City and Region Wendelin Strubelt, Grzegorz

Gorzalak,2008-02-26 This book deals with the development of cities and regions in times of decisive transformation in Europe throughout these past twenty years In the Western parts of Europe cities and regions were challenged from the outside by globalisation and by technological and demographic change from the inside On top of that the Eastern parts were confronted with deep restructuring processes enforced by the transition from socialist to capitalistic structures By now all European cities and regions are confronted with challenges stemming from a new global competition for jobs population and status Authors from different national backgrounds of Central Europe are analysing and reflecting on these changing structures and processes

Of States and Cities Peter Marcuse,Ronald van Kempen,2002 The nature and effects of globalization are coming under critical scrutiny across all continents This book focuses on one aspect the globalization of cities It examines the claim that the state is powerless to influence events and that history geography and culture have become irrelevant in the worldwide trend towards a uniform urban model a model which features increased segregation decline of the central city and social polarization The international team of contributors is well placed to put these claims in perspective Drawing on their experiences of cities as diverse as New York and Warsaw Istanbul and Sao Paulo they demonstrate that states and cities have adopted widely varying approaches to the advent of globalization and that its impact has been constrained by each city s history physical layout location environment role in the international economy and demographic composition The diversity of urban development and political response revealed is enormous and provides ample practical examples of what might be done to bring about improvements for the increasing number of people who live in cities

The Community in Urban Society Larry Lyon,Robyn Driskell,2011-12-16 The community is more than an abstract object of theoretical inquiry It is also a place where people live It is difficult to determine where community research and theory merge because the community is a unique place where theory and the real world come together Local conditions change and new research techniques emerge In the second edition of *The Community in Urban Society* the authors solve this problem by distilling the historic and foundational theories of community applying traditional approaches typology ecology systems theory and conflict theory to current conditions and exploring new and relevant theories that impact today s communities The latest edition also examines recent and emerging technologies that facilitate examination and evaluation of the modern community condition Updated coverage includes topics such as New Urbanism modern network analysis methods the urban political economy approach to community the growth machine approach GIS mapping recent holistic studies cyberspace communities and up to date discussions of community indicator studies quality of life community power and regime politics
