Faking Literature:

Faking Literature K. K. Ruthven, 2001-04-30 *Faking Literature* first published in 2001 examines the role of forgery in literature Australian Literature Graham Huggan, 2007-09-27 The Oxford Studies in Postcolonial Literatures series offers stimulating and accessible introductions to definitive topics and key genres and regions within the rapidly diversifying field of postcolonial literary studies in English In a provocative contribution to the series Graham Huggan presents fresh readings of an outstanding sometimes deeply unsettling national literature whose writers and readers just as unmistakably belong to the wider world Australian literature is not the unique province of Australian readers and critics nor is its exclusive task to provide an internal commentary on changing national concerns Huggan's book adopts a transnational approach motivated by postcolonial interests in which contemporary ideas taken from postcolonial criticism and critical race theory are productively combined and imaginatively transformed Rejecting the fashionable view that Australia is not and never will be postcolonial Huggan argues on the contrary that Australian literature like other settler literatures requires close attention to postcolonial methods and concerns A postcolonial approach to Australian literature he suggests is more than just a case for a more inclusive nationalism it also involves a general acknowledgement of the nation's changed relationship to an increasingly globalized world As such the book helps to deprovincialize Australian literary studies Australian Literature also contributes to debates about the continuing history of racism in Australia a history in which the nation's literature has played a constitutive role as both product and producer of racial tensions and anxieties nowhere more visible than in the discourse it has produced about race both within and beyond the national context

Fakes and Forgeries Peter Knight, Jonathan Long, 2004 The possibility that works of art and literature might be forged and that identity might be faked has haunted the cultural imagination for centuries That spectre seems to have returned with a vengeance recently with a series of celebrated hoaxes and scandals ranging from the Alan Sokal hoax article in *Social Text* to Benjamin Wilkomirski's *Fool's Holocaust* memoir But as well as creating anxiety the possibility of faking it has now been turned into entertainment Traditionally these activities have been dismissed as dangerous and immoral but more recently some scholars have begun to speculate for example that all forms of national identity rely on forged myths of origin Recent cultural theory has likewise called into question traditional notions of authenticity and originality in both personal identity and in works of art Despite critical pronouncements of the death of the author and the substitution of the simulacrum for the original however making a distinction between the genuine and the fake continues to play a major role in our everyday understanding and evaluation of culture law and politics Consider for example the fiasco surrounding the forged Hitler diaries law suits against auction houses for failing to detect forgeries in the art market or the problem of plagiarism at universities It still seems to matter that we can spot the difference especially in the historical moment when we are capable of making copies that are indistinguishable perhaps even better than the original This collection of essays considers the moral aesthetic and political

questions that are raised by the long history and current prevalence of fakes and forgeries The international team of contributors consider the issues thrown up by a wide range of examples drawn from fields ranging from literature to art history These case studies include little known subjects such as Eddie Burrup the Australian aboriginal artist who turned out to be an 81 year old white woman as well as new interpretations of familiar cases such as faked holocaust memoirs The strength of the collection is that it brings together not only a wide range of cultural examples of fakes and forgeries from different historical periods but also offers a wide variety of theoretical takes that will form a useful introduction and casebook on this growing field of inquiry

The Czech Manuscripts David L. Cooper, 2023-10-15 The Czech Manuscripts is dedicated to one of the most important literary forgeries on the model of Macpherson's Ossianic poetry The Queen's Court and Green Mountain Manuscripts discovered in 1817 and 1818 went on to play an outsized role in the Czech National Revival functioning as founding texts of the national mythology and serving as sacred works in the long period when they were considered genuine A successful literary forgery tells a lot about what a culture wants and needs at a particular moment One fascinating aspect of this story is how a successful fake was able to function in an integral way as part of the Czech cultural revival of the nineteenth century both because it played to expectations and nationalist values and because it met real cultural needs in many ways better than genuine historical literary works and artefacts Also fascinating is the vainglorious Vclav Hanka a prolific and dedicated forger who was likely the center of the conspiratorial ring that created the manuscripts and who went on as the librarian of the Czech National Museum to alter a number of others David Cooper analyzes what made the Manuscripts a convincing imitation of their Serbian and Russian models He looks at how translation shaped their composition and at the benefit of examining them as pseudotranslations and investigates the quasi religious rituals and commemorative practices that developed around them The Czech Manuscripts brings the Czech experience into the broader developments of European history
