**Thresholds: Rethinking Spirituality Through Music** Marcel Cobussen, 2017-07-05 In Thresholds Marcel Cobussen rethinks the relationship between music and spirituality The point of departure is the current movement within contemporary classical music known as New Spiritual Music with as its main representatives Arvo P John Tavener and Giya Kancheli In almost all respects the musical principles of the new spiritual music seem to be diametrically opposed to those of modernism repetition and rest versus development and progress tradition and familiarity versus innovation and experiment communication versus individualism and conceptualism tonality versus atonality and so on As such this movement is often considered as part of the much larger complex called postmodernism Joining in with ideas on spirituality as presented by Michel de Certeau and Mark C Taylor Cobussen deconstructs the classification of the spiritual dimensions of music as described above Thresholds presents an idea of spirituality in and through music that counters strategies of exclusion and mastering of alterity and

connects it to wandering erring and roving Using the philosophy of Martin Heidegger Georges Bataille Jean Fran s Lyotard Jacques Derrida and others and analysing the music of John Coltrane the mythical Sirens Arvo P and The Eagles to mention a few Cobussen regards spirituality as a non concept that escapes categorization classification and linguistic descriptions Spirituality is a topological non discursive and a manifestation of otherness And it is precisely music or better listening to music that induces these thoughts by carefully encountering analysing and evaluating certain examples from classical jazz pop and world music it is possible to detach spirituality from concepts of otherworldliness and transcendentalism Thresholds opens a space in which spirituality can be connected to music that is not commonly considered in this light thereby enriching the ways of approaching and discussing music In orde Politics of Recognition and Representation in Indian Stand-Up Comedy Richa Chilana,Rashi Bhargava,2024-05-31 This book first of its kind in the Indian context brings together both a theoretical understanding of various aspects of the humour aesthetics and politics of stand up comedy and case studies of various forms of stand up comedy in India This volume is interdisciplinary wherein the contributors raise pertinent issues about the role of stand up comedy in India in contemporary times With an increased presence of OTT platforms and internet penetration that allows for easy access to this art form stand up comedy in India cannot be ignored anymore The book includes chapters on Indian stand up comedy related to the themes of interrogating the term Indian stand up comedy historical lineage of stand up in India the politics of language and laughter charged humour vs safe profitable comedy stand up comics as parrhesiastes performance of the self and comic personas comedy and other forms of artistic expression laughter clubs urbanism and stand up comedy surveillance censorship and trolling the economy of production and consumption of stand up comedy and the silences and limitations in the contemporary form of stand up in India **Poems from Heartlands** Dr. C. A. Buckley,2021-01-18 This second book of poems by Dr C A Buckley has been five years in the making but comes from a lifetime of dedicated writing of poetry His first collection The Last Irish Romantic was launch by Gabriel Fitzmourice the noted Irish poet in John B Keane s pub at the Listowel Literary Festival of 2015 He described the collection as a striking series of works reminiscent of T S Eliot and Michael Hartnett The book was also praised by the legendary poet and publisher Pat Boran of the Dedulous Press as a truly distinctive debut volume The prize winning modern British poet Bernard O Donoghue was more fulsome is describing it as brilliant For those who have been patiently waiting for a sequel here is an even finer more mature and more varied follow up volume **Devastation and Laughter** Annie G rin,2018-01-01 In Devastation and Laughter Annie G rin explores the use of satire in the visual arts the circus theatre and cinema under Lenin and Stalin G rin traces the rise and decline of the genre and argues that the use of satire in official Soviet art and propaganda was neither marginal nor un theorized The author sheds light on the theoretical texts written in the 1920s and 1930s by Anatoly Lunacharsky the Soviet Commissar of Enlightenment and the impact his writings had on satirists While the Avant Garde and Socialist Realism were necessarily forward looking and utopian satire afforded artists the

means to examine critically past and present subjects themes and practice Devastation and Laughter is the first work to bring Soviet theoretical writings on the use of satire to the attention of scholars outside of Russia By introducing important bodies of work that have largely been overlooked in the fields of art history film and theatre history Annie G rin provides a nuanced and alternative reading of early Soviet art **Gangri Langtso (The college journal) 2018**

