The Compleat Falconer Frank Lyman Beebe, 1992 A veritable how to of Frank Beebe's lifetime experience Included are plates of 32 original paintings and more than 100 illustrations and drawings What is Falconry Really it is just bird watching although a rather dramatic specialized glamorized and historical kind of bird watching It involves the taking of a predatory bird into the same kind of familiar loosely controlled relationship with man as is so well known and so commonplace with a dog or a horse then with the relationship established going out hunting in the company of that predatory bird in a partnership in which the bird is the primary hunter and the human plays the lesser part The human becomes a bird watcher or if involved in the menial capacity of a bird dog to flush quarry or as an assistant in subduing quarry already taken It is an ancient honorable and rather humbling relationship as old in time as that of man and dog or man and horse With the exception of eagles most of the birds involved are smaller than the most ordinary house cat or Pekinese dog and are about as dangerous to people They are accordingly much less dangerous than any ordinary sized dog and infinitely less dangerous than is the smallest pony Their acquisition and their use therefore needs no more in the way of imposed control than does the keeping of the most inoffensive dog or cat This book is about falconry It deals with the acquiring and the care control and training of the kinds of raptorial birds most suited to this ancient relationship and also as far as is now possible describes and identifies the birds of falconry Of the determined and devious twenty year efforts extending from 1964 to 1987 by nature preservationist groups and government agencies to control constrain institutionalize and finally to simply criminalize falconry this book will contain only enough to orient a newcomer Some of this had to be included somewhat reluctantly it is highly condensed and closely edited to allow some comprehension of why and how contemporary falconry has become so different from its traditional past as to require a new book with quite different priorities and orientation than heretofore The training procedures I propose in this book differ significantly from the traditional procedures reiterated in all previous books on falconry and are especially oriented toward the training of these domestic hawks and falcons Because they are essentially man made these birds come to the falconer not only devoid of fear and of hunting experience but also devoid of those subtle disciplines imposed by natural selection with which the traditional

procedures were by trial and error so perfected to cope *Arab Falconry* Roger Upton, 2002 Available in three editions Trade Edition limited to 2500 copies Patrons Edition limited to 200 signed copies Limited Edition 3 4 leather 50 signed copies This title is devoted to Arab Falconry and details the trapping training and hunting procedures of falconry in Arabia the Gulf Coast and falconry from Morocco to Pakistan The traditions of Arab falconry are told with a Western voice as Roger Upton delves into the mystique of the tradition of falconry in the Middle East Since pre Islamic times the Arab world has had a proud history of flying hawks including Sakers Lanners and Peregrines From Morocco to Pakistan falconers princes and sheikhs come together at hunting camps to share their experiences and techniques for trapping hawks and flying them at quarry Whether the hawking party involves a handful or hundreds of men they sit around the campfire to discuss their day tell stories and prepare their hawks for the next day of hunting Whether the prey is the Houbara Bustard the stone curlew or the desert hare Arab falconers train their prized falcons to be successful hunters of their chosen quarry Using traditional techniques such as hooding to modern developments like telemetry Arab falconers find success and satisfaction in the sport of falconry Arab Falconry explores their stories With a personal account by author Roger Upton including excerpts from his own diaries that follow his adventures on hawking trips over decades this book provides a real glimpse into the world of Arab falconry which is rarely documented in the West **Peregrine Spring** Nancy Cowan, 2016-03-01 New York Times Bestseller Peregrine Spring Nancy Cowan s memoir of her thirty years living intimately with raptors gives us a new perspective on the relationship between humans and the natural world Cowan shares her experiences running a world famous falconry school and the lessons she s learned from her birds From retrieving her falcon from the local police lock up to finding her husband in bed with a gyrfalcon to a heart breaking race to save her young peregrine from attack by a wild hawk Cowan s life is a constant ever changing adventure Cowan s birds have immersed her so much into their world that she has found herself courted by a Goshawk and bossed about by a Harris Hawk The book carries her readers along so they too meet hawks and falcons in ways they never imagined possible
