Teaching and Learning Japanese Martial Arts Vol. 1: Scholarly Perspectives Michael DeMarco, 2017-03-05 In contrast to the overabundance of writings about martial arts that are often promotional and misinformative, there are rare works by scholars that are praiseworthy for their sincere unbiased approach to writing. This is the very definition of scholarly. This two-volume anthology brings together the best scholarly works published in the *Journal of Asian Martial Arts* on the topic of teaching and learning Japanese martial arts. In this volume, you will find ten chapters that dive deep into Japanese martial traditions, combining aspects of history and culture that explain how teaching methods developed and evolved. Dr. Harrison Pepper's chapter sets the tone with a focus on the fundamental student-teacher relationship that is responsible for the transmission of any art. She uses sociological and performance studies to analyze the martial art's maturing process. Understanding the teacher-student relationship is vital for all involved Japanese combative arts. Since Japan was ruled by a warrior class for nearly 700 years, it is necessary to understand the method by which warriors were educated through the *ryuha* system. Nyle Monday's chapter presents this system. Dr. Lewis Hershey explores the way in which a martial art can serve as a vehicle for non-discursive intercultural exchange in the teaching process. His chapter provides a discussion of the importance of embodying the feeling or aesthetic of a particular system as a way of knowing and understanding martial techniques. The next three chapters were originally prepared for a meeting of the Association for Asian Studies. Dr. Paul Varley states that most who have written about martial arts practice are not trained scholars and their writings vary greatly in quality. He discusses the state of writing in this field and introduces the other authors. Dr. Cameron Hurst discusses the characteristics of the martial arts that place them squarely into the category of artistic ways, along with such familiar arts as *Noh*, the tea ceremony, and flower arranging. This reflects the family headship system of instruction to carry on the school's traditions. Dr. Karl Friday defines the term *ryuha* as a branch of the current, representing the onward flow of a stream of thought; the branches betoken the splitting off that occurs as insights are passed from master to students, generation after generation. His chapter shows how *ryuha* exist to hand on knowledge, with pattern practice (*kata*) being the core of transmission. Is it warrior's individualism that is prized in modern, conformity-ridden Japanese culture, or is this an erroneous interpretation of the idealized warrior image by Westerners? In the next chapter, Dr. Wayne VanHorne's research is persuasive, showing that the ultimate goal of the training is to foster individuals to contribute to the betterment of the collective society with social responsibility. In the following chapter, Dr. John Donohue analyzes the organizational components of traditional martial arts training and relates them to modern pedagogical theories. He concludes that the instructional theory embedded in martial arts training is at least as sophisticated and highly developed as are the techniques and philosophies of these systems. In the next chapter, he examines *kata* training as 1 a cultural activity that has been shaped by the structural characteristics of Japanese culture and *kata* training as 2 a highly

structured and effective mechanism for imparting technical skill in the martial arts Kim Taylor provides the final chapter dealing with progressive instruction found in many kata based martial arts Using iaido sword drawing as an example he demonstrates how a set of practice can build one kata after the other from simple to more complex ideas and provide a deeper understanding of the entire set If you are interested in Japanese martial traditions you will find much in these ten chapters that clarify why the arts are taught according to a longstanding tradition and also why there have been evolutionary changes in the instructional methods There is sound logic for the old traditions as well as for the changes The scholarly research presented in this anthology will improve a teacher s way of instructing and help a student understand what to expect out of his or her studies

Biblical Prosperity and Success: Ruminator Style Rodney Lewis

Boyd,2023-05-30 Let s face it the whole subject of Biblical Prosperity and Success is pretty controversial While there is nothing inherently wrong with having money or possessions it is certainly true that the love of money is a root of all kinds of evil Having great fame and possessions is not always a sign of God s favor just as having few possessions is not necessarily a sign of God s judgement The Book of Hebrews includes a chapter often referred to as The Hall of Faith a list of people who have gone before us who by faith gained the approval and approbation of God By faith Abel brought God a better offering than Cain Enoch was taken from this life so that he did not experience death Noah built an ark to save his family and others conquered kingdoms administered justice shut the mouths of lions quenched the fury of the flames escaped the edge of the sword became powerful in battle and received back their dead raised to life again Yet other equally faithful servants of God were tortured for their faith faced jeers and flogging chains and imprisonment were put to death by stoning were sawed in two or killed by the sword They were destitute persecuted and mistreated the world was not worthy of them Biblical success can be defined as accomplishing the purposes of God in our lives Biblical prosperity can be viewed as having enough to meet our needs and an overflow to help meet the needs of others In a world of socialism communism capitalism and every other kind of ism the question is not what you have but what are you going to do with it

Children's Writer's & Illustrator's Market ,2002 **Filipino Martial Art Anthology** Michael DeMarco, MA., et al.,2017-02-13 There has been a lack of reliable academic studies regarding Filipino martial arts FMA that have uniquely developed in the Philippine archipelago This anthology assembles pioneering scholarly materials valuable for any interested in the Filipino combatives as well as chapters specifically on the practice Mark Wiley stands out as a leading scholar practitioner of the Filipino arts This book contains three chapters by him In the first he conducted linguistic and historical research to present the developmental background of the ancient Filipino kali and European fencing systems thus illuminating the evolution of classical eskrima In chapter two Wiley attempts to classify Filipino martial arts and explore the ethos of Filipino martial culture by deriving information directly from the contemporary grandmasters who have maintained an oral transmission of information concerning the evolution and development of their respective martial systems Part of Wiley s research also led him to seek out special repositories of artifacts Museums collections rarely include much on Southeast Asian weapons University of Pennsylvania Museum of Archaeology and Anthropology has nearly 1 000 martial artifacts in storerooms from the Philippines including swords knives spears shields helmets and armor discussed in Wiley s third chapter On a practical side Steven Dowd presents the art of Carlita La ada who studied martial arts as passed down within his own family in the Philippines He calls his rendition Kuntaw Lima Lima an art whose techniques are reminiscent of Okinawan karate styles with hints of Chinese gongfu Presented are the underlying principles and a sayawan form with applications Majia Soderholm s chapter is about Visayan Corto Kadena Eskrima and some of its concepts and training methods with regard to free sparring with swords It is a Filipino martial system encompassing empty hand and non bladed and bladed weapons Peter Hobart presents a wonderful
