Facility Management Technology Lessons From The U S And Japan:

Facility Management Technology Eric Teicholz, Takehiko Ikeda, 1995-03-02 The past few years have seen the emergence of a number of powerful new technologies specifically designed to help facility managers do their jobs Unfortunately a number of political technical and procedural impediments have resulted in the majority of computer aided facility management CAFM systems ending up as shelfware sitting on the shelves of well intentioned users Written by two leading international experts in the field of applying information technology to facility management this book provides facility managers with the detailed hands on guidance required for successfully supporting CAFM systems Technical and procedural topics focused on within the book include strategic technology planning cost benefit analysis CAFM system functionality implementation planning and technology trends In Part I of *Facility Management Technology* the authors draw on their experiences as information system consultants to identify major issues and successful strategies associated with planning implementing and managing facility management technology Issues addressed deal not only with CAFM itself but also with the processes and procedures required for minimizing the risks of technology and successfully implementing systems in the shortest possible time frame Part 2 is devoted entirely to real life case histories from a number of North American and Japanese corporations and government organizations including SONY Aetna Siemens the Bank of Boston Long Term Credit Bank of Japan Pioneer Hi Bred Florida Hospital and the City of Toronto Selected for their relevance to specific aspects of CAFM each study describes how a particular organization dealt with one or more crucial problems associated with the successful deployment of CAFM technology addressing both day to day operations and importantly the larger organizational context *Facility Management Technology* is the only truly comprehensive text on the subject With the wealth of practical advice from Teicholz and Ikeda and its case study orientation this book will be an important resource for facility and real estate managers IS professionals facility management and design consultants and students The only totally practical case study based guide to using automation in facility management **FACILITY MANAGEMENT TECHNOLOGY Lessons from the U S and Japan** From performing strategic facility technology planning to a cost benefit analysis from selecting and managing CAFM systems for your organization to integrating CAFM systems with other types of corporate computing systems this book offers detailed hands on guidance to virtually every aspect of facility management technology Written by two leading international experts in the field it analyzes and contrasts how facility management technology is now being used in North America and Japan and describes successful strategies companies have evolved for incorporating CAFM into their day to day operations I strongly believe that the clear analysis of facility management technologies and the unique lessons to be learned from each case study in the book will help facility managers establish their own total systems concept Yoshiro Koyama Facility Manager SONY The authors have provided a contemporary accurate and insightful view of the application of CAFM into the American and Japanese corporate environment The icing on the cake is the generic and real world case studies that

provide much needed realism to CAFM Readers should come away enthused by their increased understanding and feeling secure that others have blazed the trail ahead of them John A Paccione AIA Director of Design Florida Hospital The authors insights into past present and future facility management trends as well as the clear and practical examples shown in this book will surely contribute to the development of facility management and CAFM in both the U S and Japan Dr Shigeyuki Yamaguchi Department of Architecture and Design Kyoto Institute of Technology
