Interpreting The Sacred Ways Of Viewing Religion:

Interpreting the Sacred William Paden,2000-11-21 William Paden's classic exploration in religious studies with a new introduction In the current climate Interpreting the Sacred provides a fresh thorough way to consider and compare various religious belief systems Paden puts forth the idea that our understanding of religion influences our understanding of ourselves and our world Updated with a new introduction this book is for anyone who wants to consider and discuss religious beliefs

Origins of Religion, Cognition and Culture Armin W. Geertz,2014-09-11 Attempts to understand the origins of humanity have raised fundamental questions about the complex relationship between cognition and culture Central to the debates on origins is the role of religion religious ritual and religious experience What came first individual religious ecstatic experiences collective observances of transition situations fear of death ritual competence magical coercion mirror neurons or temporal lobe religiosity Cognitive scientists are now providing us with important insights on phylogenetic and ontogenetic processes Together with insights from the humanities and social sciences on the origins development and maintenance of complex semiotic social and cultural systems a general picture of what is particularly human about humans could emerge Reflections on the preconditions for symbolic and linguistic competence and practice are now within our grasp

Origins of Religion Cognition and Culture puts culture centre stage in the cognitive science of religion Representing Religion Tim Murphy,2014-12-05 If religion is continually in a state of flux how can the study of religion critically examine contemporary religious beliefs and values Representing Religion critically examines this crisis of representation The volume traces the history of religious studies critiquing the concept that experience is central to understanding religion The views of influential semioticians and philosophers notably Nietzsche Saussure Foucault Barthes and Bakhtin are used to construct a new methodology for the critical study of religion Representing Religion will be of interest to students and scholars of semiotics as well as theory and method in religious studies

African Traditional Religion in the Modern World, 2d ed. Douglas E. Thomas,2015-05-21 African traditional religion encompasses a variety of non dogmatic spiritual practices followed by millions around the world Some scholars argue it is related to the Nubian religion of Egypt's Dynastic Period In an expanded second edition this book examines the nature of African traditional religion and describes common attributes of various cultural belief systems with an emphasis on West Africa Principal elements studied include sacrifice salvation and culture modes of revelation divination and African resilience in the face of invasion and colonization The religious experiences of black people throughout the Americas are also covered The author finds the cosmology symbolism and rituals of the Yoruba culture to be the fundamental bases of African traditional religion and draws similarities between the oral and written literature of West Africans and that of New World practitioners The influence of Islam and Christianity is also discussed Instructors considering this book for use in a course may request an examination copy here Religion in the Context of Globalization Peter Beyer,2013-07-24 Peter Beyer has been a central figure in the debate about religion and

globalization for many years this volume is a collection of essays on the relation between religion and globalization with special emphasis on the concept of religion its modern forms and on the relation of religion to the state Featuring a newly written introduction and conclusion which frame the volume and offer the reader guidance on how the arguments fit together this book brings together ten previously published pieces which focus on the institutional forms and concept of religion in the context of globalizing and modern society The guiding theme that they all share is the idea that religion and globalization are historically conceptually and institutionally related What has come to constitute religion and what social roles religion plays are not manifestations of a timeless essence called religion or even a requirement of human societies In concept and institutional form religion is an expression of the historical process of globalization above all during modern centuries What religion has become is one of the outcomes of the successive transformations and developments that have brought about contemporary global society Including some of the most important theoretical work in the field of religion and globalization this collection provokes the reader to consider paths for future research in the area and will be of great interest to students and scholars of religion and politics globalization and religion and sociology

Religions in Global Society Peter Beyer, 2013-01-11 Peter Beyer a distinguished sociologist of religion presents a way of understanding religion in a contemporary global society by analyzing it as a dimension of the historical process of globalization Introducing theories of globalization and showing how they can be applied to world religions Beyer reveals the nature of the contested category of religion what it means what it includes and what it implies in the world today Written with exceptional clarity and illustrated with lively and diverse examples ranging from Islam and Hinduism to African traditional religions and new age spirituality this is a fascinating overview of how religion has developed in a globalized society It is recommended reading for students taking courses on sociology of religion religion and globalization and religion and modernity

Kimberley C. Patton, Benjamin C. Ray, 2000-01-11 In this assessment of the field of comparative religion this text surmounts the seemingly intractable division between postmodern scholars who reject the comparative endeavour and those who affirm it It brings together leading historians of religion from a range of backgrounds and vantage points **Learning**

