Darbyshire, Charles Gibson, 2022-07-13 Now in its fourth edition Mechanical Engineering has been revised to be in line with

the technical qualifications of the new engineering apprenticeship standards at Level 3 In addition four new chapters are

included that cover static and dynamic engineering systems fluid systems and additive manufacturing The text covers eight

units of the BTEC L3 Advanced Manufacturing Engineering Development Technical Knowledge qualification as well as some

content in the BTEC National Engineering Syllabus and BTEC L3 Aerospace and Aviation Engineering specialist

qualifications It also covers some of the content in the EAL L3 Advanced Manufacturing Engineering Development Technical

Knowledge qualification To enhance learning mathematical theory is backed up with numerous examples to work through

There are also activities for students to complete out of the classroom that help put the theory into context Test your

knowledge quizzes throughout the text enable students to test their understanding while end of unit review questions are

helpful for exam revision and course work This book is ideal for students undertaking Level 3 courses in engineering

although students undertaking Level 4 engineering courses will also find the content of the book useful to their studies Alan
