Journey From Eastern Parkway:

Proceedings of the Public Service Commission for the First District, State of New York ... New York (State).

Public Service Commission. First District,1916

A Trip to the Palace Ivorn Summingpeglerpegler,2011-06-01

DescriptionThe story is based on true events and as such it is not simply fictional though the writing style may appear to indicate otherwise as names and certain places have been altered I see this short novel as more than a piece of literature it is at one and the same time a work that deals with religion psychiatry and psychology The story is told of a young man in Cape Town living an observant Jewish life who is enamored with a young religious woman who is also Jewish The difference is she has always been religious while the young man is a Ba al Teshuvah master of repentance or one who has returned to an observant Jewish life later in life When he asks the young woman whom he hardly knows to marry him she expresses that she is not interested Eventually she leaves Cape Town to return to her hometown Toronto Canada But the young man Vladamir so named continues to read signs that he is meant to be married to Yana Goldenberg his perfect young Jewish woman So he travels overseas with the express purpose of declaring his love for her and eventually marrying her But things go wrong his actions are interpreted as dangerous the Jewish community rejects his desire for Yana and when Yana lies about his following her he is incarcerated There in jail Vladamir believes he is on a mission to save the Jews of North America and South Africa and possibly the world if only he and Yana were to be married He believes that Yana is aware of this Messianic vision and that eventually through his travails in prison the truth will be revealed and the world set right As it happens we learn that Yana did not think that way We learn in fact that Vladamir suffers from bi polar and this illness would explain his delusions and warped perceptions The book thus makes for compelling reading for sufferers of bi polar and those who are close to such sufferers The work also exposes the dangers of religion the psychological and philosophical dimension of religion and the personal battle for wholeness and peace About the AuthorIvorn Summing was born in Witbank South Africa on the 13th July 1974 One of his primary areas of interest is art both theoretical academic and practical painting He is currently reading for a doctorate in Art History through the University of South Africa and has exhibited his paintings at various galleries in Cape Town South Africa A Trip to the Palace is Summing s first literary work but its images and experiences inform both his art making and his desire to individuate as a husband and father as well Journal of Proceedings ,1905 *The Routes Not Taken* Joseph B. Raskin,2013-12-01 A fascinating journey into the past and under the ground that offers an insightful look at the what might have beens of urban mass transit The New York Times From the day it broke ground by City Hall in 1900 it took about four and half years to build New York s first subway line to West 145th Street in Harlem Things rarely went that quickly ever again The Routes Not Taken explores the often dramatic stories behind unbuilt or unfinished subway lines The city s efforts to expand its underground labyrinth were often met with unexpected obstacles financial shortfalls clashing political agendas battles with community groups and more After discovering a copy of the 1929 subway expansion map

Joseph B Raskin began his own investigation into the city's underbelly. Here he provides an extensively researched history of the Big Apple's unfinished business. *The Routes Not Taken* sheds light on the efforts to expand the Hudson Tubes into a full fledged subway the Flushing line and why it never made it past Flushing a platform under Brooklyn's Nevins Street station unused for more than a century the 2nd Avenue line long the symbol of dashed dreams deferred countless times since the original plans were presented in 1929 Raskin reveals the personalities involved explaining why Fiorello H La Guardia couldn't grasp the importance of subway lines and why Robert Moses found them old and boring. By focusing on unbuilt lines he illustrates how the existing system is actually a Herculean feat of countless compromises. Filled with illustrations this is an enduring contribution to the history of transportation and the history of New York City.
