**Queer Sinophone Cultures** Howard Chiang, Ari Larissa Heinrich, 2013-11-26 The Sinophone framework emphasises the diversity of Chinese speaking communities and cultures and seeks to move beyond a binary model of China and the West Indeed this strikingly resembles attempts within the queer studies movement to challenge the dimorphisms of sex and gender Bringing together two areas of study that tend to be marginalised within their home disciplines Queer Sinophone Cultures innovatively advances both Sinophone studies and queer studies It not only examines film and literature from Mainland China but expands its scope to encompass the underrepresented Sinophone world at large in this case Taiwan Hong Kong Malaysia

Singapore and beyond Further where queer studies in the U S Europe and Australia often ignore non Western cultural phenomena this book focuses squarely on Sinophone queerness providing fresh critical analyses of a range of topics from works by the famous director Tsai Ming Liang to the history of same sex soft core pornography made by the renowned Shaw Brothers Studios By instigating a dialogue between Sinophone studies and queer studies this book will have broad appeal to students and scholars of modern and contemporary China studies particularly to those interested in film literature media and performance It will also be of great interest to those interested in queer studies more broadly

**Spoken Language Processing** Qiang Huo, Bin Ma, Eng-Siong Chng, Haizhou Li, 2006-11-30 This book constitutes the thoroughly refereed proceedings of the 5th International Symposium on Chinese Spoken Language Processing ISCSLP 2006 held in Singapore in December 2006 co located with ICCPOL 2006 the 21st International Conference on Computer Processing of Oriental Languages Coverage includes speech science acoustic modeling for automatic speech recognition speech data mining and machine translation of speech     A Study of the Emergence and Early Development of Selected Protestant Chinese Churches in the Philippines Jean Uy Uayan, 2017-06-30 Dr Jean Uayan comprehensively weaves the story of six Protestant Chinese churches in the Philippines into the local history of their individual settings in this important study Uncovering new insight and historical information from extensive primary and secondary sources Uayan presents a rich and previously unacknowledged heritage and support from four American mission organisations during the US occupation from 1898 1946 The seeds sown amongst Chinese communities across the Philippines resulted in indigenous churches that took differing journeys to full independence and now are also bearing fruit in missionary activity in South Fujian China This book is an important contribution towards a global church history acknowledging the work of the Holy Spirit establishing and building up the church of Jesus Christ among the nations     曹天, 2005     *China, Inc* Ted C. Fishman, 2005 What will happen when China can make nearly everything the U S and Europe can make at one third the cost Fishman delves into dangerous question that not everyone wants answered     **Enterprises, Industry and Innovation in the People's Republic of China** Alberto Gabriele, 2020-04-06 This book analyses and critically evaluates the development of two key components of China's economy the network of productive enterprises and the national innovation system from the inception of market oriented reforms to the present day The approach is a partly novel one albeit inspired to classical political economy rooted in the structure and evolution of social relations of production and exchange and of the institutional setting in these two crucial domains The main findings are twofold First the role of planning and public ownership far from withering has being upheld and qualitatively enhanced especially throughout the most recent stages of industrial reforms Second enterprises are increasingly participating along with universities and research centers in a concerted and historically unparalleled effort to dramatically upgrade China's capacity to engage in indigenous innovation As a result China's National Innovation System has been growing and strengthening at a pace much faster than that of the national economy as a whole The book also presents a speculative and provisional perspective on the validity and meaning of the claim that the country's socioeconomic system is indeed a form of socialism with Chinese characteristics It will be of interest to students and scholars researching China politics and development economics     *Demystifying China's Economy Development* Fang Cai, 2015-06-02 This book explains why China's opening up policy can boost the rapid growth of its economy Based on concrete facts and economic logic it offers a brief introduction to the history of China's successful development which has unprecedentedly helped improve people's lives and community welfare over the past 30 years In light of the newly emerging problems the author

assesses the different stages of China's economic development and new challenges illustrating how the country's sustainable growth could be achieved through further reforms so as to complete the transition from a middle income to high income country. He moves on to discuss the lessons learned from China's experiences and summarizes their significance for other developing countries while also clarifying popular misconceptions such as the China Menace and Theory of China's Collapse. Taking the logic of economic development as a basis and employing economic norm analysis methods, the book describes China's economic miracle in plain but vivid language and attempts to enrich the economic development theory through China's experience.

