### Responsibility and Liability in the Context of Transboundary Movements of Hazardous Wastes by Sea Jan

Albers, 2014-09-25 The term hazardous wastes covers a wide range of disused products and production wastes generated not only in industrial sectors but also in all areas of everyday life Hazardous wastes are to a large extent shipped by sea to third countries for recycling or disposal While the procedural requirements for such movements are laid out in the 1989 Basel Convention explicit rules of responsibility and liability for resulting damages are neither provided by the Basel Convention nor by other international conventions The Liability Protocol to the Basel Convention of 1999 has not yet entered into force This book examines the existing rules of responsibility and liability applying to States and private persons and outlines the conditions under which liability may be incurred Subsequently the advantages and shortcomings of the 1999 Liability Protocol are analyzed Although this Protocol faces substantial political headwind from a legal perspective it includes principally useful and reasonable approaches and should therefore be ratified **Hazard or Hardship** Jeffrey

Hilgert, 2014-02-15 Today hazardous work kills 2 3 million people each year and injures millions more Among the most compelling yet controversial forms of legal protection for workers is the right to refuse unsafe work The rise of globalization precarious work neoliberal politics attacks on unions and the idea of individual employment rights have challenged the protection of occupational health and safety for workers worldwide In *Hazard or Hardship* Jeffrey Hilgert presents the protection of refusal rights as a moral and a human rights question Hilgert finds that the protection of the right to refuse unsafe work as constituted under international labor standards is a failure and calls for a reexamination of worker health and safety policy from the ground up The current model of protection follows an individual employment rights framework which fails to protect workers against the inherent social inequalities within the employment relationship To adequately protect the right to refuse as a human right both in North America and around the world Hilgert argues that a broader protection must be granted under a freedom of association framework *Hazard or Hardship* will be a welcome resource for labor and environmental activists trade union leaders labor lawyers and labor law scholars industrial relations experts human rights advocates public health professionals and specialists in occupational safety and health *Swedish-American Conference on Chemical Hazards in the Work Environment*, 1980 **Understanding Youth Work Law** Brian P.
