**The Interpretation of the Flesh** Teresa Brennan,2002-09-11 The riddle of femininity like Freud s reference to women s sexuality as a dark continent has been treated as a romantic aside or a sexist evasion rather than a problem to be solved In this first comprehensive study Teresa Brennan suggests that by placing these theories in the context of Freud s work overall we will begin to understand why femininity was such a riddle for Freud

**Gender** Catharine R. Stimpson,Gilbert Herdt,2014-07-11 Gender systems pervade and regulate human lives in law courts and operating rooms ballparks and poker clubs hair dressing salons and kitchens classrooms and playgroups Exactly how gender works varies from culture to culture and from historical period to historical period but gender is very rarely not at work Nor does gender operate in isolation It is linked to other social structures and sources of identity So write women s studies pioneer Catharine R Stimpson and anthropologist Gilbert Herdt in their introduction to Critical Terms for the Study of Gender laying out the wide ranging nature of this interdisciplinary and rapidly changing field The sixth in the series of Critical Terms books this volume provides an indispensable introduction to the study of gender through an exploration of key terms that are a part of everyday discourse in this vital subject Following Stimpson and Herdt s careful account of the evolution of gender studies and its relation to women s and sexuality studies the twenty one essays here cast an appropriately broad net spanning the study of gender and sexuality across the humanities and social sciences Written by a distinguished group of scholars each essay presents students with a history of a given term from bodies to utopia and explains the conceptual baggage it carries and the kinds of critical work it can be made to do The contributors offer incisive discussions of topics ranging from desire identity justice and kinship to love race and religion that suggest new directions for the understanding of gender studies The result is an essential reference addressed to students studying gender in very different disciplinary contexts      *Seduction, Sophistry, and the Woman with the Rhetorical Figure* Michelle Ballif,2001 Ballif questions why the profession wants to retain these beliefs in the face of vociferous arguments from new rhetorics that the discipline no longer posits a foundational self or truth and in the face of the poststructuralist critique which has demonstrated that founding truth is always accomplished by first positing and then negating an other As an alternative to

this negative and violent rhetorical process Ballif suggests a turn to sophistry as embodied in the figure of Woman one with the power to seduce us literally to lead astray from our truth and our demand for it BOOK JACKET *History After Lacan* Teresa Brennan,2002-09-11 Lacan was not an ahistorical post structuralist Starting from this controversial premiss Teresa Brennan tells the story of a social psychosis She begins by recovering Lacan s neglected theory of history which argued that we are in the grip of a psychotic s era which began in the seventeenth century and climaxes in the present By extending and elaborating Lacan s theory Brennan develops a general theory of modernity Contrary to postmodern assumptions she argues we need general historical explanation An understanding of historical dynamics is essential if we are to make the connections between the outstanding facts of modernity ethnocentrism the relationship between the sexes and ecological catastrophe

*Freud and the Politics of Psychoanalysis* Jose Brunner,2018-01-16 Freud and the Politics of Psychoanalysis is a sympathetic critique of Freud s work tracing its political content and context from his early writings on hysteria to his late essays on civilization and religion Brunner s central claim is that politics is a pervasive and essential component of all of Freud s discourse since Freud viewed both the psyche and society primarily as constellations of power and domination Brunner shows that when read politically Freud s discourse can be seen to unite mechanics and meaning into a plausible fruitful and internally consistent theory of the mind therapy family and society Part one deals with the medical and political background of Freud s work It explains how Freud postulated mental principles that were the same for all races and nations The second part is concerned with the logic and language of Freud s theory of the mind Brunner also details how Freud introduced dynamics of dominance and subjugation into the very core of the psyche Part three addresses dynamics of power in the clinical setting which Freud forged out of a curious blend of authoritarian and liberal elements Brunner focuses on how this setting creates an arena for verbal politics He also examines various social factors that influenced the therapeutic practice of psychoanalysis such as class gender and education Part four explores Freud s analysis of the family and large scale social institutions Though Brunner is critical of the authoritarian bias in Freud s social theory he suggests that it provides a useful vocabulary to unmask hidden psychological aspects of domination and subjection This is an essential book for those interested in the history of ideas and psychoanalysis Josu Brunner is Senior Lecturer at the Buchmann Faculty of Law and the Cohn Institute for the History and Philosophy of Science and Ideas both at Tel Aviv University Born in Zurich Switzerland he has been living in Israel for most of the last three decades He is author of numerous publications on the history and politics of psychoanalysis and contemporary political theory **Religion and Psychology in Transition** James W. Jones,2008-10-01 In this thought provoking book clinical psychologist and professor of religious studies James W Jones presents a dialogue between contemporary psychoanalytic thinking and contemporary theology He sheds new light on the interaction of religion and psychology by viewing it from the perspective of world religions providing an epistemological framework for the psychology of religion that draws on contemporary philosophy of science and bringing out the importance

