**Democratization** Richard Gillespie,Lourdes Lopez Nieto,Michael Waller,2013-09-13 This book addresses the nature of factionalism in parties that are created or rebuilt after a period of dictatorship It maintains that while party leaders often view factions in negative terms as divisive factional behaviour can also be constructive The volume brings together detailed case studies from post authoritarian Spain Greece and Portugal from Turkey where factionalism has hampered democratization and from the post communist states in Eastern Europe Dominant Political Parties and Democracy

Matthijs Bogaards,Françoise Boucek,2010-06-10 This book examines dominant parties in both established democracies and new democracies and explores the relationship between dominant parties and the democratic process Combining theoretical and empirical research and bringing together leading experts in the field it features case studies on Japan Canada Germany Mexico Italy France and South Africa Out of the Shadow of 1997? Hsin-chi Kuan,2002 Hong Kong s Legislative Council Elections have been riddled with difficulties The first partial elections introduced in 1991 were tainted by the traumatic memories of the events of June 4 1989 The elections of 1995 bore the marks of the bitter Sino British controversies over Hong Kong s political reforms As a result of the derailed through train the first general election after the change of sovereignty to China in 1997 produced a two year successor to the Provisional Legislative Council which in turn was troubled by the Asian Financial Crisis In light of this the elections held in September 2000 offered Hong Kong a new lease on life A full four year term legislature was thus elected under conditions that were relatively free from the issues that characterized 1997 uncertainties over the political future of Hong Kong the attendant anxieties of the Hong Kong people and the tortuous struggle over reform initiatives among the political powers This book draws on a wide range of local and overseas expertise to provide an in depth study of the various aspects of the 2000 Legislative Council elections in Hong Kong These aspects include the basic conditions under which the elections took place the role of labor the District Councilors and media reporting the decisive effect of the proportional representation system factionalism in the Democratic Party voting propensity and the issues of identity campaign finance democratization and the degree of political participation *Special Issue:*

*Factional Politics and Democratization* Richard Gillespie,1995 Twenty Years of Studying Democratization Aurel Croissant,Jeffrey Haynes,2016-01-08 Democratization emerged at a time of epochal change in global politics the twin impacts of the end of the Soviet Union and the speeding up and deepening of globalisation in the early 1990s meant a whole new ball

game in terms of global political developments The journal's first issue appeared in early 1994 Over time the editorial position has been consistently to focus on the third wave of democracy and its aftermath The third wave is the most recent exemplar of a long term historical trend towards more democratically viable regimes and away from authoritarian systems and leaders In short the journal wants to promote a better understanding of democratization defined as the way democratic norms institutions and practices evolve and are disseminated both within and across national and cultural boundaries Over the years the many excellent articles that we have featured in the journal have shared our focus on democratization viewed as a process The journal has sought and continues to seek to build on the enduring scholarly and of course popular interest in democracy how and why it emerges develops and becomes consolidated Our emphasis over the last 20 years has been contemporary and the approach comparative with a strong desire to be both topical and authoritative We include special reference to democratization in the developing world and in post communist societies In sum just as 20 years ago the journal today aims to encourage debate on the many aspects of democratization that are of interest to policy makers administrators and journalists aid and development personnel those involved in education and perhaps above all the tens of millions of ordinary people around the world who do not yet enjoy the benefits of living under democratic rule The two dozen articles collected in this virtual special issue are emphatic proof of the power of the written word to induce debate uncertainty and ultimately progress towards better forms of politics focused on the achievement of the democratic aspirations of men and women everywhere

**Democratization in China, Korea and Southeast Asia?** Kate Xiao Zhou, Shelley Rigger, Lynn T. White III, 2014-01-21 Rapid economic pluralization in East Asia has empowered local and medial groups and with this change comes the need to rethink usual notions regarding ways in which democracies emerge or citizens gain more power Careful examination of current developments in China Korea and Southeast Asia show a need for expansion of our understandings of democracy and democratization This book challenges traditional ways in which political regimes in local as well as national polities are conceived and labeled It shows from Asian experiences that democracy and its precursors come in more forms than most liberals have yet imagined In reviewing recent experiences of countries across East Asia these chapters show that actual democracies and ostensible democratizations there are less like those in the West than the surprisingly consensual and standard political science of democratization suggests This book first examines the extreme variation of democracy's meaning in many Asian states that hold contested elections South Korea Taiwan Indonesia Malaysia the Philippines and Thailand Then it focuses on China It analyzes a range of grassroots forces driving political change in the People's Republic and it finds both accelerators and brakes in China's political reform process The contributors show that models for China's political future exist both within and outside the PRC including in other East Asian states in localities and sectors that already are pushing the limits of the powerful but no longer all powerful Chinese party state With contributions from leading academics in the field Democratization in China Korea and Southeast Asia will be of interest to students and scholars of
