Judgments on History and Historians. Translated by Harry Zohn, with an Introd. by H. R. Trevor-Roper Jacob Burckhardt, 1958 *On History and Historians* Jacob Burckhardt, 1980-05 **Reflections on History** Jacob Burckhardt, 1979 Almost alone among nineteenth century historians Jacob Burckhardt saw the totalitarian direction that history could take This book first published in English in 1943 as *Force and Freedom* is a guide to the study and comprehension of historical processes Burckhardt makes a clear distinction between the state and the voluntary activities of society He focuses on the nature and reciprocal interactions of the state religion and culture Herbert Butterfield C.T. McIntire, 2008-10-01 Herbert Butterfield 1900 1979 was an important British historian and religious thinker whose ideas in particular his concept of a Whig interpretation of history remain deeply influential In this intellectual biography the first comprehensive study of Butterfield C T McIntire focuses on the creative processes that lay behind Butterfield s intellectual accomplishments Drawing on his investigations into Butterfield s vast and diverse output of published and unpublished work McIntire explores Butterfield s ideas and methods He describes Butterfield s lifelong devotion to his Methodist faith and shows how his Christian spirituality animated his historical work He also traces the theme of dissent that ran through Butterfield s life and work presenting a man who found himself at odds with prevailing convictions about history morality politics religion and teaching a man who elevated the notion of dissent into an ethic of living in tension with any established system Truth, Morality, and Meaning in History Paul T. Phillips, 2019-01-01 In this important new book Paul T Phillips argues that most professional historians aside from a relatively small number devoted to theory and methodology have concerned themselves with particular specialized areas of research thereby ignoring the fundamental questions of truth morality and meaning This is less so in the thriving general community of history enthusiasts beyond academia and may explain in part at least history s sharp decline as a subject of choice by students in recent years Phillips sees great dangers resulting from the thinking of extreme relativists and postmodernists on the futility of attaining historical truth especially in the age of post truth He also believes that moral judgment and the search for meaning in history should be considered part of the discipline s mandate In each section of this study Phillips outlines the nature of individual issues and past efforts to address them including approaches derived from other disciplines This book is a call to action for all those engaged in the study of history to direct more attention to the fundamental questions of truth morality and meaning **A Companion to the Philosophy of History and Historiography** Aviezer Tucker, 2011-06-28 A COMPANION TO THE PHILOSOPHY OF

HISTORY AND HISTORIOGRAPHY The philosophy of historiography examines our representations and knowledge of the past the relation between evidence inference explanation and narrative Do we possess knowledge of the past Do we just have probable beliefs about the past or is historiography a piece of convincing fiction The philosophy of history is the direct philosophical examination of history whether it is necessary or contingent whether it has a direction or whether it is coincidental and if it has a direction what it is and how and why it is unfolding The fifty entries in this Companion cover the main issues in the philosophies of historiography and history including natural history and the practices of historians Written by an international and multi disciplinary group of experts these clearly written entries present a cutting edge updated picture of current research in the philosophies of historiography and history This Companion will be of interest to philosophers historians natural historians and social scientists **God, History, and Historians** C. Nietzsche's Philosophy of History Anthony K. Jensen, 2013-07-04 Nietzsche the so called herald of the philosophy of the future nevertheless dealt with the past on nearly every page of his writing Not only was he concerned with how past values cultural practices and institutions influence the present he was plainly aware that any attempt to understand that influence encounters many meta historical problems This comprehensive and lucid exposition of the development of Nietzsche's philosophy of history explores how Nietzsche thought about history and historiography throughout his life and how it affected his most fundamental ideas Discussion of the whole span of Nietzsche's writings from his earliest publications as a classical philologist to his later genealogical and autobiographical projects is interwoven with careful analysis of his own forms of writing history the nineteenth century paradigms which he critiqued and the twentieth century views which he anticipated The book will be of much interest to scholars of Nietzsche and of nineteenth century philosophy Studies in the Nature and Teaching of History W H Burston, D Thompson, 2016-04-14 Originally published in 1967 this book is aimed at the student teacher and discusses the philosophy of history and the effective learning of it It discusses the UK secondary school history syllabus with a particular emphasis on whether contemporary history is of more relevance to pupils than traditional history There is a specific chapter on the problems of value judgements in history and history teaching From a psychological point of view the book examines the problems of concept formation the uses and dangers of analogy and the question of imagination and inference in child and adolescent thinking Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical
