Faith Of Our Fathers African American Men Reflect On Fatherhood:

Faith of Our Fathers Andre C. Willis, 1997 African American Men Reflect On Fatherhood With Essays by Henry Louis Gates Jr Cornel West John Edgar Wideman Charles Ogletree and others **The African-American Male** Jacob U. Gordon, 1999-07-30 The plight of the Black male in American society has been well documented by scholars and practitioners Although Black males represent only 6 percent of the American population they represent about 40 percent of the prison population the number of Black males in prison and jail exceeds the number of Black males in higher education The homicide rates for Black males were 72.5 percent per 100 000 nearly eight times higher than for White males This bibliographic volume explores the extent to which American academia has addressed these problems It will be an invaluable resource for researchers as well as practitioners in social service programs In addition to more than 400 annotated publications the book includes a selected list of works on the African American male and a compilation of doctoral dissertations This publication will serve as a reference in public as well as academic libraries human service agencies government policymaking agencies and in academic courses in gender and ethnic studies criminal justice and social psychology **The Minds of Marginalized Black Men** Alford A. Young Jr., 2011-10-30 While we hear much about the culture of poverty that keeps poor black men poor we know little about how such men understand their social position and relationship to the American dream Moving beyond stereotypes this book examines how twenty six poverty stricken African American men from Chicago view their prospects for getting ahead It documents their definitions of good jobs and the good life and their beliefs about whether and how these can be attained In its pages we meet men who think seriously about work family and community and whose differing experiences shape their views of their social world Based on intensive interviews the book reveals how these men have experienced varying degrees of exposure to more privileged Americans differences that ground their understandings of how racism and socioeconomic inequality determine their life chances The poorest and most socially isolated are perhaps surprisingly most likely to believe that individuals can improve their own lot By contrast men who regularly leave their neighborhood tend to have a wider range of opportunities but also have met with more racism hostility and institutional obstacles making them less likely to believe in the American Dream Demonstrating how these men interpret their social world this book seeks to de pathologize them without ignoring their experiences with chronic unemployment prison and substance abuse It shows how the men draw upon such experiences as they make meaning of the complex circumstances in which they strive to succeed *My Baby's Father* Maureen R. Waller, 2018-05-31 About one third of births in the United States occur to unmarried parents Evidence suggests that children who grow up in families headed by single parents have worse socioeconomic outcomes than those raised by married parents Fatherlessness has become a byword in public debate and policymaking yet fundamental questions about unmarried parents and their ideas of paternal responsibility remain unanswered In *My Baby's Father* Maureen R Waller draws on interviews with unmarried parents whose children receive

welfare to address several basic vital questions How do low income mothers and fathers define the father's obligation to his children and explain irresponsible behavior among fathers How do they negotiate private arrangements of paternal acknowledgment and support And how do these informal practices interact with mandatory welfare and child support regulations The majority of research on low income families focuses on single mothers Waller's book also gives a voice to the fathers historically either excluded from academic and policy discussions or simply characterized as deadbeat dads with no sense of paternal responsibility By documenting the experiences of African American and white parents simultaneously Waller illustrates the extent to which beliefs and practices are likely to cut across racial lines She also shifts the focus from teenagers to adults who constitute the largest group of unmarried parents My Baby's Father provides honest glimpses into the lives of unmarried parents In addition it offers specific recommendations for social policies that are both better suited to unmarried parents socioeconomic situations and more responsive to the practices of responsible fatherhood in low income families

Parenthood in America Jack C. Westman, 2001 In this outgrowth of a conference called Parenthood in America held at in April 1998 Westman emeritus psychiatry U of Wisconsin Medical School identifies the parent child relationship as the fundamental institution in our society one that fosters a lifelong ability to form and sustain intimate relationships and be a thoughtful moral person He argues for a shift in thinking toward the use of quality of life rather than material achievement as the central measure of success The work's 23 articles bring insights from research to bear on the practical aspects of childrearing and on policies that influence the context in which parenting occurs in the home and in the community

Race and Family Roberta L. Coles,2006 The author provided interesting original examples which I found engaging I think the biggest strength

