between official myths about dealing with the past and the fact that the vast majority of Nazi perpetrators were never held accountable In the successor states to the Third Reich East Germany West Germany and Austria prosecution varied widely and selective justice was combined with the reintegration of former Nazis Meanwhile those who had lived through this period as well as their children the second generation continued to face the legacies of Nazism in the private sphere in ways often at odds with those of public remembrance and memorials By following the various phases of trials and testimonies from those immediately after the war through succeeding decades and up to the present Reckonings illuminates the shifting accounts by which both perpetrators and survivors have assessed the significance of this past for subsequent generations and calibrates anew the scales of justice **New York Magazine** ,1987-05-11 New York magazine was born in 1968 after a run as an

The Age of Violence Alain Bertho,2018-10-02 Exploring the fury of the

young in a world or crisis that seems to offer no alternatives Only martyrs know neither pity nor fear Believe me the day when the martyrs are victorious will be the day of universal conflagration Jacques Lacan made this gloomy prophesy back in 1959 but doesn't it also apply to our own time Faced with a rise in attacks around the world can we really just blame the radicalization of Islam What hope is there for the alienated youth as the wars that have ravaged the Middle East spill out across the globe For Alain Bertho the mounting chaos we see today is above all driven by the weakening of states legitimacy under the pressure of globalization Add to this the hypocrisy of the elites who beat the drum of security measures even as they sow the seeds of violence around the world This disorder is the swamp of despair which can only produce fresh atrocities Today's youth are the lost children of neoliberal globalization the inheritors of the political and human chaos it produces When they find it easier to imagine the end of the world than the end of capitalism their revolt tends to take the paths of martyrdom and despair The closing of the revolutionary hypothesis allows only fury The answer Bertho argues is a new radicalism able to inspire a collective hope in the future
