The Coloniality of Humanitarian Intervention Patrick J. Vernon,2024-05-28 This book scrutinises the practice of humanitarian intervention to explore the extent to which racism and heteronormativity rooted in colonial understandings of time and space are enacted through the UK s responses failed responses and non responses to atrocity crimes Taking humanitarian intervention as its central focus the book uses queer international relations scholarship to draw the ongoing coloniality of the Western state into stark relief In particular it highlights the ways in which dominant logics in these debates invoke subject positions of extreme selfhood or otherness These are identified as The Brutal Dictator The ISIL Terrorist and The British Self framed as existing at various steps on The Universal Path to Democracy In studying these extreme cultural figures of selfhood and or otherness the book examines the ways in which racism and heteronormativity work together to dehumanise certain populations under coloniality and the ways in which this can be resisted By studying the UK s response to mass atrocities in Libya Syria Iraq and Myanmar between 2011 and 2018 it uncovers the extent to which these debates continue to operate through a colonial script The book notably studies failed interventions Syria and non interventions Myanmar as significant objects of study which alongside the comments of UK legislators opposing the case for violence help to expose the ongoing impact of colonial identities in the formulation of contemporary foreign policy As well as looking at the British case the book reflects upon changing norms of humanitarian intervention from the 1990s to the present day including what might be understood as the rise and fall of R2P The book also makes a distinct contribution to queer international relations scholarship broadening what Vernon calls the homonormative turn with a renewed focus on heteronormativity as a racist and globally dominant episteme Offering both a theoretically informed analysis of humanitarian intervention and a practical guide for possible strategies to resist future iterations of liberal violence this book will appeal to scholars students policy makers and NGOs interested in R2P humanitarian intervention queer decolonial feminist international relations and British politics

The Grammar of Politics and Performance Shirin M Rai,Janelle Reinelt,2014-12-05 This volume brings together important work at the intersection of politics and performance studies While the languages of theatre and performance have long been deployed by other disciplines these are seldom deployed seriously and pursued systematically to discover the actual nature of the relationship between performance as a set of behavioural practices and the forms and the transactions of these other disciplines This book investigates the structural similarities and features of politics and performance which are referred to here as grammar a concept which also emphasizes the common communicational base or language of these fields In each of the chapters included in this collection key processes of both politics and performance are identified and analyzed demonstrating the critical and indivisible links between the fields The book also underlines that neither politics nor performance can take place

without actors who perform and spectators who receive evaluate and react to these actions At the heart of the project is the ambition to bring about a paradigm change such that politics cannot be analyzed seriously without a sophisticated understanding of its performance All the chapters here display a concrete set of events practices and contexts within which politics and performance are inseparable elements This work will be of great interest to students and scholars in both International Relations and Performance Studies

Out of Time Rahul Rao,2020 Between 2009 and 2014 an anti homosexuality law circulating in the Ugandan parliament came to be the focus of a global conversation about queer rights The law attracted attention for the draconian nature of its provisions and for the involvement of US evangelical Christian activists who were said to have lobbied for its passage Focusing on the Ugandan case this book seeks to understand the encounters and entanglements across geopolitical divides that produce and contest contemporary queerphobias It investigates the impact and memory of the colonial encounter on the politics of sexuality the politics of religiosity of different Christian denominations and the political economy of contemporary homophobic moral panics In addition *Out of Time* places the Ugandan experience in conversation with contemporaneous developments in India and Britain three locations that are yoked together by the experience of British imperialism and its afterlives Intervening in a queer theoretical literature on temporality Rahul Rao argues that time and space matter differently in the queer politics of postcolonial countries By employing an intersectional analysis and drawing on a range of sources Rao offers an original interpretation of why queerness mutates to become a metonym for categories such as nationality religiosity race class and caste The book argues that these mutations reveal the deep grammars forged in the violence that founds and reproduces the social institutions in which queer difference struggles to make space for itself

Neoliberalism and U.S. Foreign Policy Catherine V. Scott,2018-01-23 While there has been a flood of scholarly efforts to extend adapt and revise Foucault s exploration of the emergence and operations of neoliberalism the study of foreign

policy has remained steeped in the analysis of partisanship institutions policies and personality and their influence on various issue areas toward particular countries or specific presidential doctrines This book brings the political rationality of neoliberalism to bear on U S foreign policy in two distinct ways First it challenges complicates and revises the numerous interpretations of U S nationalism that posit a homologous relationship between 1898 and contemporary nationalism instead arguing that alterations in the operations of capitalism and its correlative forms of governance have produced a differently formatted nationalism which in turn has produced different operations of U S hegemony in the twenty first century that markedly depart from earlier eras Second this book argues for a new timeline one that starts with the Carter Reagan era and the crisis of capitalism ultimately encouraging us to think beyond particular presidencies wars bureaucratic politics and policies in order to train our sights on how long term and sustained shifts in the economy and attendant government practices have emerged to produce new myths of exceptionalism that more fully cohere with the neoliberal foundations of the U S nation state

Transforming World Politics Anna M. Agathangelou, L.H.M. Ling, 2009-06-02 This book provides a critical understanding of contemporary world politics by arguing that the neoliberal approach to international relations seduces many of us into investing our lives in projects of power and alienation These projects offer few options for emancipation consequently many feel they have little choice but to retaliate against violence with more violence The authors of this pioneering work articulate worldism as an alternative approach to world politics It intertwines non Western and Western traditions by drawing on Marxist postcolonial feminist and critical security approaches with Greek and Chinese theories of politics broadly defined The authors contend that contemporary world politics cannot be understood outside the legacies of these multiple worlds including axes of power configured by gender race class and nationality which are themselves linked to earlier histories of colonizations and their contemporary formations With fiction and poetry as exploratory methods the authors build on their multiple worlds approach to consider different sites of world politics arguing that a truly emancipatory understanding of world politics requires more than just a shift in ways of thinking above all it requires a shift in ways of being Transforming World Politics will be of vital interest to students and scholars of International Relations Political Science Postcolonial Studies Social Theory Women s Studies Asian Studies European Union and Mediterranean Studies and Security Studies