Through Dialogue Kenneth Paul Kramer, 2013-04-08 Educational practice today often fails to make the crucial distinction between learning as an accumulation of information and learning as a dialogical interaction that elicits one s personal response to the material Learning Through Dialogue offers an alternative approach to teaching and learning which utilizes Martin Buber s dialogical principles turning toward addressing affirmatively listening attentively and responding responsibly The book first presents Buber s educational theory and method and second presents specific examples of how Buber s dialogical philosophy can be applied in the classroom Rather than imposing one s own views this approach enables teachers and students to develop course content in uniquely appropriate ways If you are a teacher a student an educator at any level or anyone interested in furthering his or her ability to engage more meaningfully with the educational process this book will challenge you with fresh perspectives

Theological Incorrectness : Why Religious People Believe What They Shouldn't D. Jason Slone Assistant Professor of Religious Studies University of Findlay, 2004-01-30 Ask two religious people one question and you ll get three answers Why do religious people believe what they shouldn't not what others think they shouldn't believe but things that don't accord with their own avowed religious beliefs This engaging book explores this puzzling feature of human behavior D Jason Slone terms this phenomenon theological incorrectness He demonstrates that it exists because the mind is built in such a way that it s natural for us to think divergent thoughts simultaneously Human minds

are great at coming up with innovative ideas that help them make sense of the world he says but those ideas do not always jibe with official religious beliefs From this fact we derive the important lesson that what we learn from our environment religious ideas for example does not necessarily cause us to behave in ways consistent with that knowledge Slone presents the latest discoveries from the cognitive science of religion and shows how they help us to understand exactly why it is that religious people do and think things that they shouldn't He then applies these insights to three case studies First he looks at why Theravada Buddhists profess that Buddha was just a man but actually worship him as a god Then he explores why the early Puritan Calvinists who believed in predestination acted instead as if humans had free will by for example conducting witch hunts and seeking converts Finally he explains why both Christians and Buddhists believe in luck even though the doctrines of Divine Providence and karma suggest there's no such thing In seeking answers to profound questions about why people behave the way they do this fascinating book sheds new light on the workings of the human mind and on the complex relationship between cognition and culture

Theological Incorrectness Jason Slone, 2007-12-03 Why do religious people believe what they shouldn't not what others think they shouldn't believe but things that don't accord with their own avowed religious beliefs D Jason Slone terms this phenomenon theological incorrectness He argues that it exists because the mind is built in such a way that it's natural for us to think divergent thoughts simultaneously Human minds are great at coming up with innovative ideas that help them make sense of the world he says but those ideas do not always jibe with official religious beliefs From this fact we derive the important lesson that what we learn from our environment religious ideas for example does not necessarily cause us to behave in ways consistent with that knowledge Slone presents the latest discoveries from the cognitive science of religion and shows how they help us to understand exactly why it is that religious people do and think things that they shouldn't

Explorations In Global Ethics Sumner B Twiss, 2018-03-08 Inspired by the 1993 Parliament of the World's Religions this volume for the first time brings the scholarly discipline of comparative religious ethics into constructive collaboration with the community of interreligious dialogue The contributors draw from both communities of discourse in addressing questions of method and theory and global moral issues such as human rights distributive justice politics of war international business the environment and genocide in a cross cultural context Inspired by the 1993 Parliament of the World's Religions this volume for the first time brings the scholarly discipline of comparative religious ethics into constructive collaboration with the community of interreligious dialogue Its design is premised on two important insights First interreligious dialogue offers to comparative religious ethics a new more persuasive rationale agenda of issues and practical orientation Second comparative religious ethics offers to interreligious dialogue an arsenal of critical tools and methods which will enhance the sophistication of its practical work In this way both theory a dominant concern and strength of comparative religious ethics and praxis a dominant concern and strength of interreligious moral dialogue are joined together in mutual effort each contributing to the benefit of the other The volume's contributors share this vision of

collaboration drawing explicitly from both communities of discourse in a manner that crosses disciplinary and professional boundaries to deal creatively and constructively with important methodological and global moral issue Although theory and practice cannot easily be separated in such a collaborative project for the purpose of clarity the volume is divided into two main parts The first specifically engages questions of method theory and the social role of the public intellectual the second on substantive moral themes and issues many of which were raised at the 1993 Parliament Taken together the volumes essays articulate and illustrate new ways of approaching contemporary moral concerns cross culturally yet with a rigor appropriate to our complex and pluralistic world