of gender as a category of analysis Developments in psychoanalysis provide new resources for theological reflection Jones contends The Freudian view that human nature is isolated and instinctual has shifted to a vision of the self as constituted in and through relationships Jones uses this relational model of human nature to explore the convergence between contemporary psychoanalysis feminist theorizing and themes in religious thought found in a variety of traditions He also critiques the reductionism inherent in Freud s discussion of religion and proposes nonreductionistic and genuinely psychoanalytic ways for psychoanalysis to treat religious topics For therapists psychologists theologians and others interested in spiritual or psychological issues Jones offers illuminating clinical material and insightful analysis **What It**

Hirschmann, Kirstie M. McClure, 2010-11-01 This collection considers one of the most important figures of the modern canon of political philosophy John Locke A physician by training and profession Locke not only wrote one of the most important and well known treatises of the modern canon but also made important contributions in the areas of seventeenth century law and

public policy epistemology philosophy of language religion and economics There has been a long standing debate in feminist scholarship on Locke as to whether this early founder of modern liberal thought was a strong feminist or whether he ushered in a new and uniquely modern form of sexism The essays grapple with this controversy but also move beyond it to the meaning of gender the status of femininity and masculinity and how these affect Locke's construction of the state and law The volume opens with three of the early classic feminist essays on Locke and follows them with reflective essays by their original authors that engage Locke with issues of globalization and international justice Other essays examine Locke's midwifery notes his treatise on education his writings on Christianity his contributions to poor law policy his economic writings and his *Essay Concerning Human Understanding* In addition to essays by leading feminist theorists the volume also includes essays by some leading Locke scholars for whom gender is not normally a primary focus so that the volume should speak to a wide range of scholarly interests and concerns Besides the editors the contributors are Teresa Brennan Melissa Butler Terrell Carver Carole Pateman Carol Pech Gordon Schochet Mary Lyndon Shanley Jeremy Waldron Joanne Wright and Linda Zerilli

*Hollywood's (m)Other Aperture* Jaime Bihlmeyer, 2019-10-07 This study explores how mainstream movies lend themselves to the portrayal of imagery that reflects the earliest stages of human development Filmmakers take full advantage of this rich body centered source of human experience Avatar Minority Report and Annihilation among the other movies explored in this book incorporate patterns of images that represent pre-Oedipal maternal authority and the originary maternal authority The book explores how mainstream movies increasingly expose mass audiences to signs and resonances from our prelingual intrauterine and extrauterine psychological experiences In addition it compares and contrasts how the prelingual experience as depicted in these movies relates to themes of inclusivity that encompass diverse film inquiry including queer theory as well as human nonhuman animal kinship and hybridity In sum the text analyses how Hollywood movies depict and integrate the prelingual experience into the commercial cinematic apparatus and how this inspires new understanding of plurality FEMININITY and originary maternal authority in culture and society

