Carol Stack author of All Our Kin **CRISIS INTERVENTION IN CRIMINAL JUSTICE/SOCIAL SERVICE** James E. Hendricks, Cindy S. Hendricks, 2014-04-01 This expanded new edition continues to demonstrate and provide theoretical analytical and practical knowledge for first responders Face to face interaction with the client victim is part of the comprehensive approach advocated by the book which requires interveners to assess the nature of a crisis and the condition of the victim in order to determine the appropriate course of action The comprehensive balance of theory and practice presented in this book should enable the intervener in coupling his her general knowledge of human psychology and emotional crisis with the specific and novel characteristics of various crisis situations The text represents the work of national scholars who have expertise in criminal justice and social service issues Their chapters focus on a Historical and Theoretical Overview Ethics in Crisis Intervention Practice Intimate Partner Violence Police Response to Domestic Violence Children in Crisis Elder Mistreatment Suicide Crisis of Rape and Survivor Intervention Death Notification and the Theory and Practice of Delivering Bad News Terrorism and Crisis Intervention and Mass Casualty Crisis Response and Communication Helpful appendices in each chapter provide additional internet resources as well as a complete Model Law Enforcement Code of Ethics and Social Work Code of Ethics This new edition retains important information while providing current case studies such as the Miracle on the Hudson River crash the mass shootings at Virginia Tech the Boston Marathon bombing and the Yarnell Hill fire in Arizona This exceptional book is designed for firefighters police officers community service officers correctional workers emergency medical workers probation parole officers protective service workers psychological counselors social workers and victim assistance workers among others Physical Punishment in Childhood Bernadette J. Saunders, Chris Goddard, 2009-10-23 Providing a wide spectrum of views the authors explore the fine line between normalized physical punishment and illegal or unacceptable physical and emotional abuse of children It builds on the emerging field of research that provides opportunities for children to speak for themselves about their views and experiences Provides observations from children professionals and several generations from within individual families Discusses the power of language used by parents professionals and the media to describe physical punishment Reflects upon the status of children in societies that sanction their physical punishment motivations and justifications for its use perceptions of its effectiveness and its impact Presents a combination of personal social legal and language factors which provide significant new insights and suggest ways to move forward *Leaving Abusive Partners* Catherine Kirkwood, 1993-08-23 This moving book reshapes our understanding of the nature of woman abuse and makes a major contribution to a key issue for feminist campaigning and theory The past 25 years of research on battered women has focused on the psychological sociological and political conditions which contribute to violence and on women s reasons for staying with violent and abusive partners The author goes beyond the discourse of victims and survivors to offer new insights into the very specific and multifaceted nature

of the abuses women experience emotional as well as physical Drawing on firsthand accounts Kirkwood sheds new light both on the dynamics of abuse which afford abusers control over women and the resources and knowledge women draw upon to re empower themselves Examining first the nature of abuse and then the issues confronted by a woman after she has left an abusive relationship Kirkwood finds that women s experiences of society after leaving abusive partners are highly interrelated She develops the concept of a web to explain how the different elements of abuse connect to make up the experiences of abused women

Off Nevsky Prospekt Elena Markova, Creating Sanctuary Sandra L Bloom, 1997 In Creating Sanctuary Dr Sandra Bloom argues that our society is sick we are emotionally numb addicted to violence alienated from ourselves and each other and trapped in a vicious cycle of destructive behavior By applying the successes from her treatment programs with severely traumatized individuals to larger group and social organizations Dr Bloom offers insights into how we can create safe

environments that promote well being *A Delicate Choreography* David Sabeen, 2023-10-24 The origins of the incest taboo have puzzled many of the most influential minds of the West from Plutarch to St Augustine St Thomas Aquinas Martin Luther David Hume Lewis Henry Morgan Sigmund Freud Emile Durkheim Edward Westermarck and Claude Lévi Strauss This book puts the discussion of incest on a new foundation It is the first attempt to thoroughly examine the rich literature from philosophical theological and legal treatises to psychological and biological genetic studies to a wide variety of popular cultural media over a long period of time The book offers a detailed examination of discursive and figurative representations of incest during five selected periods from 1600 to the present The incest discussion for each period is complemented with a presentation of dominant kinship structures and changes without arguing for causal relations Part I deals with the legacy of ecclesiastical marriage prohibitions of the Middle Ages Historians dealing with the Reformation have wondered about the political and social implications of theological debates about the incest rules the Enlightenment opted for sociological considerations of the household and a new anthropology based on the passions Baroque discourse focused upon sexual relations among kin by marriage while Enlightenment and Romantic discussions worried the intimacy of siblings The first section of Part II deals with the six decades around 1900 during which European and American cultures obsessed about the sexuality of women Almost everyone concurred in the idea that mother made the family what it was that she configured the household kept the lines of kinship vibrant and stood at the threshold as stern gatekeeper and many thought that she managed these tasks through her sexuality and an eroticized relationship with sons Another story line taken up in the section Intermezzo this one about the physical and mental consequences of inbreeding appeared after 1850 To what extent do close kin marriages pose risks for progeny At its center lay the incest problematic now restated Is avoidance of kin genetically programmed Do all cultures know about risks of consanguinity As for the twenty first century evolutionary and genetic assumptions are challenged by a living world population containing roughly one billion offspring of cousin marriages Part III deals with one of the perhaps most remarkable reconfigurations of Western kinship in the aftermath of World War I The shift from an endogamous to an exogamous alliance system centered on the nuclear family An historical anomaly this family form began to dissolve almost as soon as it came together and in the process shifted the focus of incest concerns to a new pairing father and daughter By the 1970s when the father daughter problematic swept all other considerations of incest aside that relationship had come to be modeled for the most part around power and its abusive potential As for incest its representations in the last three decades of the twentieth century no longer focused on biologically damaged progeny but rather on power abuses in the nuclear family sexual abuse By the mid 1990s Western culture at least partly redirected its gaze away from father and daughter towards siblings especially towards brothers and sisters and the sexual boundaries and erotics of their relationships Correspondingly siblings became a model organism for psychotherapy evolutionary biology and the science of genetics *Measuring the Health Behavior of Adolescents* ,1993 Measuring the Health Behavior of

Adolescents DIANE Publishing Company,1995-09 *The Cambridge Handbook of Violent Behavior and Aggression* Daniel J. Flannery,Alexander T. Vazsonyi,Irwin D. Waldman,2007-09-03 From a team of leading experts comes a comprehensive multidisciplinary examination of the most current research including the complex issue of violence and violent behavior The handbook examines a range of theoretical policy and research issues and provides a comprehensive overview of aggressive and violent behavior The breadth of coverage is impressive ranging from research on biological factors related to violence and behavior genetics to research on terrorism and the impact of violence in different cultures The authors examine violence from international cross cultural perspectives with chapters that examine both quantitative and qualitative research They also look at violence at multiple levels individual family neighborhood cultural and across multiple perspectives and systems including treatment justice education and public health
