**The Unspeakable** Amy L. Hubbell,Névine El Nossery,2013-10-03 The Unspeakable Representations of Trauma in Francophone Literature and Art is situated at the crossroads of language culture and genre it contends that suffering transcends time space and cultural specificity Even when extreme trauma is silenced it often still emerges in surprising and painful ways This volume draws together examples from throughout the Francophone world including countries such as Algeria Morocco Lebanon Rwanda Cameroon Congo C te d Ivoire Haiti New Caledonia Quebec and France and across genres such as autobiography poetry theater film fiction and visual art to provide a cohesive analysis of the representation of trauma In addition to the survivors expression of trauma the witnesses and receivers are also taken into account By gathering studies that explore diverse bodily and psychological traumas through tropes such as repetition silence and working through it tackles ethical responsibility and interrogates how expressive forms evoke a terrible reality through the use of imagination The aim of this volume is not to question if suffering is representable but rather to examine to what extent art surpasses its own limitations and goes straight to its essence The Unspeakable hopes to provide models for the cultural translation of trauma because when represented and released from silence and isolation trauma can give way to the arduous process of healing

Florida may be one of the best places to discuss the subject of creation and re creation of entertainment the city lives under the shadow of Disney corporation whose most celebrated re creations are based on French texts from the 17th century French literature and in particular Perraults fairy tales From this perspective whether we speak of reworks behind a princes castle a morality tale to entertain children and parents alike or even a theatrical representation that seems to appear from magic the three hundred years that separate Orlando and Versailles seem to disappear the parallels between the 17th and 21st centuries are founded on the same drive to enliven and enlighten ones world

**Directory to Canadian Studies ,1980**      **Xenophon's Ephesiaca** Aldo Tagliabue,2017-10-31 After many decades of neglect the last forty years have seen a renewed scholarly appreciation of the literary value of the Greek novel Within this

renaissance of interest four monographs have been published to date which focus on individual novels I refer to the specialist studies of Achilles Tatius by Morales and Laplace and those of Chariton of Aphrodisias by Smith and Tilg This book adds to this short list and takes as its singular focus Xenophon s Ephesiaca Among the five fully extant Greek novels the Ephesiaca occupies the position of being an anomaly since scholars have conventionally considered it to be either a poorly written text or an epitome of a more sophisticated lost original This monograph challenges this view by arguing that the author of the Ephesiaca is a competent writer in artistic control of his text insofar as his work has a coherent and emplotted focus on the protagonists progression in love and also includes references to earlier texts of the classical canon not least Homer s Odyssey and the Platonic dialogues on Love At the same time the Ephesiaca exhibits stylistically an overall simplicity contains many repetitions and engages with other texts via a thematic rather than a pointed type of intertextuality these and other features make this text different from the other extant Greek novels This book explains this difference with the help of Cou gnas view of paraliterature a term that refers not to its status as non literature but rather to literature of a different kind that is simple action oriented and entertaining By offering a definition of the Ephesiaca as a paraliterary narrative this monograph sheds new light on this novel and its position within the Greek novelistic corpus whilst also offering a more nuanced understanding of intertextuality and paraliterature
