Rails Barry Taylor,2010-08-30 This is a guide to rails a relatively homogeneous family of birds spread throughout the world Barry Taylor and Ber van Perlo have described and illustrated 145 species of rails including two that are newly described and also ten that are recently extinct and two that are almost certainly extinct The book based on up to date references and on new observations is the first to give comprehensive information on

field identification including voice covering all species and races for which details are known It is also the first to provide descriptions of the immature and juvenile plumages of many species The authors provide a detailed summary of current knowledge of all aspects of rail biology and their often complex behaviour social structure and family life They explain how such apparently poorly flying birds can undertake intercontinental migrations and are such widespread and successful colonists of remote oceanic islands They also discuss the remarkable ease and speed with which species on such islands have evolved into flightless forms in the absence of predators a fact that has led to the rapid extinction of numerous island taxa following the arrival of man Rail habitats are fast disappearing say the authors and many rails become endangered before enough is known about them to plan effective conservation measures The book provides information on distribution status habitat requirements and current threats and it gives conservation priorities for threatened species

**Wired for Sound** Tom Bromley, 2012-06-07 The eighties was a golden era for British pop. Radio One served as the soundtrack of the nation; the chart run-down on Sunday evenings was compulsory listening; ditto watching Top of the Pops and reading Smash Hits. It also saw the launch of the Now That's What I Call Music series. In the States, the arrival of MTV helped usher in what became known as the Second British Invasion, echoing the success of the Beatles twenty years earlier. *Wired For Sound* tells the remarkable story of the great eighties British bands and Kajagoogoo and how their music captured the nation's imagination: the more radical beginnings in the early eighties, the new romanticisms of Duran and Spandau, the protest pop of early Wham, the full pomp of their mid-eighties success, the worldwide tours, the glamorous video shoots, the ubiquitous Choose Life and Relax T-shirts, and their fall from the top of pop's pedestal; the splitting up of Wham, Boy George's drug problems. *Wired for Sound* will describe the subsequent descent to Band Aid II, Bros, Wet Wet Wet, Stock Aitken and Waterman, which bookended the low point of the pop music that followed. *Wired For Sound* will be the affectionate celebration of both a musical youth and the era when young guns went for it. This is a book for anyone who grew up reading Smash Hits, soundtracked their teenage years on C90 cassettes, and remembers a time when it really mattered who was number one.

**Spectacle, Fashion and the Dancing Experience in Britain, 1960-1990** Jon Stratton, 2022-10-31 This book explores dancing from the 1960s to the 1980s, though this period covers only twenty years; the changes during it were seismic. Nevertheless, continuities can be found, and those are what this book examines. In dancing, it answers how we moved from the self-control that formed the basis for ballroom dancing to ecstatic rave dancing. In terms of music, it answers how we moved from the beat groups to electronic dance music. In terms of youth, it answers how we moved from youth culture to club culture.

**Rethinking America's Correctional Policies** Anne S. Douds, Eileen M. Ahlin, 2017-06-02 *Commonsense Choices from Uncommon Voices: Rethinking America's Correctional Policies* brings together the experiences of men who served time in prison with contemporary research on correctional policy. This work combines a voyeuristic desire to observe evil and the consequences of the system of punishment with detached consideration of what those stories can tell us about who we are as a nation and how we treat those who have betrayed the social trust. The authors simultaneously examine first-person accounts of inmate experiences with the correctional system and what actually works in operation to promote the rehabilitative and restorative models of justice, so many of our policymakers espouse. Each chapter opens with a vignette, a recollection of an event or series of events about an inmate's experience during the various phases of correctional processing. These first-hand accounts have been collected from men who served time in prison. These men's

stories are examined in their own right then extrapolated to a broader analysis of the underlying social and policy issues to which that vignette speaks All chapters follow the same structure a opening vignette about a former inmate b analysis which includes i identification of the underlying issue ii reflection and iii extrapolation to a larger policy issue and c recommendations from the field for enacting practice and crafting policy more responsive to the identified issue