A Bitter Revolution Rana Mitter, 2004-07 China is now poised to take a key role on the world stage but in the early twentieth century the situation could not have been more different. Rana Mitter goes back to this pivotal moment in Chinese history to uncover the origins of the painful transition from a premodern past into a modern world. Mitter takes us through the resulting social turmoil and political promise, the devastating war against Japan in the 1940s, Communism and the Cultural Revolution of the 1960s, and the new era of hope in the 1980s ended by the Tiananmen uprising. He reveals the impetus behind the dramatic changes in Chinese culture and politics as being China's New Culture, a strain of thought which celebrated youth, individualism, and the heady mixture of strange and seductive new cultures from places as far apart as America, India, and Japan. China is now poised to take a key role on the world stage but in the early twentieth century the situation could not have been more different. Rana Mitter goes back to this pivotal moment in Chinese history to uncover the origins of the painful transition from a premodern past into a modern world. By the 1920s, the seemingly civilized world shaped over the last two thousand years by the legacy of the great philosopher Confucius was falling apart in the face of western imperialism and internal warfare. Chinese cities still bore the imprints of its ancient past with narrow lanes and temples to long worshipped gods, but these were starting to change with the influx of foreign traders, teachers, and missionaries, all eager to shape China's ancient past into a modern present. Mitter takes us through the resulting social turmoil and political promise, the devastating war against Japan in the 1940s, Communism and the Cultural Revolution of the 1960s, and the new era of hope in the 1980s ended by the Tiananmen uprising. He reveals the impetus behind the dramatic changes in Chinese culture and politics as being China's New Culture, a strain of thought which celebrated youth, individualism, and the heady mixture of strange and seductive new cultures from places as far apart as America, India, and Japan. An impressive and inventively researched book. Jonathan Fenby, FT Magazine.

**Touring China** Yajun Mo, 2021-12-15 In *Touring China*, Yajun Mo explores how early twentieth century Chinese sightseers described the destinations that they visited and how their travel accounts gave Chinese readers a means to imagine their vast country. The roots of China's tourism market stretch back over a hundred years when railroad and steamship networks expanded into the coastal regions. Tourism-related businesses and publications flourished in urban centers while scientific exploration, investigative journalism, and wartime travel propelled many Chinese from the eastern seaboard to its peripheries. Mo considers not only accounts of

overseas travel and voyages across borderlands but also trips within China On the one hand via travel and travel writing the unity of China's coastal regions inland provinces and western frontiers was experienced and reinforced On the other travel literature revealed a persistent tension between the aspiration for national unity and the anxiety that China might fall apart Touring China tells a fascinating story about the physical and intellectual routes people took on various journeys against the backdrop of the transition from Chinese empire to nation state

**Digital Media and Risk Culture in China's Financial Markets** Zhifei Mao, 2019-01-15 This book analyzes the risk cultures in China that have emerged from the entanglement of new communication technologies and financial markets examining the role that digital media play in Asian modernity and offering an alternative narrative to that of the West The book illustrates the impact of exclusively Chinese digital media on power dynamics within risk definition arguing that information and communication technologies ICTs empower individuals enabling them to compete with an expert oriented risk culture controlled by Government and banker led media outlets With struggles competitions compromises and confrontations major communicators in financial world are collectively producing risk cultures based on interpersonal relations instead of contractual obligations in which insider information is valued over professional analysis Meanwhile investors are trapped in a risk culture paradox that they themselves have produced as they attempt to take advantage of other actors uncertainties and eventually produce risks for the entire market
