A History of Catholic

Moral Theology in the Twentieth Century James F. Keenan, 2010-01-17 This is an historical survey of 20th Century Roman Catholic Theological Ethics also known as moral theology The thesis is that only through historical investigation can we really understand how the most conservative and negative field in Catholic theology at the beginning of the 20th could become by the end of the 20th century the most innovative one The 20th century begins with moral manuals being translated into the vernacular After examining the manuals of Thomas Slater and Henry Davis Keenan then turns to three works and a crowning synthesis of innovation all developed before during and soon after the Second World War The first by Odon Lottin asks whether moral theology is adequately historical Fritz Tillmann asks whether it is adequately biblical and Gerard Gilleman whether it is adequately spiritual Bernard Haering integrates these contributions into his Law of Christ Of course people like Gerald Kelly and John Ford in the US are like a few moralists elsewhere classical gate keepers censoring innovation But with Humanae vitae and successive encyclicals bishops and popes reject the direction of moral theologians At the same time moral theologians like Josef Fuchs ask whether the locus of moral truth is in continuous universal teachings of the magisterium or in the moral judgment of the informed conscience In their move toward a deeper appreciation of their field as forming consciences they turn more deeply to local experience where they continue their work of innovation Each continent subsequently gives rise to their own respondents In Europe they speak of autonomy and personalism in Latin America liberation theology in North America Feminism and Black Catholic theology and in Asia and Africa a deep post colonial interculturatism At the end I assert that in its nature theological ethics is historical and innovative seeking moral truth for the conscience by looking to speak crossculturally

The Blackwell Companion to Catholicism James J. Buckley, Frederick C. Bauerschmidt, Trent Pomplun, 2008-04-15 The Blackwell Companion to Catholicism offers an extensive survey of the history doctrine practices and global circumstances of Roman Catholicism written by a range of distinguished and experienced Catholic writers Engages its readers in an informed and informative conversation about Roman Catholic life and thought Embraces the local and the global the past and the present life and the afterlife and a broad range of institutions and activities Considers both what is

