Faith That Goes The Distance

Faith That Goes The Distance:

Faith that Goes the Distance Jud Wilhite, 2002 A compelling look at dynamic faith this book takes you through the hall of faith found in Hebrews 11 a chapter full of people firmly anchored in God to reveal how you can discover the Lord's transforming power You'll meet folks such as Noah Abraham Moses and Rahab as well as many modern day men and women who model the kind of robust faith God longs for you to experience

The Heart of a Warrior: a Mom's Journey of Faith and Hope, **A Symphony of Distances** Christopher M. Hadley, Christopher M. Hadley, SJ, 2022-03-11 The two fold task of *A Symphony of Distances* is to provide an overview of Hans Urs von Balthasar's use of distance imagery with regard to personal distinctions in the Holy Trinity and to offer a critical analysis of him as a modern Catholic theologian A metaphor of distance integrates all of Balthasar's theological thought as a primary cipher for the many symbols through which he reads the Christian theological tradition in a trinitarian and eschatological mode The book follows a chronological four stage development of Balthasar's trinitarianism through the lens of this distance metaphor as it occurs across representative texts The critical analysis employs the conceit of a symphony of four musical movements that correspond to four varieties of theological distance These distances show certain correspondences of God's creation and redemption of the world marked by the first two distances with the relations of the divine persons to each other in the economy of salvation and in the eternal Trinity itself marked by the third and fourth distances Listening to the four movements of Balthasar's theological distances enables his readers to hear the themes of all four movements in the ascending order of richness complexity and inclusivity over the long development of his thought This fundamentally positive approach of *A Symphony of Distances* allows for a thorough critique of the internal consistency of Balthasar's applied method of the controversial use of gendered trinitarian notions in his speculations on divine pathos and of his adequacy to the tasks of modern theology The final judgment is that Balthasar's theology of distance can be accepted with reservations as a positive element of his contribution to contemporary trinitarian theology The book can thus serve as a critical reference for readers who find Balthasar's notion of trinitarian distance and indeed his trinitarianism as a whole to be compelling confusing or frustrating

Faith, Freedom, and Rationality Jeff Jordan, Daniel Howard-Snyder, 1996 The philosophy of religion once considered a deviation from an otherwise analytically rigorous discipline has flourished over the past two decades This collection of new essays by twelve distinguished philosophers of religion explores three broad themes religious attitudes of belief acceptance and love human and divine freedom and the rationality of religious belief

Insights Norman Sorensen, 2013-07-27 Norman Sorensen has now gathered a selection of genial anecdotes lively retellings of Biblical verses and deep spiritual insights The book is drawn from one man's extraordinary life experiences spanning the decades from before World War II to the present Here is the wisdom of a man who has lived through a century of tumult and change where

the only consistency is the one that counts the overwhelming reach of God's love. Without diminishing their spiritual message, Sorensen brings color and life to Biblical stories with vibrantly imagined details. We experience the sight of white seagulls soaring over the Sea of Galilee, the thunder of horses in the Moab army, the tumbling clouds of dust as crowds gather near Jesus. Sorensen's retelling of stories like those of Saul, Nicodemus, David, and Goliath are faithful to the Bible to the finest detail but written in contemporary vernacular. It's as if the people in the Bible are speaking directly to us today, which Sorensen is reminding us they are. *Faith and Social Service*, George Hodges, 1896. *Desire, Faith, and the Darkness of God*, Eric Bugyis, David Newheiser, 2015-11-15. In the face of religious and cultural diversity, some doubt whether Christian faith remains possible today. Critics claim that religion is irrational and violent, and the loudest defenders of Christianity are equally strident. In response, *Desire, Faith, and the Darkness of God: Essays in Honor of Denys Turner* explores the uncertainty essential to Christian commitment; it suggests that faith is moved by a desire for that which cannot be known. This approach is inspired by the tradition of Christian apophatic theology, which argues that language cannot capture divine transcendence. From this perspective, contemporary debates over God's existence represent a dead end if God is not simply another object in the world; then faith begins not in abstract certainty but in a love that exceeds the limits of knowledge. The essays engage classic Christian thought alongside literary and philosophical sources ranging from Pseudo-Dionysius and Dante to Karl Marx and Jacques Derrida. Building on the work of Denys Turner, they indicate that the boundary between atheism and Christian thought is productively blurry. Instead of settling the stale dispute over whether religion is rationally justified, their work suggests instead that Christian life is an ethical and political practice impassioned by a God who transcends understanding.

