The Hidden Truth: Deception in Women's Health Care John T. Littell M.D.,2015-04-29 There is no question that women are called upon to make a variety of sacrifices during the course of their reproductive lives Dealing with the physical emotional and psychological demands of the monthly reproductive cycle of pregnancy and of childrearing can prove exhausting for many especially when coupled with the rigors of managing a home and full time employment outside the home So why is it that

these same women have been asked and at times required to make health care choices which further compromise their overall wellbeing while men their partners and soulmates are left with little or no responsibility for such issues as STD prevention and birth control In a guidebook tailored for both women and men a seasoned doctor combines facts and advice relevant to women and their families that will empower them to make informed decisions about future health care Dr John Littell a family physician with more than twenty five years of experience that includes obstetrics and gynecology shares valuable insight about controversial issues in women s health care that range from HPV vaccination in children to the diagnosis and treatment of HPV related disease to the numerous choices related to contraception and family planning With an emphasis on natural options Dr Littell includes guidance and case studies related to common gynecologic health issues encountered by teenagers and women throughout their reproductive lives while exposing much of the deception in women s health care today
