Failure Of Democratic Politics In Fiji:

State Failure and State Weakness in a Time of Terror Robert I. Rotberg, 2004-05-13 The threat of terror which flares in Africa and Indonesia has given the problem of failed states an unprecedented immediacy and importance In the past failure had a primarily humanitarian dimension with fewer implications for peace and security Now nation states that fail or may do so pose dangers to themselves to their neighbors and to people around the globe preventing their failure and reviving those that do fail has become a strategic as well as a moral imperative State Failure and State Weakness in a Time of Terror develops an innovative theory of state failure that classifies and categorizes states along a continuum from weak to failed to collapsed By understanding the mechanisms and identifying the tell tale indicators of state failure it is possible to develop strategies to arrest the fatal slide from weakness to collapse This state failure paradigm is illustrated through detailed case studies of states that have failed and collapsed the Democratic Republic of the Congo Sierra Leone the Sudan Somalia states that are dangerously weak Colombia Indonesia Sri Lanka Tajikistan and states that are weak but safe Fiji Haiti Lebanon

The Failure of Democratic Politics in Fiji Stephanie Lawson, 1991 In 1987 two military coups in Fiji undermined institutions previously thought to be democratic in character The coup leader Colonel Sitiveni Rabuka claimed that the coups were necessary in order to protect the rights of indigenous Fijians against the demands of the large Indian community Combining the techniques of the historian the anthropologist and the political theorist Stephanie Lawson discusses the contemporary political situation in Fiji from both a historical and a theoretical viewpoint and tracing the sources of the current divisions in Fiji to the well intentioned but in the end misguided ambitions of colonial administrators to protect the way of life of indigenous Fijians Dr Lawson s analysis reveals many ironies The very presence in Fiji of a large Indian community now made a scapegoat by the coup leaders is a result of the desire of colonial administrators to avoid forcing the indigenous population to become landless labourers while at the same time securing a source of labour for a plantation based agricultural system She argues that post colonial political institutions themselves shaped by generations of colonial administrators exacerbated and possibly created the very tensions between the indigenous population and Indians that they were designed to temper Dr Lawson demonstrates why race was never really an issue in recent events but why Rabuka could plausibly claim that it was She comes to the provocative but convincing conclusion that Fiji has never really been a democracy in the Western sense of the word

Some Conceptual and Empirical Issues in the Study of Regime

Change Stephanie Lawson, 1991

Democracy and Social Peace in Divided Societies M. Bogaards, 2014-06-24 This unique comparative study examines minority representation and powersharing in Canada Kenya South Africa Fiji India Malaysia and Yugoslavia Presenting a new concept of the consociational party Bogaards explores how diversity differs within parties and why it matters for social peace and democracy

Rethinking Ethnicity Eric P. Kaufmann, 2004

Globalization and migration are pressuring nations around the world to change their ethnic self definition and to treasure diversity not

homogeneity This book explores the growing gap between modern nations and their dominant ethnic groups *Democracy in Divided Societies* Ben Reilly, 2001-09-13 Democracy is inherently difficult in societies divided along deep ethnic cleavages Elections in such societies will often encourage centrifugal politics which reward extremist ethnic appeals zero sum political behaviour and ethnic conflict and which consequently often lead to the breakdown of democracy Reilly examines the potential of electoral engineering as a mechanism of conflict management in divided societies He focuses on the little known experience of a number of divided societies which have used preferential vote pooling electoral systems such as Papua New Guinea Sri Lanka Northern Ireland and Fiji Examination of these cases shows that electoral systems which encourage bargaining between rival political actors which promote the development of broad based aggregative political parties and which present campaigning politicians with incentives to attract votes from a range of ethnic groups can under certain conditions encourage the development of moderate accommodatory political competition in divided societies *The Good Neighbour: Volume 5, The Official History of Australian Peacekeeping, Humanitarian and Post-Cold War Operations* Bob Breen, 2016-07-15 The Good Neighbour explores the Australian government's efforts to support peace in the Pacific Islands from 1980 to 2006 It tells the story of the deployment of Australian diplomatic military and policing resources at a time when neighbouring governments were under pressure from political violence and civil unrest The main focus of this volume is Australian peacemaking and peacekeeping in response to the Bougainville Crisis a secessionist rebellion that began in late 1988 with the sabotage of a major mining operation Following a signed peace agreement in 2001 the crisis finally ended in December 2005 under the auspices of the United Nations During this time Australia's involvement shifted from behind the scenes peacemaking to armed peacekeeping intervention and finally to a longer term unarmed regional peacekeeping operation Granted full access to all relevant government files Bob Breen recounts the Australian story from decisions made in Canberra to the planning and conduct of operations **The Future of Tradition** Leon Shaskolsky Sheleff, 2013-09-05 Recent years have seen an increased interest in the variety of cultures co existing within one state and a growing acknowledgement of the values ensconced in pluralistic social structures this book examines the manner in which indigenous people can function in modern states preserving their traditional customs while simultaneously adapting aspects of their culture to the challenges posed by modern life Whereas it was formerly assumed that these tribal frameworks were doomed to extinction and some states even encouraged such a process there has been a revival in their vitality linked to a recognition of their rights The book offers a comprehensive survey of various aspects of tribal life focusing on political issues such as the meaning of sovereignty legal issues dealing with the role of custom and social issues concerned with sustaining communal life A focused study is made of a whole series of legal factors relating to possession and ownership of land religious rites the nature of polygamous marriages the assertion of group rites the manner of peacefully resolving disputes and allied questions Recent judicial decisions are analysed as a reflection of the far reaching changes that have taken place in a process that has

