Interracial Intimacies Sex Marriage Identity And Adoption:

Interracial Intimacies Randall Kennedy, 2012-09-12 With the same piercing intelligence as the bestselling *Say It Loud* *Interracial Intimacies* hits a nerve at the center of American society race relations and our most intimate ties to each other The best book written on the subject an exhaustive source of deep rich scholarship and surefooted brilliant analysis Seattle Times Analyzing the tremendous changes in the history of America's racial dynamics Randall Kennedy challenges us to examine how prejudices and biases still fuel fears and inform our sexual marital and family choices He takes us from the injustices of the slave era up to present day battles over race matching adoption policies which seek to pair children with adults of the same race He tackles such subjects as the presence of sex in racial politics the historic role of legal institutions in policing racial boundaries and the real and imagined pleasures that have attended interracial intimacy A bracing much needed look at the way we have lived in the past *Interracial Intimacies* is also a hopeful book offering a potent vision of our future as a multiracial democracy

Interracial Intimacies Randall Kennedy, *Black Men in Interracial Relationships* Kellina Craig-Henderson, 2017-07-28 Why is it that successful black men black men who are at the top of their game in the arts entertainment politics and athletics are four times as apt to be married to or dating a woman who is not an African American than they were only thirty years ago And why are twice as many black men involved in interracial relationships as black women In addition to their celebrity status which includes widespread popularity and wealth black men from Charles Barkley to James Earl Jones to Russell Simmons to Bryant Gumbel share something else in common something that also characterizes the experiences of more than 250 000 less well known black men in the United States They happen to be involved in interracial intimate relationships Less than fifty years ago such relationships were next to impossible leading to severe social sanctions The fact that this is no longer the case is concrete evidence of changes in the quality and character of contemporary race relations Drawing on her own observations and her examination of the responses of a small diverse group of black men who date in some cases exclusively have sexual relations with and marry women who are not of African descent the book provides insight into the continuing ways that race and ethnic status affect the choices people make in their lives Until this book though these types of relationships have received scant serious attention Craig Henderson forthrightly addresses the taboo interspersing analysis with verbatim accounts from black men involved in such relationships Grounded in serious research interviews and analysis of census data *Black Men in Interracial Relationships* examines why such relationships appear to be so popular among black male elites In the process the author unravels the mystery behind the apparent absence of black women in black men's lives It will be of interest to specialists in race gender family and sexual issues and appropriate for courses in these areas It is also highly readable and thought provoking for the general public who will find its observations and findings fascinating

Interracial Families George Alan Yancey, Richard Lewis, Jr., 2009-01-07 Are your undergraduate students interested in such topics as interracial dating marriage multiracial identity

transracial adoption and related issues If so this is the perfect short text to assign in your course *Making Families Through Adoption* Nancy E. Riley, Krista E. Van Vleet, 2012 This volume examines adoption as a way of understanding the practices and ideology of kinship and family more generally Adoption allows a window onto discussions of what constitute family or kin the role of biological connectedness oversight of parenting practices by the state and the role of race gender sexuality and socio economic class in the building of families The book focuses primarily on adoption practices in the US but will also use examples of adoption and fostering across cultures to put those American adoption practices into a comparative context While reviewing practices of and issues surrounding adoption the authors highlight the ways these practices and discussions allow us greater insight into overall practices of kinship and family Choosing Ethnicity, Negotiating Race Mia Tuan, Jiannbin Lee Shiao, 2011-01-13 Transnational adoption was once a rarity in the United States but Americans have been choosing to adopt children from abroad with increasing frequency since the mid twentieth century Korean adoptees make up the largest share of international adoptions 25 percent of all children adopted from outside the United States but they remain understudied among Asian American groups What kind of identities do adoptees develop as members of American families and in a cultural climate that often views them as foreigners *Choosing Ethnicity Negotiating Race* is the only study of this unique population to collect in depth interviews with a multigenerational random sample of adult Korean adoptees The book examines how Korean adoptees form their social identities and compares them to native born Asian Americans who are not adopted How do American stereotypes influence the ways Korean adoptees identify themselves Does the need to explore a Korean cultural identity or the absence of this need shift according to life stage or circumstance In *Choosing Ethnicity Negotiating Race* sixty one adult Korean adoptees representing different genders social classes and communities reflect on early childhood young adulthood their current lives and how they experience others perceptions of them The authors find that most adoptees do not identify themselves strongly in ethnic terms although they will at times identify as Korean or Asian American in order to deflect questions from outsiders about their cultural backgrounds Indeed Korean adoptees are far less likely than their non adopted Asian American peers to explore their ethnic backgrounds by joining ethnic organizations or social networks Adoptees who do not explore their ethnic identity early in life are less likely ever to do so citing such causes as general aversion lack of opportunity or the personal insignificance of race ethnicity and adoption in their lives Nonetheless the choice of many adoptees not to identify as Korean or Asian American does not diminish the salience of racial stereotypes in their lives Korean adoptees must continually navigate society s assumptions about Asian Americans regardless of whether they chose to identify ethnically *Choosing Ethnicity Negotiating Race* is a crucial examination of this little studied American population and will make informative reading for adoptive families adoption agencies and policymakers The authors demonstrate that while race is a social construct its influence on daily life is real This book provides an insightful analysis of how potent this influence can be for transnational adoptees and all Americans **The Psychology of Love** Michele A.

