serves as a blueprint of methodologies for conservationists government agencies land trusts economists and others to value public lands historical sites and related programs such as education The methodologies are relevant to local and state parks wildlife refuges and protected areas in developed and developing countries as well as to national parks around the world Containing a series of unique case studies this book will be of great interest to professionals and students in environmental economics land management and nature conservation as well as the more general reader interested in National Parks