seen the former disregard of basic rights of indigenous people being replaced by an awareness of the injustices perpetrated in the past and a willingness to seek to redress them The comparison between approaches of different English speaking countries provides an account of interwoven developments Party Systems and Voter Alignments Revisited Lauri Karvonen, Stein Kuhnle, 2003-09-02 A timely study of Lipset and Rokkan's classic work this book examines the significance of the original volume for the history of political sociology and assesses its theoretical and empirical relevance to the present day **Culture, Citizenship, and Community** Joseph H. Carens, 2000 This text seeks to contribute to debates about multiculturalism and democratic theory It reflects upon the ways in which claims about culture and identity are advanced by immigrants national minorities aboriginals and groups in different societies *Culture and Society in the Asia-Pacific* Colin Mackerras, Richard Maidment, 2005-07-28 This important new text examines the crucial social and cultural factors associated with the rise of the Asia Pacific region at the end of the Twentieth Century It takes a close look at those areas which have affected the everyday life of the people most directly These include the family gender relations and the position of women religion the arts with specific reference to film ethnic relations and population migration education and the images of the Asia Pacific The authors discuss real tensions between tradition and modernity in different nations of the Asia Pacific exploring the effects that economic growth has on powerful traditional cultures Prospects of Democracy Tatu Vanhanen, 2002-11 Vanhanen provides the most extensive comparative survey of the state and conditions of democracy ever made with historical data and explanatory variables extending back to the 1850s and with forecasts covering seven regions of the world **The Deadly Ethnic Riot** Donald L. Horowitz, 2003-11-15 Donald L Horowitz's comprehensive consideration of the structure and dynamics of ethnic violence is the first full scale comparative study of what the author terms the deadly ethnic riot an intense sudden lethal attack by civilian members of one ethnic group on civilian members of another ethnic group Serious frequent and destabilizing these events result in large numbers of casualties Horowitz examines approximately 150 such riots in about fifty countries mainly in Asia Africa and the former Soviet Union as well as fifty control cases With its deep and thorough scholarship incisive analysis and profound insights *The Deadly Ethnic Riot* will become the definitive work on its subject Furious and sadistic the riot is nevertheless directed against a precisely specified class of targets and conducted with considerable circumspection Horowitz scrutinizes target choices participants and organization the timing and supporting conditions for the violence the nature of the events that precede the riot the prevalence of atrocities during the violence the location and diffusion of riots and the aims and effects of riot behavior He finds that the deadly ethnic riot is a highly patterned but emotional event that tends to occur during times of political uncertainty He also discusses the crucial role of rumor in triggering riots the surprisingly limited role of deliberate organization and the striking lack of remorse exhibited by participants Horowitz writes clearly and eloquently without compromising the complexity of his subject With impressive analytical skill he takes up the important challenge of explaining phenomena that are at once passionate and

calculative Donald L Horowitz's comprehensive consideration of the structure and dynamics of ethnic violence is the first full scale comparative study of what the author terms the deadly ethnic riot an intense sudden lethal attack by civilian members of one ethni

The General's Goose Robbie Robertson, 2017-08-25 His admirers said he was a charismatic leader with a dazzling smile a commoner following an ancient tradition of warrior service on behalf of an indigenous people who feared marginalisation at the hands of ungrateful immigrants One tourist pleaded with him to stage a coup in her backyard in private parties around the capital Suva infatuated women whispered coup me baby in his presence It was so easy to overlook the enormity of what he had done in planning and implementing Fiji's first military coup to be seduced by celebrity captivated by the excitement of the moment and plead its inevitability as the final eruption of long simmering indigenous discontent A generation would pass before the

consequences of the actions of Fiji's strongman of 1987 Sitiveni Rabuka would be fully appreciated but by then the die had been well and truly cast. The major general did not live happily ever after. No nirvana followed the assertion of indigenous rights. If anything, misadventure became his country's most enduring contemporary trait. This is Fiji's very human story.

State of Suffering Susanna Trnka, 2011-05-02 How do ordinary people respond when their lives are irrevocably altered by terror and violence? Susanna Trnka was residing in an Indo-Fijian village in the year 2000 during the Fijian nationalist coup. The overthrow of the elected multiethnic party led to six months of nationalist aggression, much of which was directed toward Indo-Fijians. In *State of Suffering*, Trnka shows how Indo-Fijians' lives were overturned as waves of turmoil and destruction swept across Fiji. Describing the myriad social processes through which violence is articulated and ascribed meaning, including expressions of incredulity, circulation of rumors, narratives and exchanges of laughter and jokes, Trnka reveals the ways in which the community engages in these practices as individuals experience and try to understand the consequences of the coup. She then considers different kinds of pain caused by political chaos and social turbulence, including pain resulting from bodily harm, shared terror and the distress precipitated by economic crisis and social dislocation. Throughout this book, Trnka focuses on the collective social process through which violence is embodied, articulated and silenced by those it targets. Her sensitive ethnography is a valuable addition to the global conversation about the impact of political violence on community life.

The Government and Politics of India Ramesh Thakur, 1995-07-24 The *Government and Politics of India* provides a clear and concise account of the contemporary Indian political system. It explains the historical legacies that have shaped the structures of Indian government and influenced the patterns of its politics. It describes the network of Indian institutions at federal and provincial level. It conveys a sense of where power is located, how it is used and the constraints on its exercise. Special attention is devoted to caste, religion and regionalism in Indian society and to the nature of democratic politics in relation to Third World development.
