*Grace & Power* Sally Bedell Smith, 2011-08-15 Unlike so many other books *Grace and Power* rejects gossip and conspiracy theory to tell the story of John and Jackie's three years in the White House soberly comprehensively and sensitively from beginning to sudden end Sally Bedell Smith's book on John and Jackie Kennedy was hailed by authoritative reviewers on both sides of the Atlantic as the most distinguished and well written book on a perennially fascinating subject for years In the US the hardback was high on the New York Times bestseller list for weeks It is an immensely poignant chronicle of pivotal historical events seen from the inside out from within the private home of the President and First Lady Amidst the superficial opulence of their social circle we see the Cuban Missile Crisis and the burgeoning American civil rights movement from the perspective of an invalid president often barely well enough to appear in public Together with his young wife abandoned by her husband's relentless womanising nevertheless changed the politics and style of America *Grace and Power* is the classic account of that time

*The Family in English Children's Literature* Ann Alston, 2008-06-03 From the trials of families experiencing divorce as in Anne Fine's *Madame Doubtfire* to the childcare problems highlighted in Jacqueline Wilson's *Tracy Beaker* it might seem that the traditional family and the ideals that accompany it have long vanished However in *The Family in English Children's Literature* Ann Alston argues that this is far from the case She suggests that despite the tales of family woe portrayed in children's literature the desire for the happy contented nuclear family remains inherent within the ideological subtexts of children's literature Using 1818 as a starting point Alston investigates families in children's literature at their most intimate focusing on how they share their spaces their ideals of home and even on what they eat for dinner What emerges from Alston's study are not so much the contrasts that exist between periods but rather the startling similarities of the ideology of family intrinsic to children's literature *The Family in English Children's Literature* sheds light on who maintains control who behaves and how significant children's literature is in shaping our ideas about what makes a family good

**Bibliography** Arthur James Wells, 2002 **Century of Struggle** Eleanor Flexner, Ellen Fitzpatrick, 1996 Century of Struggle tells the story of one of the great social movements in American history The struggle for women's voting rights was one of the longest most successful and in some respects most radical challenges ever posed to the American system of electoral politics The book you are about to read tells the story of one of the great social movements in American history The struggle for women's voting rights was one of the longest most successful and in some respects most radical challenges ever posed to the American system of electoral politics It is difficult to imagine now a time when women were largely removed by custom practice and law from the formal political rights and responsibilities that supported and sustained the nation's young democracy For sheer drama the suffrage movement has few equals in modern American political history From the Preface by Ellen Fitzpatrick **Heritage, Memory, and Punishment** Shu-Mei Huang, Hyun-Kyung Lee, 2019-09-23 Based on a transnational study of decommissioned postcolonial prisons in Taiwan Taipei and Chiayi South Korea Seoul and China Lushun this book offers a critical reading of prisons as a particular colonial product the current restoration of which as national heritage is closely related to the evolving conceptualization of punishment Focusing on the colonial prisons built by the Japanese Empire in the first half of the twentieth century it illuminates how punishment has been considered a subject of modernization while the contemporary use of prisons as heritage tends to reduce the process of colonial modernity to oppression and atrocity thus constituting a heritage of shame and death which postcolonial societies blame upon the former colonizers A study of how the remembering of punishment and imprisonment reflects the attempts of postcolonial cities to re articulate an understanding of the present by correcting the past Heritage Memory and Punishment examines how prisons

were designed built partially demolished preserved and redeveloped across political regimes demonstrating the ways in which the selective use of prisons as heritage reframed through nationalism leaves marks on urban contexts that remain long after the prisons themselves are decommissioned As such it will appeal to scholars of sociology geography the built environment and heritage with interests in memory studies and dark tourism **The Jacqueline Wilson Collection**
