Faith After Foundationalism Plantinga Rorty Lindbeck Berger Critiques And Alternatives:

Faith after Foundationalism D.Z. Phillips, 2013-05-02 Foundationalism is the view that philosophical propositions are of two kinds those which need supporting evidence and those which in themselves provide the evidence which renders them irrefutable This book originally published 1988 describes the battle between foundationalism which places belief in God in the first category and various other approaches to the problem of faith Reformed Epistemology hermeneutics and sociological analysis In the concluding section of the book an examination of concept formation in religious belief is used to reinterpret the gap between the expressive power of language and the reality of God *Faith After Foundationalism* Dewi Zephaniah Phillips, 1988

Faith After Foundationalism D. Z. Phillips, 2018-02-02 Such is the clarity of its exposition and interest of its argument that it can be recommended to those seeking an introduction to recent work in epistemology The interest of the book however is greater than that For the discussion of foundationalism and of recent reactions to it is subtly interwoven into a discussion of recent and not so recent philosophy of religion Colin Lyas Philosophy **Ethics after**

Wittgenstein Richard Amesbury, Hartmut von Sass, 2021-01-28 What does it mean for ethics to say as Wittgenstein did that philosophy leaves everything as it is Though clearly absorbed with ethical questions throughout his life and work

Wittgenstein's remarks about the subject do not easily lend themselves to summation or theorizing Although many moral philosophers cite the influence or inspiration of Wittgenstein there is little agreement about precisely what it means to do ethics in the light of Wittgenstein *Ethics after Wittgenstein* brings together an international cohort of leading scholars in the field to address this problem The chapters advance a conception of philosophical ethics characterized by an attention to detail meaning and importance which itself makes ethical demands on its practitioners Working in conversation with literature and film engaging deeply with anthropology and critical theory and addressing contemporary problems from racialized sexual violence against women to the Islamic State these contributors reclaim Wittgenstein's legacy as an indispensable resource for contemporary ethics **Human Significance in Theology and the Natural Sciences**

Christopher L. Fisher, 2010-02-03 The Medieval Worldview that Regarded Human Beings as at the Center of God's plans for His universe has long been regarded as obsolete its synthesis of Christian theology and Greek philosophy having collapsed under the weight of Copernicus Galileo and Darwin The popular stereotype is that Science both in the Copernican revolution that dethroned the earth centered view of the cosmos and in subsequent developments in evolutionary theory and general relativity has marginalized and trivialized human existence revealing humanity's place in the cosmos to be accidental peripheral and ultimately meaningless However an investigation into both modern Christian theology and contemporary twenty first century Science reveals just the opposite providing solid evidence in the interdisciplinary dialogue concerning the significance of humanity within the universe In this important study Christopher Fisher analyzes several modern theologians including Wolfhart Pannenberg Karl Rahner and John Zizioulas to reveal how contemporary ecumenical theology

is deeply and intrinsically committed to a high view of human cosmic significance as a consequence of Christianity's indelible Trinitarian and incarnational faith Fisher then demonstrates how research in contemporary natural Science confirms this finding in its own way as recent primate intelligence studies artificial intelligence research and even the quest for extra terrestrial intelligence reveal the wonder of human uniqueness A contemporary version of the teleological argument also resurfaces in consideration of cosmic evolutionary perspectives on human existence Even ecological concerns take on a new poignancy with the realization that among material creatures only human beings are capable of addressing the world's situation This interdisciplinary study uncovers the surprising coherence and convergence of Christian Theology and Natural Science on the subject of human existence and significance here at the beginning of the twenty first century and it highlights the very unique role of humanity in global and cosmic history Through an incisive study of several leading twentieth century theologians Chris Fisher explores the ecumenical consensus for a strong reading of human cosmic significance While acknowledging problems surrounding earlier forms of anthropocentrism he argues that Christian theology remains wedded to a high understanding of the place of human beings in the economy of creation and salvation This is a valuable contribution to an important debate in contemporary theology David Fergusson University of Edinburgh This is a fascinating work on the interface between theology and science The author's remarkable breadth of knowledge clarity of thought and lucid writing style enable him to help the reader to understand the coherence between science and faith This scholarly work is an irenic and well informed presentation of the Christian faith and will become one of the primary textbooks in theology philosophy of religion and philosophy of science Laurence W Wood Asbury Theological Seminary

