humanities and the craft of poetry writing Andrews tells a bold story about some of today's most innovative literary works This pathbreaking intervention into contemporary American literature and higher education demonstrates that experimental poetry not only reflects nuanced concern about creative writing as a discipline but also uses the critical techniques of scholarship as a cornerstone of poetic practice Structured around the concepts of academic labor such as teaching and methodological work such as theorizing the book traces these practices in the works of authors ranging from Claudia Rankine to John Ashbery providing fresh readings of some of our era's most celebrated and difficult poets

Repeating Revolutions Timothy Scott Johnson, 2025-01-16 Repeating Revolutions examines how activists intellectuals social scientists and historians looked to France's Revolutionary past to negotiate Algeria

s struggle for decolonization from the 1930s to the 1960s The French Empire justified their claims over Algeria in part through messages of universal progress marked by the political visions tied to the French Revolution Supporters of Algerian independence confronted those historical claims by identifying the Algerian cause with the French Revolution and by highlighting the apparent contradictions between the history of 1789 and imperial rule Far right activists meanwhile saw the movement to decolonize Algeria as another manifestation of the revolutionary disorder stemming from the French Revolution Behind these analogies lay broader changes in the study of North African society and contemporary political relevance of the French Revolution The focus on analogies to the French Revolution puts different sets of actors in conversation with one another and offers a fresh take on how people s experiences and expectations changed throughout the Algerian War This book will appeal to readers interested in the intellectual history of decolonization the historiography of the French Revolution the historiography of North African studies and questions of historical comparison and conceptual change The introduction of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
