Authorizing Experience James Egan, 1999-04-05 The emphasis on practical experience over ideology is viewed by many historians as a profoundly American characteristic one that provides a model for exploring the colonial challenge to European belief systems and the creation of a unique culture Here Jim Egan offers an unprecedented look at how early modern American writers helped make this notion of experience so powerful that we now take it as a given rather than as the product of hard fought rhetorical battles waged over ways of imagining one s relationship to a larger social community In order to show how our modern notion of experience emerges from a historical change that experience itself could not have brought about he turns to works by seventeenth century writers in New England and reveals the ways in which they authorized experience ultimately producing a rhetoric distinctive to the colonies and supportive of colonialism Writers such as John Smith William Wood John Winthrop Anne Bradstreet Benjamin Thompson and William Hubbard were sensitive to the challenge experiential authority posed to established social hierarchies Egan argues that they used experience to authorize a supplementary status system that would at once enhance England s economic political and spiritual status and provide a new basis for regulating English and native populations These writers were assuaging fears over how exposure to alien environments threatened actual English bodies and also the imaginary body that authorized English monarchy and allowed English subjects to think of themselves as a nation By reimagining the English nation these supporters of English colonialism helped create a modern way of imagining national identity and individual subject formation The Passion of Anne Hutchinson Marilyn J. Westerkamp, 2021 Prologue Anne Hutchinson and the Controversy The Puritan Experiment Errors and Trials Helpmeets Mothers and Midwives among the Patriarchs Sectarian Mysticism and Spiritual Power Prophesying Women and the Gifts of the Spirit Gracious Disciples and Frightened Magistrates A Froward Woman Beloved of God **The Turn Around Religion in America** Michael P. Kramer, 2016-02-24 Playing on the frequently used metaphors of the turn toward or turn back in scholarship on religion The Turn Around Religion in America offers a model of religion that moves in a reciprocal

relationship between these two poles In particular this volume dedicates itself to a reading of religion and of religious meaning that cannot be reduced to history or ideology on the one hand or to truth or spirit on the other but is rather the product of the constant play between the historical particulars that manifest beliefs and the beliefs that take shape through them Taking as their point of departure the foundational scholarship of Sacvan Bercovitch the contributors locate the universal in the ongoing and particularized attempts of American authors from the seventeenth century forward to get it whatever that it might be right Examining authors as diverse as Pietro di Donato Herman Melville Miguel Algarin Edward Taylor Mark Twain Robert Keayne Nathaniel Hawthorne Paule Marshall Stephen Crane Ralph Waldo Emerson and Joseph B Soloveitchik among many others and a host of genres from novels and poetry to sermons philosophy history journalism photography theater and cinema the essays call for a discussion of religion s powers that does not seek to explain them as much as put them into conversation with each other Central to this project is Bercovitch s emphasis on the rhetoric ritual typology and symbology of religion and his recognition that with each aesthetic enactment of religion s power we learn something new

The Business of Killing Indians William S. Kiser, 2025-03-18 How colonial conquest was driven by state sponsored profit driven campaigns to murder and mutilate Indian peoples in North America From the mid 1600s through the late 1800s states sponsored scalp bounties and volunteer campaigns to murder and mutilate thousands of Indians throughout North America Since central governments in Amsterdam Paris London Mexico City and Washington DC failed to provide adequate military support and financial resources for colonial frontier defense administrators in regional capitals such as New York Qu bec City New Orleans Boston Ciudad Chihuahua Austin and Sacramento took matters into their own hands At different times and in almost every part of the continent they paid citizens for killing Indians taking Indians captive scalping or beheading Indians and undertaking other forms of performative violence As militant operatives and civilians alike struggled to prevail over Indigenous forces they considered barbaric and savage they engaged in not just plundering slaving and killing but also dismembering corpses for symbolic purposes and for profit Although these tactics mostly failed in their intent to exterminate populations state sponsorship of indiscriminate violence took a significant demographic toll by flooding frontier zones with murderous units whose campaigns diminished Indigenous power reduced tribal populations and forced weakened survivors away from traditional homelands High wages for volunteer campaigning along with cash bounties for Indian body parts and the ability to take captives and keep valuable plunder promoted a state sponsored profit opportunity for civilians

Securing the Prize Randall Fowler, 2024-11-14 How presidential metaphors have shaped US discourse on the Persian Gulf From the 1970s to the 1990s American presidents and their advisers introduced four metaphors into foreign policy discourse that taught Americans to view the Persian Gulf as a vulnerable region and site of US responsibility on the world stage In Securing the Prize Presidential Metaphor and US Intervention in the Persian Gulf Randall Fowler argues that for half a century metaphor has been central to defining America s role in the

Middle East Metaphors served as shorthand for presidents to promote their policies filtering through the judgments of officials journalists experts and critics to mediate American perceptions of the Gulf War Tracing the use of security metaphors from President Richard Nixon to President George W Bush Fowler revises mainstream understandings regarding the origins of the War on Terror and explains the disconnect between skeptical public attitudes toward US involvement in the Gulf War and the heavy American military footprint in the region *Lethal Imagination* Michael A. Bellesiles,1999-03
