Interregional Migration In The Ussr:

Interregional Migration in the U.S.S.R. Peter J. Grandstaff, 1980 A revision of the author's thesis Duke University 1973
Interregional Migration in the USSR. Blaine Stephen Ball, OHIO STATE UNIV COLUMBUS., 1976 The purpose of this paper is to describe, discuss and analyze recent patterns of interregional migration in the USSR and to provide some insight into the relationship between these movements and regional levels of development. The first of the four sections is aimed at providing a brief overview of interregional population movements from the latter years of the Russian Empire to 1959. This is followed by a selective review of post 1959 migration studies, most of which were written by Soviet authors. In the third section, data from these studies, the 1970 Census and other sources are pieced together in an attempt to describe the changing patterns of interregional migration from 1959 through 1969. The paper concludes with an analysis of the regional migration balances for the last two years of this period as given by the 1970 Census.

Internal Migration in the Countries of Asia Martin Bell, Aude Bernard, Elin Charles-Edwards, Yu Zhu, 2020-07-20 This book explores how population mobility varies among the countries of Asia. While much attention has been given to international migration, movement within countries is numerically much more significant. Coupling innovative methods developed in the global IMAGE project with the contextual knowledge of experts on 15 Asian countries, the book measures and explains how people across Asia differ in the probability of changing residence, the ages at which they move, and the impact of these migrations on the distribution of human settlement within each country. It demonstrates how stage of economic development, coupled with historical events, local contingencies, cultural norms, political frameworks, and the physical environment shape human migration. By using rigorous statistics in a robust comparative framework, this book provides a clear understanding of contemporary migration in Asia for students and academics and a valuable resource for policy makers and planners in Asia and beyond.

Understanding Soviet Society Michael Paul Sacks, Jerry G. Pankhurst, 2013-10-15 First Published in 1988
Understanding Soviet Society has grown out of the authors' experience as sociologists researching and teaching about the Soviet Union. Meant initially as an update to Contemporary Soviet Society: Sociological Perspectives from 1980, this became a new volume because of the addition of six new authors but also because of the major changes occurring in the USSR today that in many ways necessitated new approaches. It examines the fundamental institutions of Soviet society from work and social welfare to politics and the Party in order to provide an objective understanding of the social underpinnings of the Soviet System.
Research Guide to the Russian and Soviet Censuses Ralph S. Clem, 2016-11-01 Taken together, the Russian census of 1897 and the Soviet censuses of 1926, 1959, 1970, and 1979 constitute the largest collection of empirical data available on that country, but until the publication of this book in 1986, the daunting complexity of that material prevented Western scholars from exploiting the censuses fully. This book is both a guide to the use of and a detailed index to these censuses. The first part of the book consists of eight essays by specialists on the USSR, six of them dealing with the use of

census materials and the availability of data for research on ethnicity and language marriage and the family education and literacy migration and organization age structure and occupations The second part a comprehensive index for all the published census presents more than six hundred annotated entries for the census tables a keyword index that enables researchers to find census data by subject and a list of political administrative units covered in each census **The Contemporary Soviet City** Henry W. Morton, Robert C. Stuart, 2017-07-05 This anthology of short stories reflects the writers shared core experience of Korea s trajectory from an inward looking feudal state through Japanese colony and battle ground for the Korean War to a modernizing society Three stories have been added to the original edition *Multilingualism in the Soviet Union* E. G. Lewis, 2019-03-18 No detailed description available for Multilingualism in the Soviet Union

Interregional migration in the U.S.S.R. Economic aspects, 1959-1970 Peter John Grandstaff, 1973 *Asian Migrations* Tony Fielding, 2015-07-16 This textbook describes and explains the complex reality of contemporary internal and international migrations in East Asia Taking an interdisciplinary approach Tony Fielding combines theoretical debate and detailed empirical analysis to provide students with an understanding of the causes and consequences of the many types of contemporary migration flows in the region Key features of Asian Migrations Comprehensive coverage of all forms of migration including labour migration student migration marriage migration displacement and human trafficking Text boxes containing key concepts and theories More than 30 maps and diagrams Equal attention devoted to broad structures e g political economy and individual agency e g migration behaviours Emphasis on the conceptual and empirical connections between internal and international migrations Exploration of the policy implications of the trends and processes discussed Written by an experienced scholar and teacher of migration studies this is an essential text for courses on East Asian migrations and mobility and important reading for courses on international migration and Asian societies more generally

The American Bibliography of Slavic and East European Studies for 1994 Patt Leonard, Rebecca Routh, 1997-05-31 This text provides a source of citations to North American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union It indexes fields of scholarship such as the humanities arts technology and life sciences and all kinds of scholarship such as PhDs **The Geography of Nationalism in Russia and the USSR** Robert J. Kaiser, 2017-03-14 The Geography of Nationalism in Russia and the USSR is an important addition to the small library of essential works on the collapse of the Soviet empire The first attempt to construct and test broad theoretical propositions about place and territoriality in the making of nations it examines the critical social processes underlying the formation of nations and homelands in Russia and the USSR during the nineteenth and twentieth centuries Robert Kaiser finds that for the most part national self consciousness was only beginning to supplant a localist mentality by the time of World War I The national problem faced by Lenin was fundamentally different from the more difficult nationalist challenge that confronted Gorbachev In Kaiser s place based theory the homeland once created in the imaginations of the indigenous masses powerfully structured

