P. Moloney, Michael Stuart Williams, 2017-02-03 Warfare has long been central to a proper understanding of ancient Greece and Rome worlds where war was as the philosopher Heraclitus observed both king and father of all More recently however the understanding of Classical antiquity solely in such terms has been challenged it is recognised that while war was pervasive and a key concern in the narratives of ancient historians a concomitant desire for peace was also constant This volume places peace in the prime position as a panel of scholars stresses the importance of peace as a positive concept in the ancient world and not just the absence of or necessarily even related to war and considers examples of conflict resolution conciliation and concession from Homer to Augustine Comparing and contrasting theories and practice across different periods and regions

this collection highlights first the open and dynamic nature of peace and then seeks to review a wide variety of initiatives from across the Classical world

A Naval History of the Peloponnesian War Marc G. de Santis, 2017-04-30 Naval power played a vital role in the Peloponnesian War The conflict pitted Athens against a powerful coalition including the preeminent land power of the day Sparta Only Athens superior fleet her wooden walls by protecting her vital supply routes allowed her to survive It also allowed the strategic freedom of movement to strike back where she chose most famously at Sphacteria where a Spartan force was cut off and forced to surrender Athens initial tactical superiority was demonstrated at the Battle of Chalcis where her ships literally ran rings round the opposition but this gap closed as her enemies adapted The great amphibious expedition to Sicily was a watershed a strategic blunder compounded by tactical errors which brought defeat and irreplaceable losses Although Athens continued to win victories at sea at Arginusae for example her naval strength had been severely weakened while the Spartans built up their fleets with Persian subsidies It was another naval defeat at Aegispotomi 405 BC that finally sealed Athens fate Marc De Santis narrates these stirring events while analyzing the technical tactical and strategic aspects of the war at sea

Korea's Foreign Policy Dilemmas Sung-Hack Kang, 2010-12-13 Koreans historically consider their country as a victim of foreign powers sometimes seeing themselves as a shrimp among whales In fact Korea's national status has to a great extent been determined by the historical rivalries between the great powers This collection of essays produced over time by one of Korea's leading political scientists probes many of the fundamental post Korean War issues South Korea has wrestled with in the context of its foreign policy positions not least the question of how it actually defines its foreign policy its relationship with the United States and the ever present security issues Other essays examine the role of the US on the Korean peninsula after the end of the Cold War what policy directions South Korea should take towards North Korea what is North Korea's security policy and what are the conditions for reunification This thought provoking volume provides a valuable overarching framework towards a more

informed understanding of how South Korea's relationship with the outside world has evolved in the twentieth century and the manner in which it is likely to do business in the twenty first **Urban Art and the City** Argyro Loukaki, 2020-09-13

This book offers original interdisciplinary insights into cities as a diachronic creation of urban art. It engages in a sequence of historical perspectives to examine urban space as an object of apparent quasi cycles and processes of constitution, exaltation, imitation, contestation and redemption through art. Urban art transforms the city into a human made sublime which is explored in the context of the Eastern Mediterranean. The book probes this process primarily through the example of Athens and Byzantine Constantinople but also Jerusalem, Cyprus and regional cities, revealing how urban space unavoidably encompasses a spatial and temporal palimpsest which is constantly emerging. It presents new ideas for both the theorization and sensuous conception of artistic reality, architecture and planning attributes. These extend from archaic classical and Byzantine urban splendour to current urban decline as constitution and attack on the sublime and back. Urban processes of contestation and redemption respond recently to the new imperialism of debt and the positivist technocratic understandings and demands of Euro governments and neoliberal institutions while still evoking older forms of spatial power. Offering fresh notions on art, architecture, space, antiquity, post modernity and politics of the region, this book will appeal to scholars and students of geography, urban studies, art restoration and film theory, architecture, landscape design, planning, anthropology, sociology and history. Philip and Alexander Adrian Goldsworthy, 2020-10-13

This definitive biography of one of history's most influential father-son duos tells the story of two rulers who gripped the world and their rise and fall from power. Alexander the Great's conquests staggered the world. He led his army across thousands of miles, overthrowing the greatest empires of his time and building a new one in their place. He claimed to be the son of a god but he was actually the son of Philip II of Macedon. Philip inherited a minor kingdom that was on the verge of dismemberment but despite his youth and inexperience he made Macedonia dominant throughout Greece. It was Philip who created the armies that Alexander led into war against Persia. In Philip and Alexander, classical historian Adrian Goldsworthy shows that without the work and influence of his father, Alexander could not have achieved so much. This is the groundbreaking biography of two men who together conquered the world.
