Traumatised Witnesses in International Criminal Trials Suzanne Schot, 2024-02-13 This book focuses on the testimonial evidence of traumatised witnesses in trials of international crimes which deal with acts of genocide war crimes and crimes against humanity Such trials often involve the testimonies of those who experienced or witnessed extremely traumatic events which can make it hard for these witnesses to recall specific details Testifying during trial may in itself also pose challenges to their well being Yet the legal process of determining whether someone can be held criminally responsible for the alleged crimes needs to be fair in accordance with the right to a fair trial of the accused and the facts need to be determined as accurately as possible This book argues that to ensure fair and accurate fact finding when in particular traumatised witnesses testify a balance needs to be struck between the needs of witnesses who testify about traumatic experiences the fair trial rights of the accused and the objective of the court to establish as accurately as possible the responsibility of the accused This is crucial throughout the stages of selecting preparing presenting and assessing the testimonial evidence of traumatised witnesses The methodology involves an analysis of transcripts of proceedings and case law of the International Criminal Tribunal for the former Yugoslavia the International Criminal Court and Dutch courts prosecuting international crimes The research demonstrates that it is often difficult to strike a balance between the competing objectives during proceedings when traumatised witnesses testify due to the current lack of regulations and guidelines applicable during investigations and prosecutions This book shows that this balance can and should be achieved when traumatised witnesses testify during criminal proceedings for international crimes The work is an invaluable resource for researchers academics and practitioners in criminal law criminology legal psychology legal psychiatry social anthropology and forensic sciences
