Factory Acts In Ireland 18021914:

The Factory Acts in Ireland, 1802-1914 Desmond S. Greer, James W. Nicolson, 2003 Working conditions in Irish industry prior to 1914 were frequently harsh and dangerous particularly for women young persons and children Successive Factory Acts designed primarily for industrial conditions in Great Britain sought to ameliorate the plight of these protected workers in the face of considerable opposition This book examines the development of this early health and safety legislation the system of inspection by which it was enforced and the peculiar problems which the factory inspectors encountered in Ireland while seeking to ensure that minimum standards were observed notwithstanding local social and economic constraints Publisher description [Industry and Policy in Independent Ireland, 1922-1972](#) Frank Barry, 2023-09-07 This book revisits the history of industry and industrial and economic policy in independent Ireland from the birth of the state to the eve of EEC accession Though there were several manufacturing employers of significance and smaller firms in operation in almost every major branch of industry the Irish Free State was predominantly agricultural at its establishment in 1922 Industrial development was high on the nationalist agenda as would be the case across the entire developing world in the later post colonial era Despite decades of protection and a substantial increase in the size of the manufacturing sector Ireland remained under industrialised when it joined the European Economic Community in 1973 Over the previous decade and a half however the foundations of later convergence had been laid Ireland was an early adopter of what would come to be known as dual track reform The policy of attracting outward oriented foreign direct investment was initiated before substantial trade liberalisation began By 1972 there had been a significant diversification in export categories and export destinations and in the nationality of ownership of the leading manufacturing firms Some of the most successful indigenous companies of the future were also beginning to emerge In these and other respects the foundations of the economic progress that would be made over the course of EEC membership were already discernible notwithstanding the post accession collapse of most protectionist era businesses The analysis is supplemented by a unique firm level database that allows for the identification of the leading manufacturing firms in operation at any stage from the early 1900s through to 1972 The database extends by more than 50 years the period for which estimates of the significance of foreign owned industry can be provided *The Cambridge Social History of Modern Ireland* Eugenio F. Biagini, Mary E. Daly, 2017-04-27 Covering three centuries of unprecedented demographic and economic changes this textbook is an authoritative and comprehensive view of the shaping of Irish society at home and abroad from the famine of 1740 to the present day The first major work on the history of modern Ireland to adopt a social history perspective it focuses on the experiences and agency of Irish men women and children Catholics and Protestants and in the North South and the diaspora An international team of leading scholars survey key changes in population the economy occupations property ownership class and migration and also consider the interaction of the individual and the state through welfare education crime and policing Drawing on a wide range of

Growing Up in Nineteenth-Century Ireland Mary Hatfield, 2019-10-03 Why do we send children to school Who should take responsibility for children's health and education Should girls and boys be educated separately or together These questions provoke much contemporary debate but also have a longer often overlooked history Mary Hatfield explores these questions and more in this comprehensive cultural history of childhood in nineteenth century Ireland Many modern ideas about Irish childhood have their roots in the first three quarters of the nineteenth century when an emerging middle class took a disproportionate role in shaping the definition of a good childhood This study deconstructs several key changes in medical care educational provision and ideals of parental care It takes an innovative holistic approach to the middle class child's social world by synthesising a broad base of documentary visual and material sources including clothes books medical treatises religious tracts photographs illustrations and autobiographies It offers invaluable new insights into Irish boarding schools the material culture of childhood and the experience of boys and girls in education

Cattle in Ancient and Modern Ireland Fergus Kelly, James H. McAdam, Michael O'Connell, 2016-04-26 Cattle have been the mainstay of Irish farming since the Neolithic began in Ireland almost 6000 years ago Cattle and especially cows have been important in the life experiences of most Irish people directly and or through legends such as the T in B Cuailnge The Cattle raid of Cooley In this book diverse aspects of cattle in Ireland from the circumstances of their first introduction to recent and ongoing developments in the management of grasslands still the main food source for cattle in Ireland are explored in thirteen essays written by experts New information is presented and several aspects relating to cattle husbandry and the interactions of cattle and people that have hitherto received little or no attention are discussed

The Cambridge History of Ireland: Volume 3, 1730-1880 James Kelly, Thomas Bartlett, 2018-04-26 The eighteenth and nineteenth centuries was an era of continuity as well as change Though properly portrayed as the era of Protestant Ascendancy it embraces two phases the eighteenth century when that ascendancy was at its peak and the nineteenth century when the Protestant elite sustained a determined rear guard defence in the face of the emergence of modern Catholic nationalism Employing a chronology that is not bound by traditional datelines this volume moves beyond the familiar political narrative to engage with the economy society population emigration religion language state formation culture art and architecture and the Irish abroad It provides new and original interpretations of a critical phase in the emergence of a modern Ireland that while focused firmly on the island and its traditions moves beyond the nationalist narrative of the twentieth century to provide a history of late early modern Ireland for the twenty first century

Ireland and the Industrial Revolution Andy Bielenberg, 2009-05-07 This monograph provides the first comprehensive analysis of industrial development in Ireland and its impact on Irish society between 1801 1922 Studies of Irish industrial history to date have been regionally focused or industry specific The book addresses this problem by bringing together the economic and

social dimensions of Irish industrial history during the Union between Ireland and Great Britain In this period British economic and political influences on Ireland were all pervasive particularly in the industrial sphere as a consequence of the British industrial revolution By making the Irish industrial story more relevant to a wider national and international audience and by adopting a more multi disciplinary approach which challenges many of the received wisdoms derived from narrow regional or single industry studies this book will be of interest to economic historians across the globe as well as all those interested in Irish history more generally

