Dance and the Lived

Body Sondra Horton Fraleigh, 1996-05-15 In her remarkable book Sondra Horton Fraleigh examines and describes dance through her consciousness of dance as an art through the experience of dancing and through the existential and phenomenological literature on the lived body She describes with performance photographs specific imagery in dance masterworks by Doris Humphrey Anna Sokolow Viola Farber Nina Weiner and Garth Fagan **International Handbook of Research in Arts Education** Liora Bresler, 2007-09-04 Providing a distillation of knowledge in the various disciplines of arts education dance drama music literature and poetry and visual arts this essential handbook synthesizes existing research literature reflects on the past and contributes to shaping the future of the respective and integrated disciplines of arts education While research can at times seem distant from practice the Handbook aims to maintain connection with the live practice of art and of education capturing the vibrancy and best thinking in the field of theory and practice The Handbook is organized into 13 sections each focusing on a major area or issue in arts education research **The Moment Of Movement** Lynne Anne Blom, L. Tarin Chaplin, 1988-12-15 Dance improvisation the intriguing phenomenon of the creative process alive in the moving body exists powerfully sublimely lending insight solving problems allowing moments of transcendence diversion and delight Flourishing especially since the postmodern movement of the 1960s it has come into its own in the performing arts While there are many books containing ideas for developing improvisations few have tackled the difficult questions What is dance improvisation How does it work or What is its body of knowledge The Moment of Movement goes beyond lists of improvisations and into the heart of improvising As in their previous book The Intimate Act of Choreography the authors pursue both the philosophical and the practical They begin by examining the creative process as it applies to movement and especially the kinesthetic way in which the body knows and uses movement They answer the often unstated and pertinent questions of the novice investigate the particular skills and traits needed by the leader consider ways of working with specific populations and provide challenging material for advanced movers They discuss the use of music and the specific situation of improvisation in performance For leaders who want to design their own improvisations they trace the evolution of an idea into an actual content and structure They also address the controversial issue of the legitimacy of improvisation in an academic curriculum A final chapter presents hundreds of improvs and improv ideas grouped into units and cross referenced The Moment of Movement is not tied to any one point of view The authors presentation of a broad range of material is flexible enough for use by choreographers directors educators and therapists In its perceptive investigation of the experiential and conceptual aspects of dance improvisation this book articulates the ephemeral *You, the Choreographer* Vladimir Angelov, 2023-08-30 YOU THE CHOREOGRAPHER Creating and Crafting Dance offers a synthesis of histories theories philosophies and creative practices across diverse genres of concert dance choreography The book is designed for readers at every stage of creative development who seek to refine their artistic sensibility Through a review of major milestones in the field including contributions to choreography from the humanities arts and modern

The Surplus of Culture Ewa Borkowska,Tomasz Burzyński,2011-07-12 This multifaceted volume presents the elusive surplus of culture in the spotlight of theory and academic practice Despite its overtly economic implications the concept alludes to the added value of sense common sense and nonsense which is represented as languages of irony irrationality and absurdity potentially subverting traditional and mainstream regimes of culture Consequently the moment of surplus is inherent in critical interpretation in which supposedly well entrenched notions suddenly reveal their implicitly shattering and subversive nature The surplus of culture dwells at the risky intersection of untamed interpretation and tradition It is the space of the third in which literary canons are re visited language reveals its hidden political agendas the Orient reclaims its own cognitive perspective and established structures of cognition are questioned in the tragic comic gesture of insight The volume is a must for scholars and researchers in the fields of cultural studies literature and arts as well as literary theory
