Each entry includes a brief biographical sketch of the composer, approximate duration, text sources, performing forces, available editions, and locations of manuscript materials, as well as descriptive commentary, a discography, and a bibliography. Unique to this edition are practitioner's evaluations of the performance issues presented in each score. These include the range, tessitura, and nature of each solo role and a determination of the difficulty of the choral and orchestral portions of each composition. There is also a description of the specific challenges, staffing, and rehearsal expectations related to the performance of each work. Comprising 20 essays by distinguished scholars from North America, the UK, and Australia, it is divided into sections on criticism and theory, text, textuality, and technology, Renaissance ideas and conventions, and Shakespeare and the city. The essays address issues that are fundamental to our interpretive encounter with Shakespeare, including those of gender and sexuality, the staging of plays, and historical research on matters such as the monarchy, language, religion, and the law.

Mozart's Music of Friends Edward Klorman, 2016-04-21 In 1829 Goethe famously described the string quartet as a conversation among four intelligent people. Inspired by this metaphor, Edward Klorman's study draws on a wide variety of documentary and iconographic sources to explore Mozart's chamber works as the music of friends. Illuminating the meanings and historical foundations of comparisons between chamber music and social interplay, Klorman infuses the analysis of sonata form and phrase rhythm with a performer's sensibility. He develops a new analytical method called multiple agency that interprets the various players within an ensemble as participants in stylized social intercourse, characters capable of surprising, seducing, outwitting, and even deceiving one another musically. This book is accompanied by online resources that include original recordings performed by the author and other musicians, as well as video analyses that invite the reader to experience the interplay in time as if from within the ensemble.
