Salmoni, Paula Holmes-Eber, 2008 This textbook is designed to help Marines link concepts of culture to the realities of planning and executing military operations around the world p 2 *Brute* Robert Coram, 2010-11-10 The author of *American Patriot* details the life of an innovative U S Marine Corps veteran of World War II the Korean War and the Vietnam War From the earliest days of his thirty four year military career Victor Brute Krulak displayed a remarkable facility for applying creative ways of fighting to the Marine Corps He went on daring spy missions was badly wounded pioneered the use of amphibious vehicles and masterminded the invasion of Okinawa In Korea he was a combat hero and invented the use of helicopters in warfare In Vietnam he developed a holistic strategy in stark contrast to the Army's Search and Destroy methods but when he stood up to LBJ to protest he was punished And yet it can be argued that all of these accomplishments pale in comparison to what he did after World War II and again after Korea Krulak almost single handedly stopped the U S government from abolishing the Marine Corps Praise for Brute Coram captures General Krulak's striding march across the Marine Corps and across the American century and is a meticulous investigator of the things that drove Brute Krulak not all of them pretty Brute is plainspoken and absorbing and captures its subject in strokes that are sharp simple and often funny Dwight Garner *The New York Times* A well written tale about a complicated yet admirable man James Srodes *The Washington Times* A revealing and troubling portrait of a much revered figure Kirkus Reviews **Parris Island: "The Cradle of the Corps"** Eugene Alvarez, Leo Daugherty, 2016-05-21 The original 1983 manuscript written by Eugene Alvarez who is the primary author of this book included the years 1562-1983 The current and revised manuscript was edited and updated by Leo J Daugherty III PhD in cooperation with the primary author and covers the years 1997 to 2015 including chapter 6 dealing with recruit training in the 1920s and 1930s which was a part of his doctoral dissertation at the Ohio State University Since this work was first completed Parris Island has undergone numerous changes in buildings the base layout and recruit training The training philosophy has been altered as society demands Thus past training situations and methods should be observed as recorded in the chronological approach of the text to present times *What About Us?* Edgar D. Johnson, 2010-12-01 Over the past three decades the standards based reform movement has transformed K 12 education in the United States culminating with passage of the No Child Left Behind Act in 2002 Beyond making reasonable accommodations for special needs students standards based education pays little attention to other areas of student difference relying instead on a rational actor model of student experience and ignoring how differences in students backgrounds and orientations impact their particular experiences of schooling This book examines the development of standards based education with particular scrutiny of the roles of the National Governors Association and its National Education Summit events Examination of important documents emerging from those events provides an illustration of the

conceptually impoverished understanding of student subjectivity motivation and agency inherent in standards based education In order to understand both problems with and alternatives to standards based education the author examines the roles of ideology rhetoric and audience in school policy In three case studies the author analyzes several non school models of education including Marine Corps bootcamp Ving Tsun kung fu training and an online school resistance community Johnson argues that examination of these learning contexts provides a better understanding of the shortcomings and dangers of the standards based model of student subjectivity and suggests a set of fourteen principles to inform the development of more student centered alternatives

**One of Us**

Jack Ruppert, 2003-04-30 This engaging book plunges readers into the culture shock of Marine Officer Candidates School a ten week physical intellectual and emotional testing ground so grueling that every fourth candidate fails to complete What does it take to become a Marine Officer This engaging book transports readers through the culture shock of Marine Officer Candidates School a ten week physical intellectual and emotional testing ground that every fourth candidate fails to complete The Sergeant Instructors intensity is palpable as candidates are made to strip away civilian habits and attitudes replacing them the Marine Corps ethos in the hopes of becoming officers Anecdotes and personal recollections of OCS by two generations of officers provide instructive poignant and humorous interludes for the reader A second focus of the book involves research into the demographics attitudes and opinions of two groups of officers separated in time by 50 years This comparison across a wide range of personal and social issues and beliefs renders some surprising results that lie in

opposition to conventional wisdom From the older generation the reader will better understand the lifelong impact of the Marine leadership experience From today s officers the reader will discover the motivations of today s allegedly soft and coddled young people to follow the difficult path to a lieutenant s gold bars This book is required reading for anyone with an interest in the Marine Corps and its culture      *Joining the United States Marine Corps* Snow Wildsmith,2014-01-10 This book is for the teenager or young adult who is interested in enlisting in the United States Marine Corps It will walk him or her through the enlistment and recruit training process making the decision to join talking to recruiters getting qualified preparing for basic training and learning what to expect at basic recruit training The goal of the McFarland Joining the Military book series is to help young people who might be curious about serving in the military decide whether military service is right for them which branch is the best fit and whether they are qualified for and prepared for military service Features include lists of books web links and videos a glossary and an index      **Making Marines for 100 Years** MCRD Museum Foundation,2025-03-05 A Centennially inspired review of the history of the Marine Corps in San Diego from its expeditionary base past to its current role training over half of the young men and women joining the Marine Corps One of the three spiritual homes of the elite Corps of Marines along with a sister Depot in South Carolina and the Officers Candidate School in Virginia the Marine Corps Recruit Depot in San Diego holds a special place in the hearts of Marines as well as those who support and admire them This work more entertaining than scholarly details the over 100 years that a Marine Corps presence in San Diego has contributed to the national defense the San Diego Community and changed the trajectory of the lives of well over two million Marines      **The Marines, Counterinsurgency, and Strategic Culture** Jeannie L. Johnson,2018-05-01 The United States Marine Corps has a unique culture that ensures comradery exacting standards and readiness to be the first to every fight Yet even in a group that is known for innovation culture can push leaders to fall back on ingrained preferences Jeannie L Johnson takes a sympathetic but critical look at the Marine Corps s long experience with counterinsurgency warfare Which counterinsurgency lessons have been learned and retained for next time and which have been abandoned to history is a story of battlefield trial and error but also a story of cultural collisions The book begins with a fascinating and penetrating look inside the culture of the Marine Corps through research in primary sources including Marine oral histories and interviews with Marines Johnson explores what makes this branch of the military distinct their identity norms values and perceptual lens She then traces the history of the Marines counterinsurgency experience from the expeditionary missions of the early twentieth century through the Vietnam War and finally to the Iraq War Her findings break new ground in strategic culture by introducing a methodology that was pioneered in the intelligence community to forecast behavior Johnson shows that even a service as self aware and dedicated to innovation as the Marine Corps is constrained in the lessons learned process by its own internal predispositions by the wider US military culture and by national preferences Her findings challenge the conclusions of previous counterinsurgency scholarship that ignores culture This highly readable

book reminds us of Sun Tzu's wisdom that to be successful in war it is important to know thyself as well as the enemy. This is a must read for anyone interested in the Marines Corps counterinsurgency warfare, military innovation or strategic culture.