Paludi,2012-03-09 From arranged marriages to online dating this four volume work presents everything from personal accounts to empirical evidence to document what creates love in our culture as well as around the world The field of biology views love as a hard wired mammalian drive akin to thirst and hunger In contrast psychology views love from a social and cultural perspective where our drive to find love and our responses to it are highly dependent on societal norms In *The Psychology of Love* esteemed author and educator Michele A Paludi examines love through all lenses thereby providing readers a deeper understanding of the ways we can express caring sensitivity empathy and respect toward one another Each chapter in this comprehensive four volume work includes a scholarly overview of empirical research and theories about the psychology of love In addition individuals own definitions of love are included Special attention is paid to accepted standards of love across a variety of cultures the ways individuals express liking and love across the lifecycle and patterns in dissolutions of friendships and romantic relationships making note of gender and race differences *The Mormon Church and Blacks* Matthew L Harris,Newell G. Bringhurst,2015-11-15 The year 1978 marked a watershed year in the history of The Church of Jesus Christ of Latter day Saints as it lifted a 126 year ban on ordaining black males for the priesthood This departure from past practice focused new attention on Brigham Young s decision to abandon Joseph Smith s more inclusive original teachings *The Mormon Church and Blacks* presents thirty official or authoritative Church statements on the status of African Americans in the Mormon Church Matthew L Harris and Newell G Bringhurst comment on the individual documents analyzing how they reflected uniquely Mormon characteristics and contextualizing each within the larger scope of the history of race and religion in the United States Their analyses consider how lifting the ban shifted the status of African Americans within Mormonism including the fact that African Americans once denied access to certain temple rituals considered essential for Mormon salvation could finally be considered full fledged Latter day Saints in both this world and the next Throughout Harris and Bringhurst offer an informed view of behind the scenes Church politicking before and after the ban The result is an essential resource for experts and laymen alike on a much misunderstood aspect of Mormon history and belief *The Violence of Love* Kit W. Myers,2025-01-28 A free ebook version of this title is available through Luminos University of California Press s Open Access publishing program Visit www.luminosoa.org to learn more *The Violence of Love* challenges the narrative that adoption is a solely loving act that benefits birth parents adopted individuals and adoptive parents a narrative that is especially pervasive with transracial and transnational adoptions Using interdisciplinary methods of archival legal and discursive analysis Kit W Myers comparatively examines the adoption of Asian Black and Native American children by White families in the United States He shows how race has been constructed relationally to mark certain homes families and nations as spaces of love freedom and better futures in contrast to others that are not and argues that violence is attached to adoption in complex ways Propelled by different types of love such adoptions attempt to transgress biological racial cultural and national borders established by traditional family ideals Yet they are also linked to

structural symbolic and traumatic forms of violence The Violence of Love confronts this discomfiting reality and rethinks theories of family to offer more capacious understandings of love kinship and care *Somewhere Sisters* Erika Hayasaki,2022-10-11 An NPR Best Book of 2022 An incredible deeply reported story of identical twins Isabella and H born in Vi t Nam and raised on opposite sides of the world each knowing little about the other s existence until they were reunited as teenagers against all odds Stirring and unforgettable a breathtaking adoption saga like no other Robert Kolker It was 1998 in Nha Trang Vi t Nam and Li n struggled to care for her newborn twin girls H was taken in by Li n s sister and she grew up in a rural village with her aunt going to school and playing outside with the neighbors They had sporadic electricity and frequent monsoons H s twin sister Loan was adopted by a wealthy white American family who renamed her Isabella Isabella grew up in the suburbs of Chicago with a nonbiological sister Olivia also adopted from Vi t Nam Isabella and Olivia attended a predominantly white Catholic school played soccer and prepared for college But when Isabella s adoptive mother learned of her biological twin back in Vi t Nam all of their lives changed forever Award winning journalist Erika Hayasaki spent years and hundreds of hours interviewing each of the birth and adoptive family members She brings the girls experiences to life on the page told from their own perspectives challenging conceptions about adoption and what it means to give a child a good life Hayasaki contextualizes the sisters experiences with the fascinating and often sinister history of twin studies intercountry and transracial adoption and the nature versus nurture debate as well as the latest scholarship and conversation surrounding adoption today especially among adoptees For readers of All You Can Ever Know and American Baby *Somewhere Sisters* is a richly textured moving story of sisterhood and coming of age told through the remarkable lives of young women who have redefined the meaning of family for themselves *Selling Transracial Adoption* Elizabeth Raleigh,2018 Chosen Children examines the role of the adoption marketplace in shaping how transracial adoptive families are sorted and matched and analyzes what these practices suggest about race in the United States In contrast to previous work on race and adoption markets that focus on the experiences of adoptive parents Raleigh s project focuses on adoption workers social workers attorneys and counselors Taking a market approach that treats adoptive parents as consumers and children as commodities Raleigh brings together interviews with adoption practitioners participant observation at adoption information sessions and adoption statistics in order to demonstrate how the downturn in supply of adoptable honorary white children which she defines as Asian and hispanic children led to the increased popularity of the transracial adoption of foreign born and biracial black children **Culture, Identity, Commodity** Tseen Khoo,Kam Louie,2005-10-05 Established and emerging scholars offer timely discussions of diasporic Chinese studies drawing on transnational postcolonial globalisation and racialisation theories The collection examines what is at stake in the consideration of diasporic literatures and the connections and fissures emerging in these new critical terrains *The Philosophy of Spike Lee* Mark Conard,2011-07-22 Over his twenty plus year tenure in Hollywood Spike Lee has produced a number of controversial films that unapologetically confront