is avoiding the one ethnicity per chapter approach found in so many books on family diversity I like the structural approach Hilary A Rose Concordia University A very useful book as a companion text for courses on race and ethnicity The chapters are easy to follow for undergraduate students Renxin Yang Northern Michigan University I think the book is needed because there are limited choices currently available and this book is moving in the right direction A strength is that it is not an edited book like so many other books on this topic There is a need for detailed study of ethnic minority families and I am excited about making this book my required text for my Ethnic Families Course Cheryl Burgan Evans Miami University I find the emphasis on social structure particularly appealing To date I have used Taylor s edited book which depends on the instructor to provide all of the integration Gretchen Cornwell Pennsylvania State University In Race and Family A Structural Approach author Roberta L Coles looks at ethnic minority families in a novel way through a structural lens Unlike many texts on race and family this book offers an approach that illustrates overarching structural factors affecting all families as opposed to examining each ethnicity in isolation from one another By focusing on various structural factors such as demographic economic and historical aspects this book analyzes various family trends in a cross cutting manner to exemplify the similarities and distinctions among all racial and ethnic groups Key Features Establishes commonalities and differences across various cultures within American society in an approach that enables students to better compare and contrast different ethnic groups Covers multiracial families in addition to traditional ethnic groups such as African American Native American Latino American and Asian American to provide the most contemporary examination of American families Uses the latest research and Census data to present a relevant assessment of trends in family structure gender relations intergenerational relations family violence acculturation interracial marriage and adoption in an increasingly diverse American context Includes an annotated listing of suggested videos autobiographies articles and Web sites students can explore for further information Race and Family is a brief core textbook designed for advanced undergraduate and graduate students studying ethnic minority families and family diversity in the departments of Human Development Family Studies Family Consumer Sciences and Sociology

The Dynamics of Masculinity in Contemporary Spanish Culture Lorraine Ryan, Ana Corbalan, 2016-11-03 This collection of essays explores cultural phenomena that are shaping masculine identities in contemporary Spain asking and striving to answer these compelling questions what does it mean to be a man in present day Spain How has masculinity evolved since Franco's dictatorship What are the dynamics of masculinity in contemporary Spanish culture How has hegemonic masculinity been contested in cultural productions This volume is comprised of sixteen essays that address these very questions by examining literary cultural and film representations of the configurations of masculinities in contemporary Spain Divided into three thematic units starting with the undermining of the monolithic Francoist archetype of masculinity continuing with the reformulation of hegemonic masculinity and finishing with regional emergent masculinities all of the volume's essays focus on the redefinition of Spanish masculinities Principal themes of the volume include alternative families queer masculinities performative masculinities memory and resistance to hegemonic discourses of manliness violence and emotions public versus private masculinities regional masculinities and marginal masculinities This exploration not only produces new insights into masculinity but also yields nuanced insights into the recuperation of memory in contemporary Spain the reconfiguration of the family the status of women in Spanish society and regional identities

Gender and Memory in the Postmillennial Novels of Almudena Grandes Lorraine Ryan, 2021-04-21 Almudena Grandes is one of Spain's foremost women's writers having sold over 1.1 million copies of her *episodios de una guerra interminable* her six volume series that ranges from the Spanish Civil War to the democratic period the myriad prizes awarded to her 18 in total confirm her pre-eminence This book situates Grandes's novels within gendered philosophical and mnemonic theoretical concepts that illuminate hidden dimensions of her much studied work Lorraine Ryan considers and expands on existing critical work on Grandes's oeuvre proposing new avenues of interpretation and understanding She seeks to debunk the arguments of those who portray Grandes as the proponent of a sectarian eminently biased Republican memory by analysing the wide variety of gender and perpetrator memories that proliferate in her work The intersection of perpetrator memory with masculinity ecocriticism medical ethics and the child's perspectives confirms Grandes' nuanced engagement with Spanish memory culture Departing from a philosophical basis Ryan reconfigures the Republican victim in the novels as a vulnerable subject who attempts to flourish thus refuting the current critical opinion of the victim as overly empowered The new perspectives produced in this monograph do not aim to suggest that Grandes is an advocate of perpetrator memory rather it suggests that Grandes is committed to a more pluralistic idea of memory culture whereby her novels generate

understanding of multiple victim perpetrator and gender memories an analysis that produces new and meaningful engagements with these novels Thus Ryan contends that Grandes s historical novels are infinitely more complex and nuanced than heretofore conceived **Rain on a Strange Roof** Jan Whitt,2012-03-22 A scholar of Southern literature and culture

Jan Whitt has written a personal narrative about adoption childhood abuse and fifty years of searching for her family in rural Appalachia A testament to the power of love and the resilience of the human spirit Rain on a Strange Roof unflinchingly explores death and loss at the same time that it celebrates the transformative power of love and literature An award winning professor Whitt teaches courses in American and British literature literary journalism media and women s studies Quoting from films novels and short stories about the American South Whitt weaves a narrative about the necessity for human connection and the desire for home *Bonhoeffer and King* Willis Jenkins,2010-08-02 Dietrich Bonhoeffer and Martin

Luther King Jr these giants of recent Christian social thought are here reassessed for a new context and a new generation Both combined activism ministry and theology Each took on public roles in opposition to prevailing powers of their time Each professed a kind of Christian realism and ended as martyrs to their respective causes Here many of the leaders in Christian social thought revisit the insights causes and strategies that Bonhoeffer and King employed for a new generation and its concerns race reconciliation nonviolence political violence Christian theological identity and ministry BACK COVER
