Joyce Cary Joyce Cary, 1976 Selected Essays Joyce Cary, 1976 British Imperial Literature, 1870-1940 Daniel Bivona, 1998-06-13 British Imperial Fiction 1870 1940 traces the gradual process by which the colonial bureaucratic subject was constructed in nineteenth and early twentieth century Britain Daniel Bivona s study offers insightful readings of a number of influential writers who were involved in promoting the ideology of bureaucratic self sacrifice the most important of whom are Stanley Kipling and T E Lawrence He examines how this governing ideology is treated in the novels of Joseph Conrad Joyce Cary and George Orwell By placing the complexities of individual texts in a much larger historical context this study makes the original claim that the colonial bureaucrat played an ambiguous but nonetheless central role in both pro imperial and anti imperial discourse his own power relationship with bureaucratic superiors shaping the terms in which the proper relationship between colonizer and colonized was debated **The English Book and Its Marginalia** Asako Nakai, 2022-06-08 This book is about books that recount the story of encountering another book There are various versions of the story told and retold from the heyday of imperialism up to the present day Homi Bhabha calls it the trope of the discovery of the English book by considering each of these versions carefully we may also give an alternative account of twentieth century English literature as the site of an intercultural discourse This project is very much inspired by debate on postcolonial theory namely the debate between Said and Bhabha Part I is devoted to the discussion of Conrad especially of Heart of Darkness and investigates how the novella has continually been reproduced to the extent that it represents the English Book of colonial postcolonial literatures The chapter on Hugh Clifford Ch 3 is virtually the first intensive critique of his novels such as Saleh 1908 with a particular focus on their intertextual relations with Conrad s texts Part II examines how the story of the English Book is repeated and revised in the texts of the following authors Joyce Cary Isak Dinesen V S Naipaul Kaiko Takeshi and Ng g wa Thiong o Changing States Robert Welch Nfa, 2005-09-23 In Changing States Robert Welch examines the work of the major authors of modern Irish literature in the context of the transformation from Gaelic to twentieth century post industrial culture The force of Irish writing uniting authors as various as Yeats Heaney Synge Beckett Joyce and Mairtin O Cadhain largely derives Welch argues from their need to respond to the challenges of this transformation Writing against a sense of loss their work is distinguished by certain key features an intense awareness of the power of language a provisionality in regard to character a preoccupation with change and an obsession with the past and its meaning Robert Welch draws attention to the crucial but often hidden aspects of modern Irish writing He examines its flexibility its scepticism its concern with form and ultimately the need for change and the fear of it He provides a unique in depth study of individual authors in the context of cultural and linguistic developments that will be an invaluable text for anyone interested in Irish life and literature or in language and translation The Offense of Poetry Hazard Adams, 2011-07-01 There is something offensive and scandalous about poetry judging by the number of attacks on it and

defenses of it written over the centuries Poetry Hazard Adams argues exists to offend not through its subject matter but through the challenges it presents to the prevailing view of what language is for Poetry's main cultural value is its offensiveness it should be defended as offensive Adams specifies four poetic offenses gesture drama fiction and trope and devotes a chapter to each ranging across the landscape of traditional literary criticism and exploring the various attitudes toward poetry including both attacks and defenses offered by writers from Plato and Aristotle to Sidney Vico Blake Yeats and Seamus Heaney among others Criticism Adams writes needs renewal in every age to free poetry from the prejudices of that age and the unintended prejudices of even the best critics of the past to free poetry to perform its provocative antithetical cultural role Poetry achieves its cultural value by opposing the binary oppositions form and content fact and fiction reason and emotion that structure and polarize most understandings of literature and of life Adams takes a position antithetical to the extremes of both abstract formalism and the politicization of literary content He concludes with an appreciation of what he calls the double offense of great bad poetry poetry so exceptionally bad that it transcends its shortcomings and leads to gaiety He reminds us that Blake in *The Marriage of Heaven and Hell* identified angels with the settled and coercive and assigned the qualities of energy and creativity to his devils According to Adams poetry in its broad and traditional sense of all imaginative writing may be identified with Blake's devils
