Intimate Strangers Men And Women Together:

Intimate Strangers Lillian B. Rubin, 1983 Explains the psychological and developmental factors in the difference between women and men and their effects on adult relationships discussing intimacy sexuality dependency work parenting and other crucial issues of being together *Masculinities, Care and Equality* N. Hanlon, 2012-07-31 This book explores men's ambiguous relationship with intimate caring work within a context where carefree and nurturing expectations for men are competing for influence For men to be more involved carers clashes with commonly valued expectations of them as men and this book analyses how men confront this contradictory expectation Beyond the Margins Linda A. Bell, 2012-02-01 Presenting essays rich with her own personal experiences philosopher Linda A Bell examines not only her own life but also problems arising from ways that living affects thinking She reflects on her own experience in order to challenge a variety of provocative claims including that affirmative action harms those it is designed to help that suicide while perhaps acceptable for some with fatal diseases is otherwise a manifestation of mental illness that women are to blame for male violence toward them if they don't leave the relationships that a low profile is the best path to success for women in academe that women are treated fairly in academe perhaps even better than men and that political correctness is a recent and aberrant move away from respect for freedom of speech Although drawing from experience as she creates and critiques theory Bell argues against the view that it is the bedrock of theory *Misdiagnosed* A. Robert Smith, 2001-01-01 Following two broken marriages and her mother's suicide Jane came into the happiest time of her life with a new love only to have it end tragically Her death certificate states that she died of metastatic carcinoma of unknown primary medical lingo for a cancer whose source remains a mystery That explanation fails to reveal how Jane was placed in harm's way by health care practitioners who belittle one another's valuable skills refuse to cooperate misdiagnose or make no attempt to diagnose and who believe that their treatment plan is the only plan thereby putting the patient at risk This poignant story told through Jane's private journals by her author husband is a cautionary tale for everyone caught in the crossfire of America's medical cold war Book jacket **Public Practice, Private Law** Gary Chartier, 2016-04-06 This book elaborates an appealing model of marriage rooted in love for same sex and different sex couples that doesn't involve the state *Black Eye* Judith Strasser, 2004-04-01 Seventeen years after she married Judith Strasser escaped her emotionally and physically abusive husband and sought a better way to live In the process Strasser rediscovered what she had suppressed through that long span of time exceptional strength and a passion for writing *Black Eye* includes excerpts from a journal Strasser kept from 1985 to 1986 the year she made the decision to leave her marriage and present day commentary on the journal passages and her family history Strasser works like a detective investigating her own life drawing clarity and power from journal passages dreams and memories that originally emerged from confusion and despair With language that is both insightful and poetic she reveals the psychological and social circumstances that led a strong woman an intelligent and politically active feminist to become an emotionally

dependent abused wife Not coincidentally the same year that Strasser finally found the courage to leave her husband she also reclaimed her creative voice Newly empowered and energized by this enormous life change Strasser began writing again after twenty five silent years dominated by her mother s illness and death her own cancer and her painful fearful marriage Black Eye is one of the fruits of this creative reawakening Strasser s writing is refreshingly honest and instantly engrossing Not shy of wretchedness or beauty Strasser s story is bitterly personal ultimately triumphant and inspiring to all who deal with the adversity that is part of human life

Daughter of the Swan Gail Linda Mortimer, 1994 Readers of Eudora Welty s stories often encounter a protective and domelike nighttime sky the moon and constellations beckoning a character to venture beyond the familiar visible world This striking metaphor for the human need to seek out the unknown serves as an anchoring image in *Daughter of the Swan* Gail L Mortimer s study of Welty s lifelong inquiry into the nature and contexts of knowledge Mortimer argues that Welty s views on epistemology and the elusiveness of certainty lie at the heart of this writer s subtle and revelatory work Employing the psychoanalytic object relations theories of Nancy Chodorow and Carol Gilligan she reveals how Welty uses assumptions about relationships to shape her characters consciousnesses Mortimer also contrasts Welty s world with William Faulkner s each elucidates the other s remarkably different ways of perceiving humanity relationships and approaches to the unknown The author then turns to Welty s childhood to consider her evolving sense of what and how things can be known Her childhood with adults created impressions of a benign wondrous orderly world As Mortimer observes Welty eventually replaced these impressions with the realization that adults frequently distort and withhold the truth Welty s own family s conception of love as a kind of shield and her resistance to this protection finds its way into much of her fiction For many Welty characters this protective love becomes an obstacle to fuller understanding Mortimer invokes two of the writer s most beguiling images the circle and the labyrinth to demonstrate that the perceiver who is both an insider and an outsider is best able to recognize and assimilate new knowledge In *The Golden Apples* Welty contemplates the difficulty and fascination implicit in this quest for knowledge given the ambiguous nature of what we know and given our language s surfaces and of masks myths and falsities to create benevolent illusions Ultimately Mortimer concludes Welty comes to see the concept of protective love as a limited one and in *The Optimist s Daughter* for instance she advocates instead the courage to face even the harshest realities Recognizing the richness of Welty s artistry Mortimer views her through the lens of various literary traditions including that of Shelley and Yeats The latter s poem *Among School Children* from which the title of Mortimer s study is borrowed summons the image of the swan to reflect the solitary human soul in search of knowledge In that same spirit of wonder and curiosity Eudora Welty s fiction illuminates the conditions of that search