distinctive about Catholic life and thought and how Catholicism overlaps with and transforms other ways of thinking and living Topics covered include peacemaking violence and wars money the vow of poverty and socio economic life art by and about Catholics and men women and sex *The Identity of Christian Morality* Ann Marie Mealey,2016-03-03 This book argues that moral theology has yet to embrace the recommendations of the Second Vatican Council concerning the ways in which it is to be renewed One of the reasons for this is the lack of consensus between theologians regarding the nature content and uniqueness of Christian morality After highlighting the strengths and weaknesses of the so called autonomy and faith ethic schools of thought Mealey argues that there is little dividing them and that in some instances both schools are simply defending one aspect of a hermeneutical dialectic In an attempt to move away from the divisions between proponents of the faith ethic and autonomy positions Mealey enlists the help of the hermeneutical theory of Paul Ricoeur She argues that many of the disagreements arising from the Christian proprium debate can be overcome if scholars look to the possibilities opened up by Ricoeur's hermeneutics of interpretation Mealey also argues that the uniqueness of Christian morality is more adequately explained in terms of a specific identity self that is constantly subject to change and revision in light of many often conflicting moral sources She advocates a move away from attempts to explain the uniqueness of Christian morality in terms of one specific unchanging context motivation norm divine command or value By embracing the possibilities opened up by Ricoeurian hermeneutics Mealey explains how concepts such as revelation tradition orthodoxy and moral conscience may be understood in a hermeneutical way without being deemed sectarian or unorthodox **Catholic Moral Theology and Social Ethics** Christina Astorga,2013-12-01 Proposing a new method for moral theology Christina Astorga seeks to recast our understanding of the discipline by drawing from the faith vision of the entire theological enterprise including scripture dogmatic theology social ethics and spirituality *Handbook of Roman Catholic Moral Terms* James T. concepts every day in a collection of essays reflecting the international state of the discipline Out of these rises a vision for the emergence of a just and peaceful world **Church, World and the Christian Life** Nicholas M. Healy, 2000-09-18 This book analyzes the impact of pluralism and inclusivism upon ecclesiology **The Making of an African Christian Ethics** Wilson Muoha Maina, 2016-07-13 An exploration of the development of a contextualized Roman Catholic moral theology in an African context is warranted in our day This book is a study of the work of Benezet Bujo an African moral theologian An analysis of Bujo s work shows the various aspects of an African Catholic moral theology Bujo s work is viewed here as critically bridging African moral theology and the development of moral theology in the Catholic Church especially in the West An African moral theology in this work builds on the elements of the renewal of moral theology after the Second Vatican Council The renewal elements reflected in Bujo s work and other African Catholic theologians include among others the use of Scripture the relevance of history the debate on moral norms the relevance of social sciences to moral discourse the theory of natural moral law and the relation between the theologian and the magisterium This work therefore locates the theology of Bujo in the development of moral theology after the Second Vatican Council The author establishes a relation between African traditional religions African history Christology natural moral law moral autonomy debate the encyclical Veritatis Splendor and political liberation theological ethics *A Textbook of Christian Ethics* Robin Gill, 2014-01-16 Robin Gill s A Textbook of Christian Ethics continues to be popular with students and lecturers it is difficult to find another textbook in the field that combines primary texts with extensive analysis and commentary This 4th edition has been extensively revised and it incorporates up to date developments in the field of Christian ethics Gill retains all the popular features of the previous editions including its layout and structure and in this new edition he also focuses on current debates including such topics as global Christianity global economics euthanasia and global justice and the environment **Catholic Moral Philosophy in Practice & Theory** Bernard G. Barmann, 2015-04-24 This book project traces the thought of several Roman Catholic Modernists and one especially virulent anti Modernist as they confronted the intellectual challenges posed by the Great war from war from 1895 to 1907 *Church in China: Faith, Ethics, Structure* Aiming Wang, 2009 The Protestant Church in China is growing very fast However the role of the Church in society is still fragile and marginal The Church needs a strong ethical and structural development This study analyses the theological ethical and ecclesiological heritage of the Reformation and it shows how this can build the foundation for the future of the Church in China Four models serve as orientation the Reformers Luther and Calvin and the theologians Bonhoeffer and Barth in the 20th century with their vision of Christian faith and a humane society The critical analysis of the missionary heritage since the 19th century shows its contribution for the acceptance of the tradition of the Reformation for the growing Church in China The author combines this theological and ethical perspective with the inculturation in the strong ethical tradition of the Chinese culture He proposes the encounter between the spirituality of the

Western culture and that of the traditional culture of China through the relationship with Confucianism The book also offers elements for the dialogue around modern values such as human rights and civil society In this dialogue Chinese Protestantism can play more and more an important role

Protestant and Roman Catholic Ethics James M. Gustafson, 1978 If Catholic and Protestant ethicists were asked to name a single theologian who was qualified to write a comprehensive overview of the historical divergences of Catholic and Protestant positions on ethical questions the bases for those divergences in fundamentally different philosophical and theological perspectives and the possibilities for future convergences of the traditions my guess is that James Gustafson would be the one This brilliant and tightly argued book will be the most important book on moral theology to appear this year John Coleman National Catholic Reporter

The Catholic Moral Tradition Today Charles E. Curran, 1999-04-05 The Catholic tradition has always tried to explain its theology in a coherent and systematic way but the great changes and tensions existing within Catholic moral theology today have made it difficult to develop systematic approaches to what was once called fundamental moral theology Now a leading scholar active in this field for forty years offers a synthesis of Catholic moral theology set in the context of the broader Catholic tradition and the significant developments that have occurred since the Second Vatican Council Charles E Curran s succinct coherent account of his wide ranging work in Catholic moral theology points out agreements disagreements and changes in significant aspects of the Catholic moral tradition His systematic approach explores major topics in a logical development the ecclesiological foundation and stance of moral theology the person as moral subject and agent virtues principles and norms conscience and decision making and the role of the church as a teacher of morality Curran s work condenses and organizes a large amount of material to show that the Catholic theological tradition is in dialogue with contemporary life and thought while remaining conscious of its rich history Of great interest to theologians for its broad synthetic scope this book is also a thorough introduction to the Catholic moral tradition for students and interested readers including non Catholics