[The Language of Faith in Southern Africa: Spirit World, Power, Community, Holism](#) Hermen Kroesbergen, 2019-12-12 The aim of this book is to provide a way to do justice to an African language of faith In systematic theology anthropology and philosophy of religion similar debates about how to interpret an African language of faith are ongoing Trying to avoid the othering discourses of past generations scholars are careful to take seriously what people in Africa say without portraying people's beliefs as weird or backward Yet in their desperate attempts to avoid othering these theologians anthropologists and philosophers often painfully misconstrue the language of faith in Africa Understanding the language of faith in Southern Africa is not an easy task How should we take seriously the form of language that often seems so strange and different I argue that after African inculturation theology and black liberation theology a better way to make sense of being a Christian in Southern Africa is to pay close attention to people's language of faith The way in which people speak of the spirit world or powers in Africa appears strange to outsiders and the sense of community and the holistic worldview differentiates the African way of life from its Euro American counterparts When proper attention is paid to the use of concepts like spirit world power community and holism language of faith in Southern Africa is neither as strange as it may seem nor as romantic By investigating these distinguishing concepts that colour language of faith in Southern Africa this book contributes to future projects of both fellow theologians who try to

construct a contemporary African theology and those who are interested in theology in Africa given the well known southward shift of the centre of gravity of Christianity

Reason, Truth, and Theology in Pragmatist Perspective Paul D. Murray, 2004 In this work Paul Murray explores which style of rationality is most appropriate to Christian theology in the contemporary pluralist postfoundationalist postmodern context At its heart is a fresh consideration of the American pragmatist tradition focussing on the writings of Richard Rorty and Nicholas Rescher Where Rorty correctly diagnoses the failures of foundationalist objectivism Rescher's pragmatic idealism is presented as healing the ills in Rorty's own neo pragmatism The significant resonance between Rescher's view of rationality and Christian understanding of the trinity is explored In turn Donald MacKinnon's influential writings are presented as exemplifying just such an approach to theology Murray both articulates an enriched form of Christian postliberalism committed to receiving and learning from other traditions of thought and practice and probes the claim that the dynamics of human rationality can be expected to reflect the Trinitarian dynamics of God's being Paul Murray presents us here with an exhaustive and insightful study of recent pragmatic theory in which he sets up rhythms of healing and completion as well as interrogation particularly remarkable is his exploration of Christianity as the deep and in some sense final interlocutor of pragmatic tradition I strongly recommend this book Olivier Davis Professor of Christian Doctrine King's College London This is a mature wide ranging work that by uniting the intellectual and the practical carries both rational and ethical conviction It does equal justice to the classic teachings of Christianity and to the challenges to rethink them in dialogue with modern and postmodern approaches The result is a conception of Christianity both generously orthodox and deeply engaged with contemporary life and thought It is especially good to see the profound contribution of Donald MacKinnon understood and developed with such perception and relevance David F Ford Regius Professor of Divinity University of Cambridge Paul Murray is currently Lecturer in Systematic Theology within the Department of Theology at the University of Durham England He has previously held posts at St Cuthbert's Seminary Ushaw College Durham and Newman College of Higher Education Birmingham Essays of his exploring issues in philosophical theology science and theology and contemporary Roman Catholic theology have appeared in leading journals and edited collections This is his first monograph

The Dialogical Spirit Amos Yong, 2015-04-30 Contemporary proposals for Christian theology from post liberalism to Radical Orthodoxy and beyond have espoused their own methodological paradigms Those who have ventured into this domain of theological method however have usually had to stake their claims vis a vis trends in what may be called the contemporary post al age whether of the post modern post Christendom post Enlightenment post Western or post colonial varieties This volume is unique among offerings in this arena in suggesting a way forward that engages on each of these fronts and does so from a particularistic Christian perspective without giving up on Christian theology's traditional claims to universality This is accomplished through the articulation of a distinctive dialogical methodology informed by both Pentecostalism and Evangelicalism one rooted in the Christian salvation

history narrative of Incarnation and Pentecost that is yet open to the world in its many and various cultural ethnic religious and disciplinary discourses Amos Yong here engages with twelve different interlocutors representing different ecumenical religious and disciplinary perspectives The Dialogical Spirit thus not only proffers a model for Christian theological method suitable for the twenty first century global context but also exemplifies this methodological approach through its interactions across the contemporary scholarly inter religious and theological landscape

Orthodoxy in Arabic Terms Najib George Awad,2015-04-24 This volume presents Theodore Abu Qurrah s apologetic Christian theology in dialogue with Islam It explores the question of whether in his attempt to convey orthodoxy in Arabic to the Muslim reader Abu Qurrah diverged from creedal doctrinal Christian theology and compromised its core content A comprehensive study of the theology of Abu Qurrah and its relation to Islamic and pre Islamic orthodox Melkite thought has not yet been pursued in modern scholarship Awad addresses this gap in scholarship by offering a thorough analytic hermeneutics of Abu Qurrah s apologetic thought with specific attention to his theological thought on the Trinity and Christology This study takes scholarship beyond attempts at editing and translating Abu Qurrah s texts and offers scholars students and lay readers in the fields of Arabic Christianity Byzantine theology Christian Muslim dialogues and historical theology an unprecedented scientific study of Abu Qurrah s theological mind