*Feminist Interpretations of Søren Kierkegaard* Céline Léon, Sylvia Walsh, 2010-11-01 Even though Kierkegaard insisted on the fundamental equality of the sexes before God his entire production is highly problematic for feminism To a great degree this is due to his tendency to write under a pseudonym In this collection of 14 articles contributors take varying stands on the question of whether Kierkegaard's work was indicative of misogyny or misogamy Topics of discussion include Kierkegaard's notion of the double nature of woman and of the silent woman his idea of masculine indifference and his use of irony in his critique of the feminine Paper edition unseen 17 95 Annotation copyrighted by Book News Inc Portland OR

*Living Attention* Alice A. Jardine, Shannon Lundeen, Kelly Oliver, 2012-02-01 As an internationally respected feminist philosopher radical social and political theorist and tireless activist Teresa Brennan 1952-2003 was one of the most provocative thinkers of our time *Living Attention* is a tribute to the significance of her thought and a testament to the transformative power of her

life This book demonstrates the scope of Brennan's thought as it continues to challenge academics, public intellectuals and government leaders. Her concerns ranged from the implications of psychoanalytic theory to relations between men and women to the effects of globalization on our ecological system. The contributors to this volume from a broad variety of disciplines including philosophy, literature, government, literary and critical theory and women's studies take up Brennan's call to radical thinking and by examining different aspects of Brennan's work critically engage with her oeuvre. *The Quest for the Inner Human* Steven H. Propp, 2013-12-03 Psychology means the study of the soul; it is the social science concerned with investigating who we are, why we have certain feelings and why we do the things we do. Are we no more than a vast assembly of nerve cells and their associated molecules? Is biology our genetic inheritance, destiny, or does social upbringing play a crucial role? What are the roles played by Nature and by Nurture? Are we purely physical beings, or is there an aspect that can be called spiritual? This thought-provoking novel takes you on a journey of intellectual and emotional exploration, considering along the way questions that we've all asked ourselves, such as: Is it true that we only use 10% of our brains? Does playing classical music for infants increase their intelligence? Do crime rates go up during a full moon? Can hypnosis or post-hypnotic suggestions make us do something we wouldn't normally do? Does subliminal advertising influence us to buy products? Are our memories stored indelibly, almost like a tape recorder? What causes memory lapses as we age? Can repressed traumatic memories be recovered through hypnosis? Do some people have multiple personalities? How can I tell if someone has a neurosis or a psychosis? Do men have an inner feminine side and women an inner masculine? Are there innate psychological differences between males and females? The four main characters in this book will guide you through a diverse and sometimes bewildering world of differing approaches to answering such questions, such as Freudian, Jungian and Adlerian, Humanistic, Existential and Transpersonal, as well as Cognitive, Emotive and Behaviorist. Along the way, you will learn about the developmental stages proposed by psychologists such as Erikson, Kohlberg, Piaget and Fowler, and even explore some of the questions currently being asked by both neuroscientists and philosophers of the mind. Start reading to begin your study of our innermost selves. **Crime, Desire and Law's Unconscious** David Gurnham, 2014-06-27 Sexual desire and the possible dangers associated with its more extreme manifestations provokes strong, albeit often contradictory, reactions. Such reactions are a well-known stimulant of creative, juridical and scholarly activity, and the texts of law, literature and academic criticism respond to it in ways that suggest both of revulsion and fascination. But how are we to understand such responses and what can they tell us about the relationship between law and its others? Exploring these questions in the context of HIV transmission, on street sexual exploitation and erotic asphyxiation, this book draws on psychoanalytic theory in order to understand the motivations behind legal, literary and cultural constructions of sexual offences, their perpetrators and victims. Its analysis of these constructions in a diverse range of sources, including appeal judgments in England, Wales and North America, criminal trials and their reporting, visual and linguistic cultures and both modern and classical literature, will be of

great interest to legal theorists and socio legal scholars as well as those with relevant concerns in the fields of literature and cultural studies