national processes and international relations Indigenization from below became an active competitor with nationality policies that promoted Russification resulting in the restructuring of ethnic stratification to favor indigenes in their own respective home republics and to challenge Russian dominance outside Russia The revolutionary changes occurring since 1989 Kaiser argues should therefore be seen as part of a longer process of indigenization Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Internal Migration in the Developed World Tony Champion, Thomas Cooke, Ian Shuttleworth, 2017-08-16 The frequency with which people move home has important implications for national economic performance and the well being of individuals and families Much contemporary social and migration theory posits that the world is becoming more mobile leading to the recent mobilities turn within the social sciences Yet there is mounting evidence to suggest that this may not be true of all types of mobility nor apply equally to all geographical contexts For example it is now clear that internal migration rates have been falling in the USA since at least the 1980s To what extent might this trend be true of other developed countries Drawing on detailed empirical literature Internal Migration in the Developed World examines the long term trends in internal migration in a variety of more advanced countries to explore the factors that underpin these changes Using case studies of the USA UK Australia Japan Sweden Germany and Italy this pioneering book presents a critical assessment of the extent to which global structural forces as opposed to national context influence internal migration in the Global North Internal Migration in the Developed World fills the void in this neglected aspect of migration studies and will appeal to a wide disciplinary audience of researchers and students working in Geography Migration Studies Population Studies and Development Studies

Immigrants and Nationalists Gershon Shafir, 1995-10-06 In this empirical and theoretical study of nationalism ethnicity and immigration the author compares the reception of large numbers of immigrants in Catalonia the Basque country Latvia and Estonia developed regions that possess distinct cultures and nationalist movements

Minority Internal Migration in Europe Gemma Catney, 2016-04-22 Immigration is a major component of population change for countries across Europe However questions remain about where immigrants go after they arrive in a new country What are the patterns of internal migration of minorities immigrants and their descendants and what are the causes and implications of these flows Migration within a nation state is a powerful force redistributing the population and altering the demographic social and economic composition of regions cities and neighbourhoods Yet relatively little is known about the significance of ethnicity in migration processes or how population movement contributes to immigrant and ethnic integration Minority internal migration is an emerging field of academic interest in many European

countries in the context of high levels of immigration and increased political interest in inter ethnic relations and place based policies This book brings together experts in the fields of migration ethnicity and diversity from across Europe to examine patterns of residential mobility of minorities and to synthesise key themes theories and methods The analyses presented make important contributions to theories of migration and minority integration and may inform policies that aim to respond to local population change and increasing diversity The conclusions of the book form an agenda for future research on minority and immigrant internal migration in developed societies

Demography of Russia Tatiana Karabchuk,Kazuhiro Kumo,Ekaterina Selezneva,2016-11-24 This book examines the demographic development of Russia from the late Russian Empire to the contemporary Russian Federation and includes discussions of marriage patterns fertility mortality and inter regional migration In this pioneering study the authors present the first English language overview of demographic data collection in Russia Chapters in the book offer a systematic overview of the legislation regulating fertility and the family sphere a study of the factors determining first and higher order births and an examination of population distribution across Russian regions The book also combines research tools from the social sciences with a medical approach to provide a study of mortality rates By bringing together approaches from several disciplines demography economics and sociology the authors of this book provide a comprehensive and detailed assessment of the historical roots of Russia s demographic development

Fragile Migration Rights Matthew Light,2016-03-10 The Soviet Union comprehensively governed the mobility of its citizens by barring emigration and strictly regulating internal migration In the aftermath of the Soviet collapse the constitution and laws of the new Russian Federation appeared to herald a complete break with the repressiveness of the previous government Russian law now proclaims the right of Russian citizens and residents to move around their country freely This book examines how and why this post Soviet legal promise of internal freedom of movement has been undermined in practice by both federal and regional policies It thereby adds a new dimension to scholarly understanding of the nature of rights citizenship and law enforcement in contemporary Russia Most contemporary works focus on the attempts of developed Northern countries to regulate migration from the global South to the global North here Matthew Light examines the restriction of migration within Soviet and post Soviet Russia providing a comprehensive view into an area rarely explored within migration scholarship *Fragile Migration Rights* develops a comprehensive theoretical framework to analyse this complex subject It is essential reading for students and academics from a range of disciplines including criminology human rights migration studies and political science

Reconsidering Stagnation in the Brezhnev Era Dina Fainberg,Artemy M. Kalinovsky,2016-04-27 This volume contributes to a growing reevaluation of the Brezhnev era helping to shape a new historiography that gives us a much richer and more nuanced picture of the time period than the stagnation paradigm usually assigned to the era The essays provide a multifaceted prism that reveals a dynamic society with a political and intellectual class that remained committed to the ideological foundations of the state recognized the challenges that the system faced

and embarked on a creative search for solutions The chapters focus on developments in politics society and culture as well as the state s attempts to lead and initiate change which are mostly glossed over in the stagnation narrative The volume challenges the assumption that the period as a whole was characterized by rampant cynicism and a decline of faith in the socialist creed and instead points to the persistence of popular engagement with the socialist ideology and the power it continued to wield within the Soviet Union
