Viennese Classical style *London Opera Observed 1711-1844, Volume I* Michael Burden, 2024-08-23 The thrust of these five volumes is contained in their title *London Opera Observed*. It takes its cue from the numerous texts and volumes which during the seventeenth, eighteenth and nineteenth centuries used the concept of spying or observing by a narrator or Rambler as a means of establishing a discourse on aspects of London life. The material in this five-volume reset edition examines opera not simply as a genre of performance but as a wider topic of comment and debate. The stories that surrounded the Italian opera singers illuminate contemporary British attitudes towards performance, sexuality and national identity. The collection includes only complete published material organised chronologically so as to accurately retain the contexts in which the original readers encountered them, placing an emphasis on rare texts that have not been reproduced in modern editions. The aim of this collection is not to provide a history of opera in England but to facilitate the writing of them or to assist those wishing to study topics within the field. Headnotes and footnotes establish the publication information and provide an introduction to the piece, its author and the events surrounding it or which caused its publication. The notes concentrate on attempting to identify those figures mentioned within the texts. The approach is one of presentation not interpretation, ensuring that the collection occupies a position that is neutral rather than polemical.

Variations on the Canon Robert Curry, David Gable, Robert Lewis Marshall, 2008 Masterful essays honoring the great pianist and critic Charles Rosen on masterpieces from Bach and Beethoven to Chopin, Verdi and Stockhausen. Charles Rosen, the pianist and man of letters, is perhaps the single most influential writer on music of the past half century. While Rosen's vast range as a writer and performer is encyclopedic, it has focused particularly on the living canonical repertory extending from Bach to Boulez. Inspired in its liveliness and variety of critical approaches by Charles Rosen's challenging work, *Variations on the Canon* offers original essays by some of the world's most eminent musical scholars. Contributors address such issues as style and compositional technique, genre influence and modeling, and reception history, develop insights afforded by close examination of compositional sketches, and consider what language and metaphors might most meaningfully convey insights into music. However diverse the modes of inquiry, each essay sheds new light on the works of those composers posterity has deemed central to the modern Western musical tradition.

Contributors: Pierre Boulez, Scott Burnham, Elliott Carter, Robert Curry, Walter Frisch, David Gable, Philip Gossett, Jeffrey Kallberg, Joseph Kerman, Richard Kramer, William Kinderman, Lewis Lockwood, Sir Charles Mackerras, Robert L. Marshall, Robert P. Morgan, Charles Rosen, Julian Rushton, David Schulenberg, László Somfai, Leo Treitler, James Webster, and Robert Winter. Robert Curry is principal of the Conservatorium High School and honorary senior lecturer in the Centre for Medieval Studies, University of Sydney. David Gable is Assistant Professor of Music at Clark Atlanta University. Robert L. Marshall is Louis Frances and Jeffrey Sachar Professor Emeritus of Music at Brandeis University.

Gibson, 2017-07-05 *Masculinity and Western Musical Practice* Kirsten Gibson, 2017-07-05 How have men used art music? How have they listened to and brandished the musical forms of the Western classical tradition, and how has music intervened in their identity formations? This collection of essays addresses these questions by examining some of the ways in which men, music, and masculinity have been implicated with each other since the Middle Ages. Feminist musicologies have already dealt extensively with music and gender from the phallogentric tendencies of the Western tradition to the explicit marginalization of women from that tradition. This book builds on that work by turning feminist critical approaches towards the production, rhetorical engagement, and subversion of masculinities in twelve different musical case studies. In other disciplines within the arts and humanities, men's studies is a well-established field. Musicology has only recently begun to address critically music's engagement with masculinity, and as a result has sometimes thereby failed to recognize its own discursive misogyny. This book does not seek to cover the field comprehensively but rather to explore in detail some of the ways in which musical practices do the cultural work of masculinity. The book is structured into three thematic sections: effeminate and virile musics and masculinities; national masculinities; national musics and identities; voices, discourses. Within these themes, the book ranges across a number of specific topics: late medieval masculinities; early modern discourses of music, masculinity, and medicine; Renaissance Italian masculinities; eighteenth, nineteenth, and early twentieth-century ideas of creativity, gender, and canonicity; masculinity, imperialist and nationalist ideologies in the nineteenth century; and constructions of the masculine voice in late nineteenth

and twentieth century opera and song While the case studies are methodologically disparate and located in different historical and geographical locations they all share a common concern