Eccentricity in Anthropology Stephen R. Milford,2019-06-07 Eccentricity in Anthropology brings into conversation a constructive critical interpretation of David Kelsey s Eccentric Existence with a central yet often overlooked debate in theological anthropology the substantive relational imago Dei Milford s work explores new insights into human identity and dignity In particular he demonstrates the value of an alternate constructive of humanity in the image of God This construction utilizes an interpretation of Kelsey s anthropological formula so as to describe human identity as part of the created order in terms of its myriad features which are externally rooted Eccentricity in Anthropology demonstrates that an alternate approach to this debate is possible and that one can combine important aspects of both substantive and relational thinking As such Milford s work is an important contribution to studies in the doctrine of the imago Dei Taking Eccentric Existence s invitation to act as a springboard for further debate seriously it presents one possible fruitful use of Kelsey s work to address theological anthropological questions In a very real sense this book is both a discussion in systematic theology and at the same time a work in contemporary historical theology

Historical Dictionary of Wittgenstein's Philosophy Duncan Richter,2014-04-04 Ludwig Wittgenstein was the most influential and arguably the greatest philosopher of the 20th century This fact about his influence is not only a matter of how much he influenced people but also of how many people he influenced His early work was taken up by some of the pioneers of analytical philosophy His later work helped spawn another movement within analytic philosophy that of ordinary language philosophy sometimes called Oxford philosophy He is also considered by some to be a key postmodern thinker and an interest in his work is a distinguishing feature of many post analytical philosophers who seek to bridge the gap between analytical and so called continental

philosophy This second edition of Historical Dictionary of Wittgenstein's Philosophy covers the history of this philosophy through a chronology an introductory essay and an extensive bibliography The dictionary section has over 300 cross referenced entries on every aspect of his work This book is an excellent access point for students researchers and anyone wanting to know more about Wittgenstein's philosophy **Revitalizing Theological Epistemology** Steven B

Sherman,2010-03-25 In Revitalizing Theological Epistemology Steven B Sherman addresses questions about what evangelical theology ought to be doing in light of the changing cultural situation He wonders if the Christian faith should continue to be presented and defended mainly according to Enlightenment principles when growing criticism of modern thought is affecting virtually every discipline and if evangelicalism and its intellectual leaders ought to wait it out or whether they should re vision their theology This book is about contemporary evangelical approaches to the knowledge of God considering and suggesting ways Christian philosophers and theologians envision and make use of theological knowledge in the postmodern context *The A to Z of Wittgenstein's Philosophy* Duncan Richter,2010-02-12 Ludwig Wittgenstein 1889 1951 was

undoubtedly one of the most important philosophers of the 20th century and perhaps of any century He was also a fascinating charismatic and irritating man His philosophical ability was recognized almost immediately by Bertrand Russell and during his lifetime his work influenced first logical positivism and then ordinary language philosophy Since then it has also become central in post analytical philosophical thought Beyond the world of academic philosophy it has inspired playwrights poets novelists architects filmmakers and biographers The A to Z of Wittgenstein's Philosophy is intended for anyone who wants to know more about the philosophy and the life of this enigmatic thinker The book contains an introductory overview of his life and work a timeline of the major relevant events in and after his life an extensive bibliography and above all an A Z of ideas people and places that have been involved in his philosophy and its reception The dictionary is written with no particular agenda and includes entries on philosophers and others who influenced Wittgenstein those he influenced in turn and some of the main figures in contemporary Wittgenstein scholarship Suggestions for further reading are also included as well as a guide to the literature on Wittgenstein and a bibliography broken down by subject area

Christ and Culture Revisited D. A. Carson,2012-01-31 Called to live in the world but not to be of it Christians must maintain a balancing act that becomes more precarious the further our culture departs from its Judeo Christian roots How should members of the church interact with such a culture especially as deeply enmeshed as most of us have become In this award winning book now in paperback and with a new preface D A Carson applies his masterful touch to that problem After exploring the classic typology of H Richard Niebuhr with its five Christ culture options Carson offers an even more comprehensive paradigm for informing the Christian worldview More than just theoretical Christ and Culture Revisited is a practical guide for helping Christians untangle current messy debates about living in the world Pro Ecclesia Vol 26-N2

Kierkegaard and the Concept of Religious Authorship Keith H. Lane,2010 Keith H Lane examines Soren Kierkegaard s concept of religious authorship and argues for Kierkegaard s status as a religious author He elucidates how such authorship may have similarities to philosophical authorship particularly philosophy as envisioned by Ludwig Wittgenstein and wherein the two differ Starting with Kierkegaard s Concluding Unscientific Postscript and giving special attention to The Point of View and other later writings Lane investigates aspects of thought and expression that may be unique to religious authorship and explores the particular constraints challenges and opportunities for one who writes from within a framework of religious belief and commitment including such issues as protectionism apologetics persuasion and the tension between certainty and uncertainty that attends religious authorship
