*Journey to the Center of the Earth, Twenty Thousand Leagues Under the Sea, Round the World in Eighty Days* Jules Verne, 2013-10-01 Jules Verne s most beloved novels are gathered here in one hardcover volume three thrilling tales of fabulous journeys under through and around the earth Verne was one of the great pioneers of science fiction Born in France in 1828 he wrote brilliantly about space air and underwater travel long before airplanes and space ships had been invented and he is still one of the most widely read internationally of all science fiction writers But beyond charting new territory for adventurous fiction his creations have entered our culture and taken on the magnitude and vitality of myth It is hard to imagine anyone who has not heard of Captain Nemo and his giant submarine exploring the ruins of Atlantis in *Twenty Thousand Leagues Under the Sea* Phileas Fogg s frantic race around the world by every means of transportation in *Round the World in Eighty Days* and the harrowing descent through a volcanic crater to underground caverns where prehistoric creatures roam in *Journey to the Center of the Earth* These stories have seized the imaginations of readers for generations and are as vivid and exciting now as when their author first imagined traveling beyond the bounds of the possible Translated by Henry Frith

*Twenty Thousand Leagues Under the Sea* Jules Verne, 2015-01-01 A monster is haunting the seas so the US Navy sends out an expedition to uncover its identity When three crew members fall overboard they discover that the monster is actually a submarine sailed by the secretive Captain Nemo

*Twenty Thousand Leagues Under the Sea (Annotated with Biography of Verne and Plot Analysis)* Jules Verne, 2013-11-22 Some critics claim that *Twenty Thousand Leagues Under the Sea* published in 1870 is Jules Verne s masterpiece The novel is narrated by Professor Pierre Aronnax of the Paris Museum of Natural History It is set in the year 1866 Verne was already working on the manuscript at that time and

the world of the sea is in the news with the supposed sightings of a sea monster that is much too large and fast to be a whale. When a boat is damaged apparently by the sea monster Aronnax while on a researching assignment in New York is asked by the United States government to help track down the monster. Aronnax illustrations of Aronnax in the original edition look very much like Verne takes his loyal Belgian valet Conseil with him both Aronnax and Conseil are men of science cool rational and possessing encyclopaedic knowledge of the sea. Ned Land serves as their foil a passionate and foolhardy harpooner from Canada. This annotated edition includes a biography and critical essay.