sensitive social issues particularly those of race relations and discrimination Through his honest portrayals of life's social obstacles he challenges the public to reflect on the world's problems and divisions The innovative director created a name for himself with feature films such as *Do the Right Thing* 1989 and *Malcolm X* 1992 and with documentaries such as *4 Little Girls* 1997 and *When the Levees Broke* 2006 breaking with Hollywood's reliance on cultural stereotypes to portray African Americans in a more realistic light The director continues to produce poignant films that address some of modern society's most important historical movements and events In *The Philosophy of Spike Lee* editor Mark T Conard and an impressive list of contributors delve into the rich philosophy behind this filmmaker's extensive work Not only do they analyze the major themes of race and discrimination that permeate Lee's productions but also examine other philosophical ideas that are found in his films ideas such as the nature of time transcendence moral motivation self constitution and justice The authors specialize in a variety of academic disciplines that range from African American Studies to literary and cultural criticism and Philosophy

Love Across Borders Kelly Chong, 2020-09-29 High rates of intermarriage especially with Whites have been viewed as an indicator that Asian Americans are successfully assimilating signaling acceptance by the White majority and their own desire to become part of the White mainstream Comparing two types of Asian American intermarriage interracial and interethnic Kelly H Chong disrupts these assumptions by showing that both types of intermarriages in differing ways are sites of complex struggles around racial ethnic identity and cultural formations that reveal the salience of race in the lives of Asian Americans Drawing upon extensive qualitative data Chong explores how interracial marriages far from being an endpoint of assimilation are a terrain of life long negotiations over racial and ethnic identities while interethnic intra Asian unions and family making illuminate Asian Americans ongoing efforts to co construct and sustain a common racial identity and panethnic culture despite interethnic differences and tensions Chong also examines

the pivotal role race and gender play in shaping both the romantic desires and desirability of Asian Americans spotlighting the social construction of love and marital choices Through the lens of intermarriage *Love Across Borders* offers critical insights into the often invisible racial struggles of this racially in between model minority group particularly its ambivalent negotiations with whiteness and white privilege and on the group s social incorporation process and its implications for the redrawing of color boundaries in the U S

Imagining Black America Michael Wayne, 2014-02-25 DIVScientific research has now established that race should be understood as a social construct not a true biological division of humanity In *Imagining Black America* Michael Wayne explores the construction and reconstruction of black America from the arrival of the first Africans in Jamestown in 1619 to Barack Obama s reelection Races have to be imagined into existence and constantly reimagined as circumstances change Wayne argues and as a consequence the boundaries of black America have historically been contested terrain He discusses the emergence in the nineteenth century and the erosion during the past two decades of the notorious one drop rule He shows how significant periods of social transformation emancipation the Great Migration the rise of the urban ghetto and the Civil Rights Movement raised major questions for black Americans about the defining characteristics of their racial community And he explores how factors such as class age and gender have influenced perceptions of what it means to be black Wayne also considers how slavery and its legacy have defined freedom in the United States Black Americans he argues because of their deep commitment to the promise of freedom and the ideals articulated by the Founding Fathers became and remain quintessential Americans the incarnation of America in the words of the civil rights leader A Philip Randolph div

researchers as well as for the general reader to help better understand the world we live in today The Abduction of Betty and Barney Hill Matthew Bowman, 2023-01-01 A gripping account of an alien abduction and its connections to the breakdown of American society in the 1960s Excellent and exhaustive Colin Dickey Slate In the mid 1960s Betty and Barney Hill became famous as the first Americans to claim that aliens had taken them aboard a spacecraft against their will Their story involving a lonely highway late at night lost memories and medical examinations by small gray creatures with large eyes has become the template for nearly every encounter with aliens in American popular culture since Historian Matthew Bowman examines the Hills story not only as a foundational piece of UFO folklore but also as a microcosm of 1960s America The Hills an interracial couple who lived in New Hampshire were civil rights activists supporters of liberal politics and Unitarians But when their story of abduction was repeatedly ignored or discounted by authorities they lost faith in the scientific establishment the American government and the success of the civil rights movement Bowman tells the fascinating story of the Hills as an account of the shifting winds in American politics and culture in the second half of the twentieth century He exposes the promise and fallout of the idealistic reforms of the 1960s and how the myth of political consensus has given way to the cynicism and conspiratorialism and the paranoia and illusion of American life today
