Juche Theory Application:

Juche, Theory and Application Chaouki Ajami, 1978 **Education, Refugees and Asylum Seekers** Lala Demirdjian, 2011-12-08 A global exploration of formal and non formal education provision to refugees and asylum seekers in refugee camps and in schools and universities of host countries **North Korea** Paul French, 2007-07-15 This reissue of Paul French s acclaimed introduction to North Korea provides an up to the minute overview of the politics economics and history of the DPRK with added chapters dealing with recent events A new foreword examines why North Korea remains an issue in world politics and argues that an understanding of the country is more important now than ever A new in depth postscript offers analysis of recent years why Pyongyang felt compelled to test a bomb and revert to blatant nuclear diplomacy and how the crisis can be resolved peacefully **The Border** Erika Fatland, 2021-02-02 The acclaimed author of Sovietistan travels along the seemingly endless Russian border and reveals the deep and pervasive influence it has had across half the globe Imperial communist or autocratic Russia has been and remains a towering and intimidating neighbor Whether it is North Korea in the Far East through the former Soviet republics in Asia and the Caucasus or countries on the Caspian Ocean and the Black Sea What would it be like to traverse the entirety of the Russian periphery to examine its effects on those closest to her An astute and brilliant combination of lyric travel writing and modern history The Border is a book about Russia without its author ever entering Russia itself Fatland gets to the heart of what it has meant to be the neighbor of that mighty expanding empire throughout history As we follow Fatland on her journey we experience the colorful exciting tragic and often unbelievable histories of these bordering nations along with their cultures their people their landscapes Sharply observed and wholly absorbing The Border is a surprising new way to understand a broad part our world **North Korea Handbook** Yonhap News Agency, Seoul, 2002-12-27 This is a timely and comprehensive guide to one of the most volatile misunderstood and potentially dangerous states in the world and one of great strategic importance to U S interests in Asia Featuring a detailed who s who section it covers politics the economy the military education and culture and provides numerous vital statistical data **Dissolution of political party** Sungjin Kim, 2017-05-24 The Korean Constitutional Court adopted a two prong test in its first case on dissolution of political party in determining whether to dissolve the political party According to Article 8 Section 4 of the Korean Constitution a political party may be dissolved if the purposes or activities of the political party are contrary to the fundamental democratic order The Korean Constitutional Court not only used Article 8 4 of the Constitution as a standard of review for dissolution of political party but also adopted the principle of proportionality as another standard of review to be met even though the Constitution does not explicitly say so The European Court of Human Rights has also used essentially a two step test where the dissolution of a political party is justified if there is a pressing social need for the dissolution and the dissolution is proportionate to the legitimate aims pursued In principle the criteria established by the Korean Constitutional Court is very similar to the ones developed by the

European Court of Human Rights even though the outcome of the application seems to be somewhat different

Understanding Film Mike Wayne, 2005-05-20 Film remains one of the most dominant cultural forms in the world today Crossing classes and cultures it permeates many aspects of our consciousness In film perhaps more than any other medium we can read the politics of time and place past and present The history of Marxism has intersected with film in many ways and this book is a timely reminder of the fruits of that intersection in film theory and film practice Marxist film theory returns to film studies some of the key concepts which make possible a truly radical political understanding of the medium and its place both within capitalism and against it This book shows how questions of ideology technology and industry must be situated in relation to class a category which academia is distinctly uncomfortable with Exploring the work of some of the key theorists who have influenced our understanding of film such as Adorno Althusser Benjamin Brecht Gramsci Jameson and others It shows how films must be situated in their social and historical contexts whether Hollywood Russian Cuban Chinese or North Korean cinema The authors explore the political contradictions and tensions within dominant cinema and discuss how Marxist filmmakers have pushed the medium in new and exciting directions

Harmonious Intervention Chiung-Chiu Huang, Chih-yu Shih, 2016-04-22 Two major features of international relations at the beginning of the 21st century are global governance and the rise of China Global governance advocating global norms requires intervention into sovereign domains in defiance of those norms However an ascendant China adheres to a classic stance on sovereign integrity which prohibits such intervention Whether or not China will ultimately Sinicize global governance or become assimilated into global norms

remains both a theoretical and a practical challenge Both challenges come from China's alternative style of global governance which embodies the doctrine of balance of relationship in contrast with the familiar international relations embedded in balance of power or balance of interest An understanding of China's intervention policy based upon the logic of balance of relationship is therefore the key to tackling the anxiety precipitated by these theoretical as well as practical challenges