**[Men-Tsee-Khang-འཇམ་དབྱངས་མཆོག་]** English Editorial Board,2018-03-23 A Note from the Editor s Desk Dear fellow students It is a matter of immense joy for us to be able to bring out the XXIVth issue of our annual academic journal Gangri Langtso Gangri Langtso is a vitally important bilingual academic platform of our college for free and open intellectual discussions on various topics pertaining to Tibetan medicine Tibetan Astro Science and many other subjects It is also a common platform where we all can share our ideas thoughts dreams and memories in the form of any creative writings As English editors of this esteemed magazine we learned a lot of things from the experience and at the same time had quite a delightful and memorable year 2018 We hope the very same for you all the most respected teachers staffs and fellow students It was a privilege for us to go through your diligently written articles translations and poetry all of which are highly admirable and truly deserving much more appreciation We have published every single article that was submitted to us as we genuinely consider that even one paragraph written on one s own is so much worthwhile The benefits of writing essays or analytical articles are so much more than we know It is believed to be the best method of learning in not only remembering the textual information but also to stimulate our brain for critical and logical thinking which His Holiness the Dalai Lama always gives emphasis to Why writing is the best method of learning This is because we can write something on our own language if and only if we are convinced of the facts and we do not get convinced of facts by memorizations through repetition but by reasoning through analysis and logic Questions may be asked such as it will be very difficult to cultivate those qualities mentioned above anyway so why those skills and qualities are absolutely essential for us as future doctors and TAsPs Our profession is deeply connected to wellbeing of other people having direct impacts on their lives Unlike western doctors who rely on many laboratory tests and machines our diagnoses and course of treatments have to be mainly based on our own critical thinking experience and intelligence Hence we must try to develop these skills as early as possible Even a slight fault in the diagnosis of a patient can cause loss of trust in our medical system Such is the magnitude of our responsibility Moreover if we allow ourselves to think in the lines of secure job from Men tsee khang and no need to bother beyond that I am surely not the right person to point out these facts but every single theory of education modern or traditional scholars and research on education policy says learning or educating for job and future security is wrong We blame modern education and modern medical practitioners with bombastic words like commercialized and no ethics but first even as students we absolutely need to search within ourselves to make sure we are free from such blames How does human brain works as far as learning is concerned Exams are a necessity that we cannot do away with in today s world but studying for exams alone does

not guarantee knowledge and skills that are needed in real life This is a challenge that every educators and students face today When we study only for an exam our brain naturally cannot commit those chunks of information into permanent memory because sub consciously we wanted our brain only to retrieve those pieces of information in few weeks during the exam So majority of people cannot retain 70 80% of the information one month after the exam if it was not revised regularly I would be more than glad if someone proved me that I am wrong However once we write an investigative article or a short piece on a certain topic in our own words we don t forget about it plus we gain additional perspectives on the topic In my humble opinion it is in our own advantage to study for life beyond exams As a fellow student I am optimistic that what I say here will be taken in a positive spirit We are living in an interesting time when the world is making leaps and bounds in the field of health science The diseases that were not curable before few decades are cured easily and preventive medicines even nullify the possibility of many diseases The research in stem cells and biotechnology is developing in such a rate that now doctors are taking steps in detecting the possibility of certain diseases in one s life through genetic information and correcting those faulty genes even before birth The scientists doctors and researchers spend their lifetimes solely for such breakthroughs needless to mention the billions of dollars spent In such a rapidly changing time we as Sowa Rigpa students all want to become great future healthcare providers This is undisputedly a great aspiration and even a noble one However just noble thoughts and flowery words will mean nothing if it is not translated into concrete action and obtained results While maintaining the integrity of our medical system if we as Sowa Rigpa practitioners were not able to keep up with the time our goal of providing people the best possible health service may not be materialized To highlight some of the things that happened in 2018 pertaining to Sowa Rigpa In July American chemistry society USA published a paper claiming the mercury level in Tibetan medicine is causing an environmental hazard in Tibet and China Unbiased analysts believe that it is nothing but another sham that Chinese government enacted because ACS clearly acknowledged that the funds came from the Chinese government and they merely published the paper on its website Since China cannot possibly deny the destruction and havoc brought on the third pole of the world for economic gains in an effort to mislead the world and wash their hands off they tried to blame the destruction of Tibetan environment to Tibetan medicine In the article itself it does not talk about the thorough process that is strictly followed to detoxify or tame it before using it in Tibetan medicines In another drama they added the medicinal bath therapy of Lum in UNESCO list as world intangible cultural heritage They on one hand want Sowa Rigpa to take the blames of environmental destruction and on the other hand want to claim full patent rights on Sowa Rigpa as China s intellectual property What more is unreasonable than this What can we do in the wake of such developments Last but not the least I would like to say thank you all who contributed your writings for this very important platform Such journals are crucial part of educational curriculum Particularly in the traditional system of education three things are deemed indispensable namely lecture debate and composition Each one of them is equally important for a holistic

quality education We believe publishing this journal is serving as a small part in fulfilling the requirements of composition In fact I don t need to emphasize more on the importance of learning through composition because Yuthok Yonten Gombo himself clearly stated in Gyueshi that the foundation to become a great physician is to excel in reading and composition in the 31st chapter of explanatory tantra Finally we thank Dr Namdol Lhamo la for proofreading the articles and sharing her insights with us We also thank you all very much for giving us this opportunity to serve as the English editor of this journal Our very limited experience and lack of proper knowledge in English language were the greatest obstacles to work in our best abilities Even so we are very happy to put our best efforts in this endeavor for we consider it an honor to have your trust and support May the merits of our collective efforts bear the fruits soon to free sentient beings from suffering We wish you all a very happy and meaningful academic year 2019 Yours Sincerely Thupten Palden