Faith in Rhyme, J. D. Baskin, 2016-03-24. *Faith in Rhyme: Unbounded* is the third in a series of *Faith in Rhyme* books written by author and poet J. D. Baskin. This book contains poems ranging in subject matter from God's love to patriotism, to Biblical personages to nature. Each poem tells a story, whether based upon headline news stories from the Bible, people or occurrences personally known to the author, or simply the author's imagination. Readers will keenly feel the author's great faith in God and his desire to share the strength he finds in his Lord. The clear and honest style expressed by the author will appeal to readers of all ages and will inspire them to spend time daily reflecting on God's grace and goodness. The book's subtitle of *Unbounded* indicates that unlike the first two books, this book is not set apart in sections of topical verse but it may also take on a greater meaning to individual readers. It is the author's belief that faith should truly be *Unbounded*. And it is his hope that as you read, you will enjoy and be blessed. ***Leaves of Healing***, 1897. ***Stories of Therapy, Stories of Faith***, Lex McMillan, Sarah Penwarden, Siobhan Hunt, 2017-03-28. *Stories of Therapy, Stories of Faith* is a collection of stories from therapists who have amplified the theology already present in their work. In particular, these authors, a group of counseling practitioners and educators, bring forward a dialogue between their practices and a social Trinitarian theology that emphasizes the relational nature of God and humans. The resulting stories of practice give voice to the ethical hope that

counseling practice is participation in the redemptive story of the Gospel The authors write about their motivations for practice in initiatives as diverse as parenting trauma work opposing bullying in schools reengaging orphaned African children with their heritage providing hospitality for difference and counselor education Stories of Faith will be of interest to counselors and counselor educators particularly those drawn to developing their ethical and theological commitments within their therapeutic practices

There is an instant connection for both her and Archer and after parting they become obsessed with finding one another once again. Fate steps in and Faith finds her mystery man and he's even more wonderful than she could have imagined. He encourages her to believe in herself and she can't believe she's found the one. Just when Faith thinks she is finally on the right path her past comes back to haunt her and drags her back down into the depths of despair. An emotion she had hoped would never touch her heart again. Perhaps fate had other plans for her. Was she ever going to get her happily ever after? Atheist Norman L. Geisler, Frank Turek, 2021-05-17 To some, the concept of having faith in a higher power or a set of religious beliefs is nonsensical. Indeed, many view religion in general and Christianity in particular as unfounded and unreasonable. Norman Geisler and Frank Turek argue, however, that Christianity is not only more reasonable than all other belief systems but is indeed more rational than unbelief itself. With conviction and clear thinking, Geisler and Turek guide readers through some of the traditional, tested arguments for the existence of a creator God. They move into an examination of the source of morality and the reliability of the New Testament accounts concerning Jesus. The final section of the book deals with a detailed investigation of the claims of Christ. This volume will be an interesting read for those skeptical about Christianity as well as a helpful resource for Christians seeking to articulate a more sophisticated defense of their faith.

Leaps of Faith Anne C. Benoit, Joann S. Olson, Carrie Johnson, 2018-09-01 As discourses and programming to support diversity and inclusion across higher education are intensifying, *Leaps of Faith: Stories from Working Class Academics* presents a collection of narratives that highlights the on-the-ground experiences of working-class students and scholars. These are stories of negotiation, transition, and challenge. These are stories of struggle. These are stories of beating the odds. The early works of Ryan and Sackrey (1984), Sennett and Cobb (1993), and Dews and Law (1996) raised the voices of working-class academics, and the subject of class in higher education has gained traction, especially with the increasing focus on the

enrollment and persistence of first generation college students This project situates contributor stories in adult learning and development with the goal of enhancing dialogue and increasing understanding of a still hidden population in the academy Leaps of Faith Stories from Working Class Academics is a compelling collection of reflections from working class students and scholars from diverse demographic and geographic backgrounds who are currently navigating various transition points and career stages Leaps of Faith Stories from Working Class Academics presents the strengths and gifts of the scholar contributors and the opportunity to turn the stories through accessible and meaningful reflective telling The collection concludes with a discussion of salient implications for working class students and scholars those who support their learning and development and higher education institutions and programs
