Reading Poetry offers a comprehensive and accessible guide to the art of reading poetry. Discussing more than 200 poems by more than 100 writers ranging from ancient Greece and China to the twenty first century the book introduces readers to the skills and the critical and theoretical awareness that enable them to read poetry with enjoyment and insight. This third edition has been significantly updated in response to current developments in poetry and poetic criticism and includes many new examples and exercises, new chapters on world poetry and eco poetry and a greater emphasis throughout on American poetry including the impact traditional Chinese poetry has had on modern American poetry. The seventeen carefully staged chapters constitute a complete apprenticeship in reading poetry leading readers from specific features of form and figurative language to larger concerns with genre, intertextuality, Caribbean poetry, world poetry and the role poetry can play in response to the ecological crisis. The workshop exercises at the end of each chapter together with an extensive glossary of poetic and critical terms and the number and range of poems analysed and discussed (122 of which are quoted in full) make Reading Poetry suitable for individual study or as a comprehensive self contained textbook for university and college classes.

Poetics of Self and Form in Keats and Shelley Mark Sandy, 2017-03-02. Beginning with a reassessment of contemporary romantic studies this book provides a modern critical comparison of Keats and Shelley. The study offers detailed close readings of a variety of literary genres including the romance, lyric, elegy and literary fragment adopted by Keats and Shelley to explore their poetic treatment of self and form. The poetic careers of Keats and Shelley embrace a tragic affirmation of those darker elements latent in the earlier writings to meditate on their own posthumous reception and reputation. Fresh readings of Keats and Shelley show how they conceive of the self as fictional and anticipate Nietzsche's modern theories of subjectivity. Nietzsche's conception of the subject as a site of conflicting fictions usefully measures this emergent sense of poetic self and form in Keats and Shelley. This Nietzschean perspective enriches our appreciation of the considerable artistic achievement of these two significant second generation romantic poets.
