

Faith and Speculation: An Essay in Philosophical Theology by Austin Farrer. Pp. viii + 175 (A. and C. Black) 20s.

WHEN *Finite and Infinite* came out twenty years ago, I described it as 'a landmark in metaphysics'. The present book is a sequel to it and in a way a corrective. It begins by restating some of the most important conclusions in a form which puts them more at the disposal of the non-specialist, although he may sometimes lose his way in the imaginary dialogues which twist and turn in so fascinating and yet sometimes in so bewildering a fashion and which have become the main feature of Dr Farrer's method. Anyhow it will be clear to everyone early in the book that 'to become aware of the divine activity' is 'to go into another dimension', that 'God and the world must both in some fashion have made their print in our minds, and not the world only' (pp. 21, 23). What Farrer is chiefly concerned to stress about this is that the knowledge which we have of God is not a mere 'intellectual vision' but 'the experience of his action', and with this I am in wholehearted agreement. He is at pains to distinguish it from 'mystical contemplation', as of course it must be distinguished, but, from the epistemological point of view, it is surely the basis of Christian mysticism. The early chapters work up to the following conclusion: 'The physical model reveals its inadequacy by blotting out the very subject we come to study, the divine. For we challenge anyone to tell us what middle position is tenable between a serious personalism in religion, and that pious atheism which has no other god than the backside of human nature' (p. 48).

The central chapters consist of three chapters dealing with 'the conceivability of a divine action in the world'. A paragraph on 'value' demands quotation:

Value cannot substitute for evidence; what it can do is to force us to judge it. Let the evidence of an existence be in some way difficult to assess by the customary rules. Then the intrinsic value of the existent which the evidence would prove if the evidence were sound, forces on us the effort of judging whether it is sound or not; always supposing that the value would be one that would make claims on our action. And so it has always been recognized that faith in God calls for voluntary effort; we could spare the trouble of deciding so mysterious and unique an issue, were it not that the absolute value of the Being involved obliges us to the exertion (p. 59).

Faith and Speculation Austin Farrer, 1988-01-01 Faith and speculation Austin Farrer, 1964 **Faith and Speculation** Reverend Farrer, 1967 Faith and Speculation Austin Farrer, 1967-01-01 **A Philosophical Theology of the Old Testament** Jaco Gericke, 2020-01-08 Are we able to identify and compare the philosophical perspectives and questions that must be postulated as having been somehow present in the language ideas and worldviews of the Biblical authors This book sets out an approach to something that has been generally considered impossible a philosophical theology of the Old Testament It demonstrates and addresses the neglect of a descriptive and comparative philosophical clarification of concepts in Old Testament theology and in so doing treads new ground in Biblical studies and philosophical theology Recognizing the obvious problems with and objections to any form of interdisciplinary research combining philosophical and Biblical theology this study presents itself as introductory and experimental in nature The methodology opted for is limited to a philosophical clarification of concepts already found in Old Testament theology while the findings are presented via the popular thematic approach found in analytic philosophical theologies with no attempted justification or critique of the textual contents under investigation These approaches are combined by primarily looking at the nature of Yahweh in the Old Testament This book offers a new vision of Biblical and philosophical theology that brings them closer together in order that we might understand both more broadly and deeply As such it will be vital reading for scholars of Theology Biblical Studies and Philosophy **The Virtue of Faith and Other Essays in Philosophical Theology** Robert Merrihew Adams, 1987-04-30 Robert Merrihew Adams has been a leader in renewing philosophical respect for the idea that moral obligation may be founded on the commands of God This collection of Adams essays two of which are previously unpublished draws from his extensive writings on philosophical theology that discuss metaphysical epistemological and ethical issues surrounding the concept of God whether God exists or not what God is or would be like and how we ought to relate ourselves to such a being Adams studies the relation between religion and ethics delving into an analysis of moral arguments for theistic belief In several essays he applies contemporary studies in the metaphysics of individuality possibility and necessity and counterfactual conditionals to issues surrounding the existence of God and problems of evil A Grammar of Christian Faith Joe R. Jones, 2002-06-03 A Grammar of Christian Faith is a two volume set that aims to confront the widespread disarray in the language and practices of Christian faith today As a grammar it explains how Christian faith provides special ways of speaking and acting that make sense of human life by giving it meaning practicality and hope It advances the thesis that learning how to speak Christian language in worship and life is crucial to learning how to be a Christian Rather than supposing that Christian language and theology need continual updating in order to be relevant to the world Jones urges the church to recover anew how Christian concepts and understanding are intended to form Christian life in all its rich depths Construing theology as confessional theology in the context of the church Jones understands the church as that liberative and

redemptive community called into being by the Gospel of Jesus Christ to witness in word and deed the triune God for the benefit of the world. The full range of doctrinal themes that are deemed essential to the witness of the church are explored including clear explanations of why they are essential and how they are to be understood. In pursuit of a truthful and beneficial witness of the church, the work centers on a trinitarian understanding of God in which God freely and lovingly interacts with the world as Creator, Reconciler, and Redeemer. The work throughout affirms the belief that the gracious triune God is the Ultimate Companion who will redeem all creation.

Reason & the Contours of Faith Richard Rice, 2013-05-17
 Can reason and religion get together? Should believers think? Can thinking people believe? Does religion have to make sense? Does careful thinking help or hinder religious experience? People have wrestled with such questions for hundreds of years and they are just as perplexing today as ever. *Reason and the Contours of Faith* explores the wide-ranging issues these questions raise from biblical interpretation and proofs for God's existence to the nature of religious conversion. Its central purpose is to find an alternative to both fideism (the idea that reason has nothing to do with faith) and rationalism (the conviction that reason has everything to do with it). Part One, *Reason and the Contents of Faith*, argues that reason contributes in important but limited ways to our understanding of religion. Part Two, *Reason and the Experience of Faith*, shows that reason can support religious commitment but never produces it.

Perfect Will Theology J. Martin Bac, 2010-04-16
 This book revisits four early modern debates of Reformed theology concerning the will of God. Reformed scholasticism advocated a particular relationship between divine knowledge, will, and power which was altered by Jesuits, Remonstrants, Descartes, and Spinoza. In all these debates, modal categories like contingency and necessity play a prominent part. Therefore, these positions are evaluated with the help of modern modal logic, including possible world semantics. The final part of this study presents a systematic defense of the Reformed position, which has been charged of theological determinism and of making God the author of sin. In modern terms, therefore, the relation of divine and human freedom and the problem of evil are discussed.