Real Heat Carol A. Chetkovich, 1997 In the struggle over affirmative action no employment setting has seen more friction than urban fire departments Thirty years of legal and political efforts have opened the doors of this historically white male preserve but men of color have yet to consolidate their gains and women s progress has been even more tenuous

In this unique and compelling account of affirmative action at the street level Carol Chetkovich explores the ways in which this program has succeeded and failed Chetkovich follows the men and women of the Oakland Fire Department Class 1 91 through their academy training and eighteen month probation In vivid and sometimes surprising narratives newcomers tell of their first battle with a full fledged fire their reactions to hazing rituals and their relationships with veterans and fellow trainees Real Heat explores how the process of becoming a firefighter interacts with the dimensions of race and gender to support some and discourage others The book examines the implications of these interactions for public policy and social justice

Women with Alcoholic Husbands Ramona M. Asher,2018-02-01 In this important study of women with alcoholic husbands Asher vividly describes the process of coming to terms with a profound crisis in one s private life From interviews with more than fifty women all of whom were participants in family treatment programs she assembles a composite picture of the experiences shared by wives of alcoholics The testimony given by these women illustrates the steps they must take to regain control of their lives The first step is figuring out what is happening and deciding what to do about it Asher argues that the vogue of using the label codependent may actually hinder rather than facilitate emotional health Led to think of themselves as addicted to their husbands addictions the wives of alcoholics may be persuaded that their own problems can t be overcome But Asher shows these women can take command of their lives Originally published in 1992 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

Sport and Postmodern Times Geneviève Rail,1998-01-01 Using postmodern social theory this book expands our understanding of sport the body and the broader physical culture

New Social Ties Deborah Chambers,2006-10-12 Deborah Chambers draws on the metaphor of friendship as a strategy for exploring contemporary changes in informal social ties She traces the shift from fixed and permanent ties of family neighbourhood and community to fluid and transient ties typified by computer mediated communication

Continuity and Change in Family Relations Rand D. Conger,Frederick O. Lorenz,K.A.S. Wickrama,2004-04-12 The chapters in this volume were developed as a follow up to the Summer Institute entitled Continuity and Change Family Structure and Process conducted by the second Family Research Consortium The goal of this book is to provide readers with a greater understanding of both the conceptual issues involved in the study of continuity and change in families and also some of the methodological approaches that have been developed for investigating families over time

Grief and Romantic Relationship Dissolution Shawn Blue,2017-10-18 In Grief and Romantic Relationship Dissolution Shawn Blue explores the grief and loss associated with divorce and romantic breakups Using a model of love and attachment theory Blue sets a foundation for how connection leads to loss when an attachment relationship is ended and analyzes the various consequences of grief as the result of dissolution on the individual She devotes special attention to the role of

