Faith and Reason Elgin L. Hushbeck, Jr., 2021-03-01 What is faith and how does it differ from belief How do people disagree and why do people disagree In particular how does one make decisions about faith Does reason enter into the discussion at all Elgin Hushbeck Jr author of two previous books in the Consider Christianity series Evidence for the Bible and Christianity and Secularism is very much concerned with these questions After all how can you conclude that the Bible is reliable or that Christianity is valid without discussing how it is that these questions are to be answered In Faith and Reason Hushbeck continues what is both a long term study and a journey of faith This combination is particularly powerful because he is discussing issues which have concerned him and others and is speaking of something he has experienced He is extraordinarily well qualified to examine these issues in detail Unlike the first two volumes in the series this book is directed more at a Christian audience It calls for Christians to consider the why of their faith and to prepare to both consider and express Amongst the many important topics covered are the definitions of faith and reason the nature of evidence critical thinking logical fallacies how critical thinking impacts Bible study and finally what constitutes a living faith This book will be a powerful tool for Christians who want to think more clearly about their faith but can be valuable for anyone interested in epistemology especially in comparative religion

Hegel: Faith and Knowledge G.W.F. Hegel, 1988-03-04 As the title indicates Faith and Knowledge deals with the relation between religious faith and cognitive beliefs between the truth of religion and the truths of philosophy and science Hegel is guided by his understanding of the historical situation the individual alienated from God nature and community and he is influenced by the new philosophy of Schelling the Spinozistic Philosophy of Identity with its superb vision of the inner unity of God nature and rational man Through a brilliant discussion of the philosophies of Kant Fichte and other luminaries of the period Hegel shows that the time has finally come to give philosophy the authentic shape it has always been trying to reach a shape in which philosophy's old conflicts with religion on the one hand and with the sciences on the other are suspended once for all This is the first English translation of this important essay Professor H S Harris offers a historical and analytic commentary to the text and Professor Cerf offers an introduction to the general reader which focuses on the concept of intellectual intuition and on the difference between authentic and inauthentic philosophy