Trouble at the Mill Aditya Sarkar,2018-01-03 The colonial administration passed a Factory Act in 1881 producing the first official definition of factory in modern Indian history as a workplace using steam power and regularly employing over 100 workers In 1891 the Act was amended factories were redefined as workplaces employing over 50 workers the upper age limit of legal protection was raised weekly holidays were established and women mill workers were brought within its ambit Sarkar analyses the two versions of the Act and reveals the tensions inherent within the project of protective labour regulation Combining legal and social history he identifies an emergent factory question The cotton mill industry of Bombay long considered as one of the birthplaces of modern Indian capitalism is the principal focal point of his investigation Factory law though experienced as a minor official initiative connected with some of the most potent ideological debates of the age Trouble at the Mill explores a shifting set of themes and raises questions rarely thematized by labour historians the ideologies of factory reform the politics of factory commissions the routines of factory inspection and the earliest waves of strike action in the cotton textile industry in the last quarter of the nineteenth century

Workers, Unions and Payment in Kind Christopher Frank,2019-10-25 Despite the dramatic expansion of consumer culture from the beginning of the eighteenth century onwards and the developments in retailing advertising and credit relationships in the nineteenth and twentieth centuries there were a significant number of working families in Britain who were not fully free to consume as they chose These employees were paid in truck or in goods rather than currency This book will explore and analyse the changing ways that truck and workplace deductions were experienced by different groups in British society arguing that it was far more common than has previously been acknowledged This analysis brings to light issues of class and gender the discourse of free trade popular politics and protest the development of the trade union movement and the use of the legal system as an instrument for bringing about social and legal change

Lane,2009-11-29 An examination of Irish society and politics providing a wide ranging introduction to the involvement of the middle classes in Irish political life and the public sphere accrosss the eighteenth and twentieth centuries Combines analytical surveys and case area studies to offer new perspectives on crucial movements and figures in Irish history

Melancholy Madness (A Coroners Casebook) Michelle McCann,2004-02-27

Bizarre tales of murder and investigation in the drumlins valleys and towns of Monaghan in the nineteenth century based upon a casebook just recently discovered that has never been lodged in any archive anywhere This is NEW information and highlights such cases as The Illegitimate Half Sisters Of Oscar Wilde Emily and Mary Wilde died tragically at Drumaconner House while dancing by the fire their deaths are kept quiet so as not to shame Sir William Wilde The Legend Of The Sleepwalking Nun Sister Mary Keogh is discovered drowned in the Convent lake near the Crannog to this day local legend tells the story of her death

Ordinary Lives, Death, and Social Class Ciara Breathnach, 2022 Ordinary Lives Death and Social Class focuses on the evolution of the Dublin City Coroner's Court in the late nineteenth century using a wealth of inquest data to understand the impact of urban living from lifecycle and class perspectives revealing histories from both above and below

The Winding-up of the Dáil Courts, 1922-1925 Mary Kotsonouris, 2004 In 1923 the Irish Free State government established a judicial commission with extraordinary powers to revive the jurisdiction of the court system which had flourished under the authority of the First Dáil so that the 5000 civil cases current when the Dáil courts were abruptly closed down at the outbreak of the Civil War could be brought to a conclusion Its registry and principal court were at Dublin Castle but the commissioners also went out on circuit After two years their jurisdiction was transferred to the High Court where it remains All its records are in the National Archives This book describes not only the origins and progress of the commission and its importance in the early years of the Irish Free State but its role at the centre of a power struggle between the shrewd mandarins then at the helms of the nascent departments of justice and finance Figures such as Kevin O Higgins Hugh Kennedy O Friel Meredith and Mathieson are prominent in the story

Murder Trials in Ireland, 1836-1914 William Edward Vaughan, 2009 The book describes how the courts dealt with murder beginning with the coroner's inquest and ending with the conviction and hanging of the murderer Between these two points the exquisite almost balletic procedure of the courts and their officers is described the Crown's case against the prisoner is analyzed and the prisoner's defense is discussed Magistrates policemen crown solicitors witnesses jurors judges and hangmen make their appearances The prisoners whose silence before and during their trials was their most notable characteristic in the nineteenth century courts make their appearances too but not as prominently as their judicial custodians until they finally and briefly come into the limelight on the gallows An implicit theme of the book is the apparent contradiction between the apparent simplicity of the courts procedures and the complexity of the rules that determined their operation The book relies on a range of printed primary sources such as newspapers parliamentary papers law reports and legal textbooks and on MS sources in the National Archives such as the Convict Reference Files Series Irish Legal History Society

Poyning's Law and the Making of Law in Ireland, 1660-1800 James Kelly, 2007 Poyning's Law 1494 was one of the most crucial statutes ever enacted by the Irish parliament yet the law's crucial impact on parliament's operations from 1660 has never been examined systematically James Kelly examines how Poyning's Law impacted on the legislative operations of

the Irish parliament between the Restoration and the Act of Union and he establishes how the Irish parliament contrived first by evolving a sophisticated heads of bills process in the late 17th century second by curtailing the power of the Irish privy council in the early 18th century and finally by securing the amendment of Poynings Law in 1782 to achieve a degree of legislative independence that endured until the Act of Union Based on a close and detailed scrutiny of the records of the Irish parliament and the systematic exploration for the first time of the voluminous records of the British privy council this book provides a new revealing perspective on the working of the Irish parliament its relationship with the Irish executive and on the nature of the Anglo Irish connection Series Irish Legal History Society **Irish Economic and Social History** ,2004