technology on romantic relationship development and makes speculations of the grief that is experienced by relationships created online when they end Finally she utilizes and applies case material to illustrate the grief process and incorporates the influence of media in the understanding of loss related to the ending of attachment relationships This book is recommended for scholars in psychology communication studies and media studies Impacts of Racism on White Americans Benjamin Bowser, Raymond G. Hunt, 1996-03-26 Praise for the first edition A welcome addition to the growing sociological literature that looks beyond the circumstances of victims for the solutions to various social problems Contemporary Sociology A clear articulation of a number of historical spatial and international perspectives on race relations The new and novel focus provides fresh insights into a field that has found the development of a unified theory elusive International Social Science Review Challenging the popularly held view that racism is disappearing as a social phenomenon the second edition of Impacts of Racism on White Americans reexamines the questions proposed by its first edition and notes that one decade later little has changed This stimulating collection of original papers focuses on the new ways in which white Americans act out racism and weighs the advantages and disadvantages that whites experience from racism Drawing on evidence from the social and behavioral sciences this timely revision argues that racism is essentially a problem of European Americans and that most whites do not benefit from racism in the long term In addition this volume holds that racism cannot be eliminated until it is viewed as a white problem that seriously compromises the quality of life The concluding chapter of the first edition which summarized the major insights and findings of that edition has been reprinted and in the final chapter of this new edition editors Benjamin P Bowser and Raymond G Hunt expand on recommendations and clearly illustrate how far we've come and most important how far we have to go Sure to follow the success of its first edition Impacts of Racism on White Americans will make a major contribution to our understanding of the impacts of racism while providing students and professionals in race ethnic studies sociology urban studies and social psychology with thought provoking quality material

Gender and Families Scott Coltrane, Michele Adams, 2008-05-21 When we talk about family values like whether children need two parents we are also talking about gender values because a yes answer to this question might imply that only women with husbands should have children In the same way when we talk about gender issues such as whether men should be paid higher wages than women we are also talking about family issues because a yes answer suggests that husbands should be the family breadwinner In this updated second edition of Gender and Families Coltrane and Adams continue to demystify the complexities and connections between gender and family in contemporary culture with discussions of race ethnicity and social class **Success and Betrayal** Sarah Hardesty, Sarah Hardesty Bray, Nehama Jacobs, 1987-11-15 From Simon Schuster Success and Betrayal offers the groundbreaking insight into the myth of the unlimited potential the mystique of power and the elusive path to the top In their hard hitting book two successful corporate managers describe a classic series of landings that women must confront both to thrive in the corporate environment and to achieve a guiltless balance between

career and personal life **Shifting the Center** Susan J. Ferguson, 2022-11-21 Shifting the Center Understanding Contemporary Families Sixth Edition is a popular anthology of readings used in Sociology of Family and of Marriages Families Intimate Relationship courses Editor Susan J Ferguson brings together carefully selected pieces written by leading family researchers and drawn from a variety of scholarly sources including articles from the leading family journals and excerpts from several classic book length studies She also provides background and context to help students connect the topics in the readings to the broader themes in the study of family sociology The table of contents follows the same scope and sequence as the leading family survey texts Caring Peta Bowden, 2008-01-28 In Caring Peta Bowden extends and challenges recent debates on feminist ethics She takes issue with accounts of the ethics of care that focus on alleged principles of caring rather than analysing caring in practice Caring Bowden argues must be understood by working through examples Following this approach Bowden explores four main caring practices mothering friendship nursing and citizenship Her analysis of the differences and similarities in these practices their varying degrees of intimacy and reciprocity formality and informality vulnerability and choice reveals the practical complexity of the ethics of care Caring recognizes that ethical practices constantly outrun the theories that attempt to explain them and Bowden s unique approach provides major new insights into the nature of care without resorting to indiscriminate unitary models It will be essential reading for all those interested in ethics gender studies nursing and the caring professions **The Psychology of Love** Michele A. Paludi, 2012-03-09 From arranged marriages to online dating this four volume work presents everything from personal accounts to empirical evidence to document what creates love in our culture as well as around the world The field of biology views love as a hard wired mammalian drive akin to thirst and hunger In contrast psychology views love from a social and cultural perspective where our drive to find love and our responses to it are highly dependent on societal norms In The Psychology of Love esteemed author and educator Michele A Paludi examines love through all lenses thereby providing readers a deeper understanding of the ways we can express caring sensitivity empathy and respect toward one another Each chapter in this comprehensive four volume work includes a scholarly overview of empirical research and theories about the psychology of love In addition individuals own definitions of love are included Special attention is paid to accepted standards of love across a variety of cultures the ways individuals express liking and love across the lifecycle and patterns in dissolutions of friendships and romantic relationships making note of gender and race differences Measuring the Quantum State of Light Ulf Leonhardt, 1997-07-13 Appendix A Semiclassical approximation
